Fairy Tales Natural History and Victorian Culture examines how literary fairy tales were informed by natural historical knowledge in the Victorian period as well as how popular science books used fairies to explain natural history at a time when nature became a much debated word The Heroic Age Hector Munro Chadwick, 1912 Creating Romantic Obsession Kathleen Béres Rogers, 2019-03-29 Most of us have at one time been obsessed with something but how did obsession become a mental illness This book examines literary medical and philosophical texts to argue that what we call obsession became a disease in the Romantic era and reflects the era's anxieties Using a number of literary texts some well known like Mary Shelley's 1818 Frankenstein and Edgar Allan Poe's 1843 The Tell Tale Heart and some not like Charlotte Dacre's 1811 The Passions and Charles Brockden Brown s 1787 Edgar Huntly the book looks at vigilia an overly intense curiosity intellectual monomania an obsession with study nymphomania and erotomania gendered forms of desire revolutiana an obsession with sublime violence and military service and ideality an obsession with an idea The coda argues that traces of these Romantic constructs can be seen in popular accounts of obsession today Margaret Oliphant's Curative Gothic Literature Katerina García-Walsh, 2025-11-06 Prolific Scottish novelist Margaret Oliphant 1828 1897 remembered chiefly for her realist fiction and biting literary criticism of contemporary authors also wrote nineteen supernatural tales This monograph offers a comprehensive exploration of Oliphant's Gothic literature in the light of her religious beliefs cultural context and experiences of death and mourning as she survived her husband and all six of her children Oliphant's stories set in the afterlife depict the dead as inhabiting a new existence characterised by spiritual growth while her tales set on earth attempt contact between the mortal and immortal planes Garc a Walsh illustrates Oliphant's unique theological conception of afterliving which ultimately seeks to eradicate the divide between the living and their deceased loved ones reimagining death as a liminal passage towards God and divine self development This book thus suggests a new direction for Gothic studies by showing how Oliphant's supernatural fiction provided a means of curative writing transforming the traumatic reality of death into a source of hope The volume is suited for students researchers and academics in the disciplines of literature and history particularly the fields of nineteenth century studies Victorian studies and Gothic studies with an interest in women's writing theology and The New International Encyclopaedia ,1923 New International Encyclopedia ,1916 mental health trauma studies
