Michael Parkin, 2014-02-05 Over the past twenty years presidential candidates have developed an entertainment talk show strategy in which they routinely chat with the likes of Oprah Winfrey David Letterman and Jon Stewart In fact between 1992 and 2012 there have been more than 200 candidate interviews on daytime and late night talk shows with nearly every presidential candidate from long shot primary contender to major party nominee hitting the talk show circuit at some point during the campaign This book explores the development of the entertainment talk show strategy and assesses its impact on presidential campaigns The chapters mix detailed narrative with extensive empirical data on audiences content viewer reaction and press coverage to explain why candidates have embraced this strategy and the conditions under which these interviews are most likely to meet their expectations The book also explores how these interviews can enhance campaigns by connecting a critical segment of the voting population with candidates who provide useful political information in a casual setting Talk Show Campaigns shows that this is more than a gimmick it's a key part of how candidates communicate with voters which reveals a lot about how campaigns have changed over the past two decades **Showdown** Elizabeth

Drew, 1997-02-18 The Struggle Between the Gingrich Congress and the Clinton White House Showdown is the story of the most dramatic political rivalry in decades The Democratic President brilliant but seen as indecisive and vulnerable is directly challenged by the equally brilliant new Republican Speaker of the House who seeks to complete the Reagan Revolution by repealing the Great Society and the New Deal In her last book the highly acclaimed On the Edge The Clinton Presidency Elizabeth Drew took readers on a revealing tour behind the scenes of Bill Clinton's White House during his first year and a half in office showing us how and why his administration failed Then came the 1994 congressional elections in which the Republicans gained control of the Congress including the House for the first time in forty years This tremendous victory long planned by Newt Gingrich left the Democrats stunned and confused and set the stage for the Republicans to attempt a dramatic possibly historic rearrangement of the country's politics Drew writes with proven authority and intimate detail of the titanic battle that ensued between the Clinton administration and the Republican Congress especially between the wavering President and the determined Speaker Drew's masterly reporting exposes the range of Gingrich's ambition and the way he sought to control the House She describes Gingrich's complex relationship with Senate Majority Leader Bob Dole

who no enthusiast struggled to keep up with Gingrich's revolution and shows the impact the race for the Republican presidential nomination in particular between Dole and Senator Phil Gramm had on national policy Through amazingly candid interviews with key congressional figures Drew elicits exactly how the GOP leadership formed a strategy to roll back the welfare state and destroy the power of the Democratic base She again takes us behind the scenes to show us what the key players on both sides were doing and saying privately as they waged their all out war She tells us what the outwardly confident Gingrich worried about She shows President Clinton trying to regain his footing following the devastating election a humiliation that he and his wife took much harder than was publicly understood and turning to a new key adviser Dick Morris Drew describes what effect Morris a former Republican adviser had on Clinton and the new strains within the White House his arrival caused She presents a White House more riven than any in memory Showdown makes clear the enormous stakes of this political struggle no less than the future direction of the federal government and the fate of programs that affect everyone's life

Talk Radio's America Brian Rosenwald, 2019-08-13 The cocreator of the Washington Post's Made by History blog reveals how the rise of conservative talk radio gave us a Republican Party incapable of governing and paved the way for Donald Trump America's long road to the Trump presidency began on August 1 1988 when desperate for content to save AM radio top media executives stumbled on a new format that would turn the political world upside down They little imagined that in the coming years their brainchild would polarize the country and make it nearly impossible to govern Rush Limbaugh an enormously talented former disc jockey opinionated brash and unapologetically conservative pioneered a pathbreaking infotainment program that captured the hearts of an audience no media executive knew existed Limbaugh's listeners yearned for a champion to punch back against those maligning their values Within a decade this format would grow from fifty nine stations to over one thousand keeping millions of Americans company as they commuted worked and shouted back at their radios The concept pioneered by Limbaugh was quickly copied by cable news and digital media Radio hosts form a deep bond with their audience which gives them enormous political power Unlike elected representatives however they must entertain their audience or watch their ratings fall Talk radio
