Talk Does Not Cook The Rice:

Talk Does Not Cook the Rice R. H. H. (Guru.),1982 **Talk Does Not Cook Rice** ,1989 *On Living Our Explanations* Lee Thayer,2017-02-08 People have always tried to explain whatever they want to talk about or have to deal with in their worlds To explain something to oneself or to others makes it comprehensible If the explanation becomes socially tenable it provides a person or a tribe with a perspective on their world a way of knowing it That perspective becomes their reality It is a virtual reality created by people for the use of those people Virtual realities are products of our talk and our minds which archive and channel the meaning of things First our minds get created and then our minds create us personally and collectively All human worlds that we know anything about function as they do based upon the meaning of their worlds and them in it Most of the other animals on earth dont have much to say about their pasts or their future People do because they invented the concept of the past and the concept of the future in order to think and talk about them Those who superseded us in our particular cultures invented explanations to give virtual reality to everything they wanted to talk about or do something about We live in and through those explanations as we understand them We invent our explanations on top of those we inherit and that we and our progenies will grow up living in and through This counter intuitive premise is that we do not live in any natural world We live consciously and even subconsciously in our worlds as we have explained them or could explain them Physiological or biological events certainly do occur But we deal with them according to what they meant to us Random events like accidents do occur But we can explain them before they occur and after they occur There is nothing that occurs in our worlds that we cannot explain or justify in some way Whether or not it rains is something we do not control But to talk about it or think about it we have to do so in and through our explanations Your lover may be dumping you for his or her own a priori explanations How you deal with it depends upon how you explain it to yourself We live and we die in accordance with our explanations of our worlds and of us in them We live our explanations *This Year I Will--* M. J. Ryan,2006 The author of *The Power of Patience* introduces an innovative formula for planning implementing and maintaining a life change with a series of inspirational stories ingenious strategies and motivational ideas designed to help readers achieve success regardless of their individual goals *Leaders and Leadership* Lee Thayer,2010-09-22 In the West and in America particularly we have deep seated beliefs in 1 Evolution the idea that all things are constantly evolving in the right direction 2 Progress the idea that whatever is newer is better whether it is a theory or a technological tool and 3 Consensus the idea that the more people who adopt a new idea or a new fashion in clothes or cars the greater the likelihood that they are right So we go from a new fashion to the next new fashion We believe that change is progress And we have faith that the changes over which we have no control are taking us where we ought to be going since evolving is inevitable These are beliefs that structure the core of our thoughts and our lives These are beliefs that lead us to see the world as linear and literal Most of the longest running civilizations of the past native American Indian for example were cyclical Every generation

was expected to reprise and replicate the preceding generation with only minor changes in execution Those people were for thousands of years truth keepers carefully guarding the truths that had been passed down to them from the past By contrast we are truth seekers forever inventing newer truths in order to render the existing ones obsolete As a result we look for the wisdom for living and for running our organizations in the most recent emanations from our gurus and experts In doing so we miss the wisdom of the ages This book attempts to redress that fl aw in our thinking Lee Thayer shows us in this book how to fi nd the wisdom that could make a real difference in our lives and our businesses Few would be more qualifi ed to do so

Age of Joy Yaseva,2021-02-05 Have you at some time or the other wondered whether it is ever possible for human civilization to move away from its present inconsistent and jarring ways Whether the deep down desires of human beings will ever get met in a widespread way If the anxiety uncertainty and confusion that seem to be the norm of these times get replaced with rampant and pervasive peace happiness and joy Many feel that the world is progressing especially with the advancement in technology and communication But in reality if one looks closely it is debatable whether humanity is moving up or sliding down The global pandemic violent territorial disputes between nations religious chauvinism intolerance extreme poverty violence against women and children trafficking discrimination and so on are certainly not manifestations of human civilization progressing it s more like degeneration The Climate Emergency we are living in is pushing the planet towards extinction The unscrupulous pharmaceutical industry is exploiting the health system for financial gains The humongous war and armament industry drives the economy of developed nations and subversively fuels conflicts and jingoism among neighboring nations to keep their market flourishing The insatiable greed of corporate tycoons for endless growth and wealth garnering has no consideration for the livelihood of the vulnerable causing chronic inequity The mindless destruction and pollution of the planet s primary resources namely air water and earth to boost GDP carries on merrily All these are categorized as aspects of un workability and left to persist as situations that we are expected to live with Pursuit of Joy is the panacea for all social anomalies and will usher human civilization into the Age of Joy The Way of the Martial Artist Kevin L. Stepping Stones Bryan Britton,2012-11 The educational system in South Africa has failed the young learners of this new nation says author Bryan Britton who has contributed this work as a very small step in the giant leap necessary to rehabilitate our highly susceptible youth and help them make sound and moral judgements There has been little concern for the aspirations of the young people of South Africa The benefits of learning character building moral education and religion were lost in the turmoil of the 1980s and 1990s resulting in a rudderless sometimes murderous element pervading South African society The Rainbow Nation is today the crime mecca of the world and the haves now have more and the have nots appallingly less Can we put an end to this moral decay Perhaps adopting sound non sexist non racial and evergreen wisdom from the past can be used to commence regenerating the shredded moral fibre of this country To aid youngsters in their search for ethics the author has gathered a selection of pertinent wisdom from the past Perhaps young people in South Africa will see in these excerpts building blocks with which to construct a viable morality for their young lives and hence for the country they are destined to inherit
