past four o'clock Eastern Standard Time The event occurred universally at the same instant without regard to time belts and was followed by such phenomena as might be expected after happenings of that nature On a lazy quiet afternoon in the blink of an eye our world shatters into two parallel universes as men vanish from women and women from men After families and loved ones separate from one another life continues in very different ways for men and women boys and girls An explosion of violence sweeps one world that still operates technologically social stability and peace in the other are offset by famine and a widespread breakdown in machinery and science And as we learn from the fascinating parallel stories of a brilliant couple Bill and Paula Gaunt the foundations of relationships love and sex are scrutinized tested and sometimes redefined in both worlds The radically divergent trajectories of the gendered histories reveal stark truths about the rigidly defined expectations placed on men and women and their sexual relationships and make clear how much society depends on interconnection between the sexes Written over a half century ago yet brimming with insight and unsettling in its relevance today *The Disappearance* is a masterpiece of modern speculative fiction **Before Adam** Jack London, 2000-01-01

Capitalizing on his recognized ability to understand animals the author of *Call of the Wild* here paints an arresting and dark portrait of how our distant ancestors thought about themselves and their world Illustrations Map *The Journey of Niels Klim to the World Underground* Ludvig Holberg, 1960-01-01 Fantastic adventures at the center of the earth await a penniless Norwegian student after he plunges into a bottomless hole in a cave Niels Klim discovers worlds within our own exotic civilizations and fabulous creatures scattered across the underside of the earth's crust and at the earth's center a small inhabited planet orbiting around a miniature sun In an epic journey Klim visits countries led by sentient and contemplative trees a kingdom of intelligent apes preoccupied with fashion and change a land whose inhabitants don't speak out of their mouths neighboring countries of birds locked in an eternal war and a land where string basses talk musically to one another Brave inquisitive and greedy Klim faces many challenges the greatest of which are his own temptations *The Journey of Niels Klim to the World Underground* is a classic in speculative fiction and was the first fully realized novel set underground in a hollow earth First published in 1741 it has earned comparisons to Jonathan Swift's contemporaneous fantasy *Gulliver's Travels* *When Worlds Collide* Philip Wylie, Edwin Balmer, 1999-10-01 Science fiction roman **Back to the Stone Age** Edgar Rice Burroughs, 2007-06-01 The fifth installment of Edgar Rice Burroughs's *Pellucidar* series *Back to the Stone Age* recounts the strange adventures of Lieutenant von Horst a member of the original crew that sailed to Pellucidar with Jason Gridley and Tarzan who is left behind in the inner world Von Horst wanders friendless and alone from one danger to the next among the Stone Age peoples' mighty reptiles and huge animals that have been extinct on the outer crust for thousands of years But woven among the tales of savage cave men in the country of the Basti the hideous Gorbuses in the caverns beneath the Forest of Death and the terrible Gaz is the story of the love this cultured hero feels for a barbarian slave girl who has spurned and discouraged him working instead toward her own mysterious goal **The Croquet Player** Herbert George

Wells, 2004-01-01 Something is horribly wrong in the remote English village of Cainsmarsh. An elderly woman stiffens in dread at her own shadow; a terrified farmer murders a scarecrow; food prepared by others is eyed with suspicion; family pets are bludgeoned to death; loving couples are devoured by rage and violence. A spirit corrupting evil pervades the land, infesting the minds of those who call Cainsmarsh home. Is this vision real or a paranoid fantasy generated by an even darker worldwide threat? And is the call to resist the danger itself a danger? These are questions that disturb the calm of an indolent croquet player who happens to hear the tale of the unlucky village. H. G. Wells's ambiguous story of horror is a modern classic, a prophetic, disturbing glimpse of the primitive distrust and violence that gnaw at the heart of the modern world. **The Eternal Savage** Edgar Rice Burroughs, 2003-01-01 With a new introduction, this classic adventure tale from the creator of the Tarzan series finds Nu, a Stone Age warrior, trapped in suspended animation by an earthquake as he reawakens on Tarzan's African estate and tries to adapt to new surroundings, including a relationship with a woman from Nebraska. Reprint. Science Fiction Fantasy *Gladiator* Philip Wylie, 2004-01-01 Hugo Danner is the strongest man on Earth due to an experiment conducted by his father, a scientist, but he is doomed to live a life of alienation because of his special strength and abilities. Reprint. **The Year 3000** Paolo Mantegazza, 2010-11-01 First published in 1897, *The Year 3000* is the most daring and original work of fiction by the prominent Italian anthropologist Paolo Mantegazza. A futuristic utopian novel, the book follows two young lovers who, as they travel from Rome to the capital of the United Planetary States to celebrate their mating union, encounter the marvels of cultural and scientific advances along the way. Intriguing in itself, *The Year 3000* is also remarkable for both its vision of the future, predicting an astonishing array of phenomena from airplanes, artificial intelligence, CAT scans, and credit cards to controversies surrounding divorce, abortion, and euthanasia, and the window it opens on fin de siècle Europe. Published here for the first time in English, this richly annotated edition features an invaluable introductory essay that interprets the intertextual and intercultural connections within and beyond Mantegazza's work. For its critical contribution to early science fiction and for its insights into the hopes, fears, and clash of values in the Western world of both Mantegazza's time and our own, this book belongs among the visionary giants of speculative literature.
