Handbook of Cultural Health Psychology Shahe S. Kazarian, David R. Evans, 2001-08-24 The Handbook of Cultural Health Psychology discusses the influence of cultural beliefs, norms, and values on illness, health, and health care. The major health problems that are confronting the global village are discussed from a cultural perspective. These include heart disease, cancer, HIV/AIDS, pain, and suicide. The cultural beliefs and practices of several cultural groups and the unique health issues confronting them are also presented. The cultural groups discussed include Latinos, Aboriginal peoples, people of African heritage, and South Asians. The handbook contributes to increased personal awareness of the role of culture in health and illness, behavior, and to the delivery of culturally relevant health care services. Many societies are culturally diverse or becoming so; the cultural approach is a unique and necessary addition to the health psychology area. Satisfies the ever-increasing appetite of health psychologists for cultural issues in health and women's health issues. Major and global health concerns are covered, including heart disease, cancer, HIV/AIDS, pain, suicide, and health promotion. The health beliefs and practices of Latinos, people of African heritage, Aboriginal peoples, and South Asians are presented without stereotyping these cultural groups. The handbook provides excellent information for health care researchers, practitioners, students, and policy makers in culturally pluralistic communities. References are thorough and completely up to date.

Enhanced Palliative Care: A handbook for paramedics, nurses and doctors Neil Pryde, 2022-01-11 Specifically designed to enhance your knowledge and skills within generalist palliative care, this informative textbook provides a comprehensive overview of the principle areas you may encounter whilst working with adult palliative and end-of-life patients and their families. The development of the text has been backed by Macmillan Cancer Support, and each chapter has been written by a range of specialist and generalist authors. The topics covered include approaches to palliative care and symptom management in a wide range of conditions and populations, with chapters linked to case studies to encourage interactive learning and understanding. Communication skills are also highlighted to help aid confidence when engaging in open and difficult conversations. The text is in line with Scottish Palliative Care Guidelines and the NES Framework for Palliative and End of Life Care. The book may either be used as course reading for relevant training programmes such as the Enhanced Palliative Care course, as well as by healthcare professionals hoping to develop their skills and practice. It is aimed at anyone involved in management and prescribing within non-specialist palliative care, both in hospitals and in the community, including paramedics, nurses, doctors, pharmacists, and other key health professionals.

[The Oxford Handbook of Chinese Cinemas](#) Carlos Rojas, Eileen Chow, 2013-04-25 What does it mean for a cinematic work to be Chinese? Does it refer specifically to a work's subject, or does it also reflect considerations of language, ethnicity, nationality, ideology, or political orientation? Such questions make any single approach to a vast field like Chinese cinema difficult at best. Accordingly, *The Oxford Handbook of Chinese Cinemas* situates the term more broadly among various different phases, genres, and distinct national configurations.

while taking care to address the consequences of grouping together so many disparate histories under a single banner Offering both a platform for cross disciplinary dialogue and a mapping of Chinese cinema as an expanded field this Handbook presents thirty three essays by leading researchers and scholars intent on yielding new insights and new analyses using three different methodologies Chapters in Part I investigate the historical periodizations of the field through changing notions of national and political identity all the way from the industry s beginnings in the 1920s up to its current forms in contemporary Hong Kong Taiwan and the global diaspora Chapters in Part II feature studies centered on the field s taxonomical formalities including such topics as the role of the Chinese opera in technological innovation the political logic of the Maoist film and the psychoanalytic formula of the kung fu action film Finally in Part III focus is given to the structural elements that comprise a work s production distribution and reception to reveal the broader cinematic apparatuses within which these works are positioned Taken together the multipronged approach supports a wider platform beyond the geopolitical and linguistic limitations in existing scholarship Expertly edited to illustrate a representative set of up to date topics and approaches The Oxford Handbook of Chinese Cinemas provides a vital addition to a burgeoning field still in its formative stages

Postvention in Action Karl Andriessen, Karolina Krysinska, Onja Grad, 2019-12-09 A unique and comprehensive handbook presenting the state of the art in suicide bereavement support Suicide is not merely the act of an individual it always has an effect on others and can even increase the risk of suicide in the bereaved The International Association for Suicide Prevention the World Health Organisation and others have recognized postvention as an important strategy for suicide prevention This unique and comprehensive handbook authored by nearly 100 international experts including researchers clinicians support group facilitators and survivors presents the state of the art in suicide bereavement support The first part examines the key concepts and the processes that the bereaved experience and illustrates them with illuminating clinical vignettes The second and third parts look in detail at suicide bereavement support in all the relevant settings including general practices the workplace online and many others as well as in specific groups such as health care workers In the concluding section the support provided for those bereaved by suicide in no less than 23 countries is explored in detail showing that postvention is becoming a worldwide strategy for suicide prevention These chapters provide useful lessons and inspiration for extending and improving postvention in new and existing areas This unique handbook is thus essential reading for anyone involved in suicide prevention or postvention research and practice

Handbook of Psychosocial Interventions for Veterans and Service Members Nathan D. Ainspan, Craig J. Bryan, Walter Erich Penk, 2016-03-16 The United States is in the midst of the largest military demobilization in its history This is leading to an increase in the demand for mental health clinicians who can provide services to hundreds of thousands of military veterans and members of the military Nearly two million Americans have been deployed to the wars in the Middle East and thousands of them have been deeply affected either psychologically physically or both Projections suggest that 300 000 are returning

with symptoms of PTSD or major Depression 320 000 have been exposed to probable Traumatic Brain Injuries and hundreds of thousands are dealing with psychological effects of physical injuries Other veterans and members of the military without injuries will seek treatment to help them with the psychological impact of serving in the military being deployed or transitioning and reintegrating back into the civilian world As an example hundreds of thousands of service members are also leaving the armed forces earlier than they anticipated and will need to quickly adjust to life as civilians after assuming that they would have many more years in the military Many will be leaving the military because of demobilizations and downsizing due to budget cuts Current proposed cuts will shrink the military force to the same size it was in 1940 The Pew Center reports that 44% of veterans from the current wars are describing their readjustment to civilian life as difficult and many of them are and will be turning to civilian mental health and primary care clinicians for assistance The Handbook of Psychosocial Interventions for Veterans and Service Members is a one stop handbook for non military clinicians working with service members veterans and their families It brings together experts from the Department of Defense the Department of Veterans Affairs veteran service organizations and academia to create the first comprehensive guidebook for civilian clinicians In addition to covering psychiatric disorders such as depression anxiety and PTSD this book also offers information about psychosocial topics that impact military personnel and their loved ones and can become part of treatment e g employment or education options financial matters and parenting concerns providing the most recent and cutting edge research on the topics Chapters are concise and practical delivering the key information necessary to orient clinicians to the special needs of veterans and their families The Handbook of Psychosocial Interventions for Veterans and Service Members is an essential resource for private practice mental health clinicians and primary care physicians as well as a useful adjunct for VA and DOD psychologists and staff
