Klein, James L. Watson, 2016-08-25 Winner of the CHOICE Outstanding Academic Title of the Year Award 2017 Interest in the anthropology of food has grown significantly in recent years This is the first handbook to provide a detailed overview of all major areas of the field 20 original essays by leading figures in the discipline examine traditional areas of research as well as cutting edge areas of inquiry Divided into three parts Food Self and Others Food Security Nutrition and Food Safety Food as Craft Industry and Ethics the book covers topics such as identity commensality locality migration ethical consumption artisanal foods and children's food Each chapter features rich ethnography alongside wider analysis of the subject Internationally renowned scholars offer insights into their core areas of specialty Examples include Michael Herzfeld on culinary stereotypes David Sutton on how to conduct an anthropology of cooking Johan Pottier on food insecurity and Melissa Caldwell on practicing food anthropology The book also features exceptional geographic and cultural diversity with chapters on South Asia South Africa the United States of America post socialist societies Maoist China and Muslim and Jewish foodways Invaluable as a reference as well as for teaching The Handbook of Food and Anthropology serves to define this increasingly important field An essential resource for researchers and students in anthropology and food studies **Within the Plantation Household** Elizabeth Fox-Genovese, 2000-11-09 Documenting the difficult class relations between women slaveholders and slave women this study shows how class and race as well as gender shaped women's experiences and determined their identities Drawing upon massive research in diaries letters memoirs and oral histories the author argues that the lives of antebellum southern women enslaved and free differed fundamentally from those of northern women and that it is not possible to understand antebellum southern women by applying models derived from New England sources **American Populism** Robert C. McMath, 1993 The grass roots Populist movement that swept rural America a century ago drew millions of farm men and women and clusters of non farmers into a powerful crusade to reshape the nation's political economy Populists sought to usher in a cooperative commonwealth to reverse the growth of America's monopoly capitalism and harness the engine of private ownership for the common good Thus Populism became a bridge between the nineteenth century traditions of republicanism and producerism and the regulatory state of this century McMath crisply interprets the development of the Populist crusade from its early beginnings in the turbulent 1870s to the emergence of the Farmers Alliances a decade later He deals with the founding of the People's Populist Party in 1892 and its ultimate demise He describes Populism's important regional components and he

places the crusade in a larger context as he compares it to parallel movements in the Great Plains and Canada in the 1920s and 1930s American Populism is an impressive book about a major social cultural and political movement **Practical**

Janet Farrell Brodie, 1994 Drawing from a wide range of private and public sources examines how American families gradually found access to taboo information and products for controlling the size of their families from the 1830s to the 1890s when a puritan backlash made most of it illegal Emphasizes the importance of two shadowy networks medical practitioners known as Thomsonians and water curists and iconoclastic freethinkers **Lincoln and His World** Richard Lawrence Miller, 2006 Just as an archeologist can reassemble pot shards and draw inferences about the civilization that produced it I've examined a mass of verbal chunks left by Lincoln and people around him I've sorted jumbled piles of fragments restored them and pieced them together in a way that reveals the speaker's world Richard Lawrence Miller from the preface Quoting from eyewitness accounts Richard Lawrence Miller allows Lincoln and his contemporaries to tell the story of this monumental American and bring a fascinating era of American history to life The book covers Lincoln's birth through his first election to the Illinois legislature in 1834 Subsequent volumes will deal with Lincoln's life up to the White House years A Companion to the U.S. Civil War, 2 Volume Set Aaron Sheehan-Dean, 2020-05-05 A Companion to the U S Civil War presents a comprehensive historiographical collection of essays covering all major military political social and economic aspects of the American Civil War 1861-1865 Represents the most comprehensive coverage available relating to all aspects of the U S Civil War Features contributions from dozens of experts in Civil War scholarship Covers major campaigns and battles and military and political figures as well as non military aspects of the conflict such as gender emancipation literature ethnicity slavery and memory A Companion to the U.S. Civil War Aaron Sheehan-Dean, 2014-02-05 A

Cavanaugh, 2011-04-20 This book is about our early family life But the story is much more It is about life itself the life

