American theatrical short cartoon characters should be legitimately regarded as stars equal to their live action counterparts not only because they have enjoyed long careers but also because their star personas have been created and marketed in ways also used for cinematic celebrities Drawing on detailed archival research McGowan analyzes how Hollywood studios constructed and manipulated the star personas of the animated characters they owned He shows how cartoon actors frequently kept pace with their human counterparts granting interviews allowing candid photographs endorsing products and generally behaving as actual actors did for example Donald Duck served his country during World War II and Mickey Mouse was even embroiled in scandal Challenging the notion that studios needed actors with physical bodies and real off screen lives to create stars McGowan demonstrates that media texts have successfully articulated an off screen existence for animated characters Following cartoon stars from silent movies to contemporary film and television this groundbreaking book broadens the scope of star studies to include animation concluding with provocative questions about the nature of stardom in an age of digitally enhanced filmmaking technologies Animated Personalities is impressive for its lucid historical structure and exceptionally enjoyable content McGowan breathes life into celluloid figures giving readers a backstory for some of the most enduring iconic characters of screen history This is a truly gratifying book Choice Combining historical formal and theoretical modes of analysis Animated Personalities represents a vital contribution to both star studies and the study of animation in classical Hollywood and beyond By embracing a key problematic of the study of stardom the inability to take any element of its construction as authentic McGowan does not undermine the validity of this approach so much as craft a more honest and complete understanding of it Synoptique Forthcoming Books Rose Arny, 1998-04 Mr. Geisel Judith Morgan, Neil Morgan, 1996-08-22 Horton Thidwick Yertle the Lorax the Grinch Sneetches and the Cat in the Hat are just a handful of the bizarre and beloved characters Theodor S Geisel 1904 1991 alias Dr Seuss created in his forty seven children's books from 1937's And to Think That I Saw It on Mulberry Street to 1990's Oh the Places You ll Go During his lifetime Dr Seuss was honored with numerous degrees three Academy Awards and a Pulitzer but the man himself remained a reclusive enigma In this first and only biography of the good doctor the authors his close friends for almost thirty years have drawn on their firsthand insights as well as his voluminous papers the result is an illuminating intimate portrait of a dreamer who saw the world through the wrong end of a telescope and invited us to enjoy the view Jim Kobak's Kirkus **Reviews** ,1986 Who's who in Animated Cartoons Jeff Lenburg, 2006-06 Looks at the lives and careers of more than Film and the Arts in Symbiosis Gary Edgerton, 1988-03-08 Film and the Arts in Symbiosis is an three hundred animators interesting collection of readable essays written by film scholars and teachers Each essay is accompanied by a set of footnotes a bibliography and a filmography The essays cover the relationship between film and painting photography graphic arts literature theater classical and popular music radio television video art and the new media This is a unique and valuable anthology providing well written and well edited essays that may well be used as course readings RQ This unusual resource
