Invisible Stars Donna Halper,2015-02-11 Invisible Stars was the first book to recognize that women have always played an important part in American electronic media The emphasis is on social history as the author skillfully explains how the changing role of women in different eras influenced their participation in broadcasting This is not just the story of radio stars or broadcast journalists but a social history of women both on and off the air Beginning in the early 1920s with the emergence of radio the book chronicles the ambivalence toward women in broadcasting during the 1930s and 1940s the gradual change in status of women in the 1950s and 1960s the increased presence of women in broadcasting in the 1970s and the successes of women in broadcasting in the 1980s and 1990s The second edition is expanded to include the social and political changes that occurred in the 2000s such as the growing number of women talk show hosts changing attitudes about women in leadership roles in business more about minority women in media and women in sports and women sports announcers The author addresses the question of whether women are in fact no longer invisible in electronic media She provides an assessment of where progress for women in society

as well as broadcasting can be seen and where progress appears totally stalled **USA Today** ,1994 **On Air** Steve Oney,2025-03-11 An epic decade long reported history of National Public Radio that reveals the unlikely story of one of America's most celebrated but least understood media empires Founded in 1970 NPR is America's most powerful broadcast news network Despite being overshadowed by the larger and more glamorous PBS public radio has long been home to shows such as All Things Considered Morning Edition and This American Life that captivate millions of listeners in homes cars and workplaces across the nation NPR and its hosts are a cultural force and a trusted voice and they have created a mode of journalism and storytelling that helps Americans understand the world in which we live In *On Air* a book fourteen years in the making journalist Steve Oney tells the dramatic history of this institution tracing the comings and goings of legendary on air talents Bob Edwards Susan Stamberg Ira Glass Cokie Roberts and many others and the rise and fall and occasional rise again of brilliant and sometimes venal executives It depicts how NPR created a medium for extraordinary journalism in which reporters and producers use microphones as paintbrushes and the voices of people around the world as the soundtrack of stories both global and local Featuring details on the controversial firing of Juan Williams the sloppy dismissal of Bob Edwards and a 230 million bequest by Joan B Kroc widow of the founder of McDonalds *On Air* also chronicles NPR's daring shift into the digital world and its early embrace of podcasting formats establishing the network as a formidable media empire Fascinating revelatory and irresistibly dishy this is a riveting account of NPR's unlikely launch chaotic ascent and ultimate triumph a must read for anyone interested in the history of public radio and its impact on American culture **Lost Sound** Jeff Porter,2016-03-11 From Archibald MacLeish to David Sedaris radio storytelling has long borrowed from the world of literature yet the narrative radio work of well known writers and others is a story that has not been told before And when the literary aspects of specific programs such as *The War of the Worlds* or *Sorry Wrong Number* were considered scrutiny was superficial In *Lost Sound* Jeff Porter examines the vital interplay between acoustic techniques and modernist practices in the growth of radio Concentrating on the 1930s through the 1970s but also speaking to the rising popularity of today's narrative broadcasts such as *This American Life* *Radiolab* *Serial* and *The Organist* Porter's close readings of key radio programs show how writers adapted literary techniques to an acoustic medium with great effect Addressing avant garde sound poetry and experimental literature on the air alongside industry policy and network economics Porter identifies the ways radio challenged the conventional distinctions between highbrow and lowbrow cultural content to produce a dynamic popular culture **New York Magazine** ,1979-10-22 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country With award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea **Talking Book Topics** ,1995 Mainstream ,1995 **The Biographical**

[Listeners Like Who?](#) Laura Garbes, 2025-09-09 How public radio has perpetuated racial inequality since its founding and how journalists of color are challenging white dominance in the workplace and on the public airwaves National Public Radio was established in 1970 with a mission to provide programming for all Americans yet the gap between public radio s pluralistic mandate and its failure to serve marginalized communities has plagued the industry from the start Listeners Like Who takes readers inside the public radio industry revealing how the network s sound and listenership are reflections of its inherent whiteness and describing the experiences of the nonwhite journalists who are fighting for change Drawing on institutional archives oral histories and original in depth interviews with journalists of color in public radio Laura Garbes shows that when NPR and its affiliate stations first began its appeals for donations from listeners like you it was appealing to white well educated donors She discusses how this initial focus created a sustainable financial model in the face of government underfunding but how these same factors have alienated broad swaths of nonwhite and working class audiences and limited the creative freedoms of nonwhite public radio workers Garbes tells the stories of the employees of color who are disrupting the aesthetic norms and narrative practices embedded in the industry Centering sound in how we think about the workplace and organizational life Listeners Like Who provides insights into the media s role in upholding racial inequality and the complex creative labor by nonwhite journalists to expand who and what gets heard on public radio
