Talking Animals in British Children's Fiction, 1786-1914 Tess Cosslett, 2017-03-02 In her reappraisal of canonical works such as Black Beauty Beautiful Joe Wind in the Willows and Peter Rabbit Tess Cosslett traces how nineteenth century debates about the human and animal intersected with or left their mark on the venerable genre of the animal story written for children Effortlessly applying a range of critical approaches from Bakhtinian ideas of the carnivalesque to feminist postcolonial and ecocritical theory she raises important questions about the construction of the child reader the qualifications of the implied author and the possibilities of children's literature compared with literature written for adults Perhaps most crucially Cosslett examines how the issues of animal speech and animal subjectivity were managed at a time when the possession of language and consciousness had become a

vital sign of the difference between humans and animals Topics of great contemporary concern such as the relation of the human and the natural masculine and feminine child and adult are investigated within their nineteenth century contexts making this an important book for nineteenth century scholars children s literature specialists and historians of science and childhood

Satan Exposed William P. Payne,2019-07-16 Spiritual warfare is not a church fad Rather it is the rediscovery of biblical Christianity Furthermore one will not grasp what the Bible teaches until one comprehends what it affirms about spiritual warfare In truth spiritual warfare permeates the entire Bible When one learns to read the Scriptures through the lens of spiritual warfare one will discern the mission of God understand the kingdom of God and be able to participate in the work of God As a professional theologian seminary professor and spiritual warfare practitioner Bill Payne believes that the church will not make disciples of all nations Matthew 28 18 20 until it operationalizes what the Bible teaches about spiritual warfare As it orients the reader to the spiritual warfare mandate Satan Exposed tackles the difficult passages of Scripture In short this book will change how you read the Bible how you understand reality and how you do ministry

Handbook of Ecocriticism and Cultural Ecology Hubert Zapf, 2016-05-10 Ecocriticism has emerged as one of the most fascinating and rapidly growing fields of recent literary and cultural studies From its regional origins in late twentieth century Anglo American academia it has become a worldwide phenomenon which involves a decidedly transdisciplinary and transnational paradigm that promises to return a new sense of relevance to research and teaching in the humanities A distinctive feature of the present handbook in comparison with other survey volumes is the combination of ecocriticism with cultural ecology reflecting an emphasis on the cultural transformation of ecological processes and on the crucial role of literature art and other forms of cultural creativity for the evolution of societies towards sustainable futures In state of the art contributions by leading international scholars in the field this handbook maps some of the most important developments in contemporary ecocritical thought It introduces key theoretical concepts issues and directions of ecocriticism and cultural ecology and demonstrates their relevance for the analysis of texts and other cultural phenomena **Literary Cultures and Eighteenth-Century Childhoods** Andrew O'Malley, 2018-12-29 The essays in this volume offer fresh and innovative considerations both of how children interacted with the world of print and of how childhood circulated in the literary cultures of the eighteenth century They engage with not only the texts produced for the period s newly established children s book market but also with the figure of the child as it was employed for a variety of purposes in literatures for adult readers Embracing a wide range of methodological and disciplinary perspectives and considering a variety of contexts these essays explore childhood as a trope that gained increasing cultural significance in the period while also recognizing children as active agents in the worlds of familial and social interaction Together they demonstrate the varied experiences of the eighteenth century child alongside the shifting sometimes competing meanings that attached themselves to childhood during a period in which it became the subject of intensified interest in literary culture [The Child's Book of Nature](#) Worthington Hooker, 1889 **Stutter** Marc Shell, 2009-06-30 In a book that explores the phenomenon of stuttering from its practical and physical aspects to its historical profile to its existential implications Shell who has himself struggled with stuttering all his life plumbs the depths of this murky region between will and flesh intention and expression idea and word Looking into the difficulties encountered by people who stutter as do fifty million world wide Shell shows that stutterers share a kinship with many other speakers both impeded and fluent This book takes us back to a time when stuttering was believed to be diagnosis induced then on to the complex mix of physical and psychological causes that were later discovered Ranging from cartoon

characters like Porky Pig to cultural icons like Marilyn Monroe from Moses to Hamlet Shell reveals how stuttering in literature plays a role in the formation of tone narrative progression and character From publisher description **Animal Narratology** Joela Jacobs, 2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another s perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling
