Frank Lloyd Wright's Approach to Domestic Design, Chicago Area, 1892-1900 Terry J. Albright, 1961 *The Women of Atelier 17* Christina Weyl, 2019-01-01 This timely reexamination of the experimental New York print studio Atelier 17 focuses on the women whose work defied gender norms through novel aesthetic forms and techniques *Photography in China* Oliver Moore, 2021-12-24 Emphasizing the medium's reception among several Chinese constituencies this book explores photography's impact within new discourses on science as well as its effects in social life visual modernity and the media during China's transition from imperial to republican government General knowledge and academic teaching of early modern Chinese visual culture stops short of fitting photography into the larger context of visual practices and theories This study redraws the boundaries by making photography the central concern within changing priorities of visual representation and its functions during a period of major cultural and political change No other study draws on such intimate familiarity with the early glamour of photography as science commerce and communication in the various local conditions of China's cities and towns Joining a body of critical writing that examines photography's histories outside the familiar confines of the West this book looks beyond the tourist and imperialist gazes of photographer adventurers from the Western powers and Japan It defines instead the Chinese priorities of photographic vision that are abundantly evident in surviving photographs as well as in records as various as technical manuals and personal inscriptions Local practices and local knowledge are the keys to explain the highly successful indigenization of a medium as globalizing as photography with reference to Chinese society's own terms and practices This book will be of particular interest to scholars in art and visual culture the history of photography and Asian art Intermediate Report of the Committee on Government Operations United States. The Fall of Buster Keaton James L. Neibaur, 2010-07-16 Born into a family of vaudevillians Buster Keaton made his first film appearance in 1917 at the age of 21 By the early 1920s he had established himself as one of the geniuses of silent cinema with such films as *Sherlock Jr* and *The Navigator* and his 1925 work *The General* placed at number 18 in the American Film Institute's poll of the 100 greatest features the highest ranked silent film on the survey But with the advent of sound in the late 1920s silent stars like Keaton began to fall out of favor and the great comedian's career began to decline In

The Fall of Buster Keaton James Neibaur assesses Keaton's work during the talking picture era especially those made at MGM Educational and Columbia studios While giving some attention to the early part of Keaton's career Neibaur focuses on Keaton's contract work with the three studios as well as his subsequent work as a gagman supporting player and television pitchman The book also recounts the resurgence of interest in Keaton's silent work which resulted in a lifetime achievement Oscar and worldwide recognition before his death in 1966 This fascinating account of an artist's struggle and triumph during the more challenging period of his career will be of interest to anyone wanting to learn about one of film's most influential performers **The Bookman** ,1909 **Musical Magazine and Musical Courier** ,1902 **City of Dreams** Bernard F.