experiences that all of us share A Legacy for the Eight of Us begins with a look back at some of our ancestors next describes Daddy and Mama s early lives and continues with their marriage in 1925 It then focuses on the early life of their family my seven siblings and myself concentrating on our life during the 1930s and 40s This life took place in another era on a farm in central Illinois You will read vivid details of that life You will share in our familys interactions our heritage our faith our love of the land but you also will share in our challenges and shortcomings As I wrote this book I kept in mind the admonition heard at a series of Barn Lectures at the Carson Valley Museum We cannot know where we are going as a people until we know where we have been It can be beneficial for each of us to discover our own individual legacies From the memories captured in these pages I hope you discover more about our familys legacy A Homeland and a Hinterland Donald L. Stevens,1991 *The Female Frontier* Glenda Riley,1988 Examines in rich detail the daily lives of pioneer women Journal of American History Anyone interested in women s history and western history will want to read this Pacific Historical Review Copyright Libri GmbH All rights reserved **History and the Christian Historian** Ronald Wells,1998-09-17 This volume arises out of special concerns of historians who are also Christians What case can be made for connecting historical work and religious convictions What is the relation of faith to history What difference could Christian perspectives make in historical study Thirteen respected scholars including some who have changed the face of history writing in the twentieth century here take up a diversity of subjects in giving a provisional answer to these important questions In exploring foundational issues of perspective and theory engaging discrete themes such as feminism puritanism and missiology and discussing the application of religious insights in teaching history this excellent collection of essays forthrightly addresses the epistemological crisis brought on by the postmodern critique of truth and demonstrates the positive implications of a Christian perspective for the study of history and historiography **Skeletons in Our Closet** Clark Spencer Larsen,2020-09-01 The dead tell no tales Or do they In this fascinating book Clark Spencer Larsen shows that the dead can speak to us about their lives and ours through the remarkable insights of bioarchaeology which reconstructs the lives and lifestyles of past peoples based on the study of skeletal remains The human skeleton is an amazing storehouse of information It records the circumstances of our growth and development as reflected in factors such as disease stress diet nutrition climate activity and injury Bioarchaeologists by combining the methods of forensic science and archaeology along with the resources of many other disciplines including chemistry geology physics and biology read the information stored in bones to understand what life was really like for our human ancestors They are unearthing some surprises For instance the shift from hunting and gathering to agriculture approximately 10 000 years ago has commonly been seen as a major advancement in the course of human evolution However as Larsen provocatively shows this change may not have been so positive Compared to their hunter gatherer ancestors many early farmers suffered more disease had to work harder and endured a poorer quality of life due to poorer diets and more marginal living conditions Moreover the past 10 000 years have seen dramatic changes in the human physiognomy as a

result of alterations in our diet and lifestyle Some modern health problems including obesity and chronic disease may also have their roots in these earlier changes Drawing on vivid accounts from his own experiences as a bioarchaeologist Larsen guides us through some of the key developments in recent human evolution including the adoption of agriculture the arrival of Europeans in the Americas and the biological consequences of this contact and the settlement of the American West in the eighteenth and nineteenth centuries Written in a lively and engaging manner this book is for anyone interested in what the dead have to tell us about the living

Our Common Country Susan Sessions Rugh, 2001 It features a major political conflict at each stage of market expansion the Mormon troubles the Civil War and the Grange protest to highlight the transformations that took place Jacket

Chicagoland Ann Durkin Keating, 2005-11-15 Offers the collective history of 230 neighborhoods and communities which formed the bustling network of greater Chicagoland many connected to the city by the railroad Profiles the people who built these neighborhoods and the structures they left behind that still stand today

A Fiction of the Past Dominick Cavallo, 1999 Few events during that whirlwind of movements conflicts and upheaval known as the sixties took Americans more by surprise or were more likely to inspire their rage than the rebellion of those who were young white and college educated Perhaps none have been more maligned or misunderstood since In *A Fiction of the Past* Dominick Cavallo pushes past the contemporary fog of myth cold disdain and warm nostalgia that shrouds the radical youth culture of the 60s He explores how the furiously chaotic sixties sprang from the comparatively placid forties and fifties The book digs beyond the post World War II decades and seeks the historical sources of the youth culture in the distant American past Cavallo shows how the sixties most radical ideas and values were deeply etched in the American soul

Agriculture in the Midwest, 1815-1900 R. Douglas Hurt, 2023 2024 Jon Gjerde Prize Winner for best book in Midwestern History After the War of 1812 and the removal of the region's Indigenous peoples the American Midwest became a paradoxical land for settlers Even as many settlers found that the region provided the bountiful life of their dreams others found disappointment even failure and still others suffered social and racial prejudice In this broad and authoritative survey of midwestern agriculture from the War of 1812 to the turn of the twentieth century R Douglas Hurt contends that this region proved to be the country's garden spot and the nation's heart of agricultural production During these eighty five years the region transformed from a sparsely settled area to the home of large industrial and commercial cities including Chicago Milwaukee Cleveland and Detroit Still it remained primarily an agricultural region that promised a better life for many of the people who acquired land raised crops and livestock provided for their families adopted new technologies and sought political reform to benefit their economic interests Focusing on the history of midwestern agriculture during wartime utopian isolation and colonization as well as political unrest Hurt contextualizes myriad facets of the region's past to show how agricultural life developed for midwestern farmers and to reflect on what that meant for the region and nation
