that the space program was a source of anxiety as well as inspiration. It was not always easy for them to tell whether it was a godly or godless venture. Grounded in original archival research and the study of participant testimonies, this book also explores one of the largest petition campaigns of the post-war era. Between 1969 and 1975, more than eight million Americans wrote to NASA expressing support for prayer and bible reading in space. Oliver's study is rigorous and detailed but also contemplative in its approach, examining the larger meanings of mankind's first adventures in the heavens. **Aeroscopes** Patrick Ellis, 2021-07-27 Introduction spotting the spot The panoramic altitude The panstereorama Vertigo effects Observation rides The aeroplane gaze Conclusion first flights *Popular Culture and Its Relationship to Conflict in the UK and Australia since the Great War* Andrekos Varnava, Michael J.K. Walsh, 2022-12-26 This book shows how cultural production derived from or in anticipation of conflict can be used to create specific social identities, national histories, and contemporary concepts of memory in Britain and Australia. Studies on the politics of cultural production have usually focussed on one conflict or on one particular cultural medium at a time. This volume however presents a broader horizon to draw attention to more popular forms of cultural production from the Great War up to and including its Centenary. The chapters in this volume interrogate the contentious philosophical notion that culture thrives in times of war and expires in peace and asks whether art as a form of social barometer can anticipate conflict rather than merely respond to it. This is a fascinating read for students, researchers, and academics interested in British and Australian History and its relationship with Popular Culture. The chapters in this book were originally published as a special issue of Contemporary British History. **The Spectacle of Criminal Justice** Rosie Smith, 2022-03-29 Delving into how institutions of justice as well as public expressions of justice such as rage and grief are played out in the media, Smith helps us understand how this represents a shift away from historical community displays of punishment towards a media-sanitised public engagement with the implementation of control and justice.
