How Documentaries Went Mainstream Nora Stone, 2023 Since the 1960s documentary films have moved closer to the mainstream thanks to the popularity of rockumentaries association with the independent film movement support from public and cable television and the rise of streaming video services Documentary films have become reliable earners at the U S box office and ubiquitous on streaming platforms while historically they existed on the margins of mainstream media How do we explain the growing commercialization of documentary films and the conditions that fueled their transformation The growing commercialization of documentary film has not gone unnoticed but it has not been sufficiently explained Streaming and the growing interest in reality TV are usually offered as initial explanations whenever a documentary enters the cultural conversation or breaks a box office record but neither of those causes grapple with the overlapping causal mechanisms that commercialized documentary film *How Documentaries Went Mainstream* provides a more comprehensive and meaningful periodization of the commercialization of documentary film Although the commercial ascension of documentary films might seem meteoric it is the culmination of decades long efforts that have developed and fortified the audience for documentary features Author Nora Stone refines rough explanations of these efforts through a robust synoptic history of the market for documentary films using knowledge of film economics and the norms of industry discourse to tell a richer story This periodization will allow scholars to compare the commercialization of documentary film with other genres Drawing on archival documents industry trade journals and popular press and interviews with filmmakers and film distributors Stone illuminates how documentary features have become more plentiful popular and profitable than ever before

Photoplay, 1924 **New Documentary** Stella Bruzzi, 2006-09-27 Praise for New Documentary It's refreshing to find a book that cuts through the tired old debates that have surrounded documentary film and television. It heralds a welcome new approach. Sight and Sound Documentary practice changes so fast that books on the subject are often out of date before they are published. Bruzzi's achievement is to have understood the genre as an activity based on performance rather than observation. This is a fresh perspective which illuminates the fundamental shifts that will continue to take place in the genre as it enters its second century. John Ellis Professor of Media Arts Royal Holloway University of London New Documentary provides a contemporary look at documentary and fresh and challenging ways of theorising the non-fiction film. As engaging as the original, this second edition features thorough updates to the existing chapters as well as a brand new chapter on contemporary cinema release documentaries. This new edition includes Contemporary films such as Capturing the Friedmans, tre et avoir, Fahrenheit 9/11, The Fog of War and Touching the Void as well as more canonical texts such as Hoop Dreams and Shoah. A comprehensively revised discussion of modern observational documentary including docusoaps, reality television.
