Assessing Communication Education William G. Christ,2013-11-05 Designed as a handbook this text provides media speech public speaking interpersonal small group and organizational communication and theatre educators with both the theoretical and practical ammunition to fight the assessment battles on their campuses The philosophical implications of accountability are balanced with concrete specific and usable assessment strategies Stressing

student faculty course program department and institutional assessment this book's aim is to provide in one place information that will help diverse and complex communication programs face the growing challenges in assessment. The book is divided into three sections: background and foundational information for assessment; broad assessment strategies that apply to a variety of media, speech, and theatre courses and programs; and context-specific assessment strategies. While covering a host of topics, it provides an overview of assessment and suggests how it might impact communication education; discusses the elements of program assessment and how linkage of mission statements with outcomes can lead to strong innovative programs; compares and contrasts regional association requirements and presents a specific how-to strategy for writing outcome statements; discusses teaching evaluation and argues that we need to identify the what of teaching before we try to measure the how; looks at creative ways for formative and summative course evaluation that starts with the creation of an explicit syllabus; discusses the use of capstone courses as a way of evaluating not only their major but also how students have integrated their total educational experience; suggests the variety of ways that interpersonal communication can be assessed and calls for future research that stresses the knowledge component of learning reports on a strategy for developing small group communication assessment measures; and provides media, speech, and theatre faculty and administrators with the background, understanding, and tools to build stronger programs and develop better courses and educational experiences for their students.

[The Handbook of Speech Production](#) Melissa A. Redford, 2019-02-12

The Handbook of Speech Production is the first reference work to provide an overview of this burgeoning area of study. Twenty-four chapters written by an international team of authors examine issues in speech planning, motor control, the physical aspects of speech production, and external factors that impact speech production. Contributions bring together behavioral, clinical, computational, developmental, and neuropsychological perspectives on speech production to create a rich and truly interdisciplinary resource. Offers a novel and timely contribution to the literature and showcases a broad spectrum of research in speech production, methodological advances, and modeling. Coverage of planning, motor control, articulatory coordination, the speech mechanism, and the effect of language on production processes.
