Mayer, Jonathan Bernstein, 2012 The newest installment in a quadrennial series that now spans five presidential elections this book presents a broad overview of the presidential nomination process and showcases some of the most interesting work now being done on the politics of presidential selection Written by leading experts including a former presidential candidate The Making of Presidential Candidates 2012 covers a wide selection of topics including the Tea Party digital media campaigns how television covers the nomination process election forecasting and campaign finance The Making of the Presidential Candidates 2012 is valuable for students specialists and all readers with an interest in the ever evolving presidential nomination process and American elections *Cadres for Conservatism* Gregory L. Schneider, 1999 In this history of the other Sixties Gregory L. Schneider traces the influence of Young Americans for Freedom a conservative political group that locked horns with the New Left and spawned many of the major players in the contemporary conservative movement from the Goldwater campaign in 1964 to Reagan's revolution in the 1980s *Cadres for Conservatism* reveals how young political conservatives unlike their leftist counterparts avoided fracture in the wake of the Sixties Rather YAF continued to serve as a seedbed for future conservative leaders many of whom drew on the contacts and counter activism of their youth to consolidate conservative power Schneider's talent for trenchant archival research is supplemented by a plethora of detailed interviews with virtually every past national chairman and executive director of the YAF as well as important sponsors such as William F. Buckley William Rusher and M. Stanton Evans *From the New Deal to the New Right* Joseph E. Lowndes, 2008-10-01 The role the South has played in contemporary conservatism is perhaps the most consequential political phenomenon of the second half of the twentieth century The region's transition from Democratic stronghold to Republican base has frequently been viewed as a recent occurrence one that largely stems from a 1960s era backlash against left leaning social movements But as Joseph Lowndes argues in this book this rightward shift was not necessarily a natural response by alienated whites but rather the result of the long term development of an alliance between Southern segregationists and Northern conservatives two groups who initially shared little beyond opposition to specific New Deal imperatives Lowndes focuses his narrative on the formative period between the end of the Second World War and the Nixon years By looking at the 1948 Dixiecrat Revolt the presidential campaigns of George Wallace and popular representations of the region he shows the many ways in which the South changed during these decades Lowndes traces how a new alliance began to emerge by further examining the pages of the *National Review* and Republican party building efforts in the South during the campaigns of Eisenhower Goldwater and Nixon The unique characteristics of American conservatism were forged in the crucible of race relations in the South he argues and his analysis of party building efforts national institutions and the innovations of particular political actors provides a keen look into the ideology of modern conservatism and the Republican Party

Barrett, 2024-08-15 Nelson Rockefeller s Dilemma reveals the fascinating and influential political career of the four time New York State governor and US vice president Marsha E Barrett

s portrayal of this multi faceted political player focuses on the eclipse of moderate Republicanism and the betrayal of deeply held principles for political power Although never able to win his party s presidential nomination Rockefeller s tenure as governor was notable for typically liberal policies infrastructure projects expanding the state s university system and investing in local services and the social safety net As the Civil Rights movement intensified in the early 1960s Rockefeller envisioned a Republican Party recommitted to its Lincolnian heritage as a defender of Black equality But the party s extreme right wing encouraged by its successful outreach to segregationists before and after the nomination of Barry Goldwater pushed the party to the right With his national political ambitions fading by the late 1960s Rockefeller began to tack right himself on social and racial issues refusing to endorse efforts to address police brutality accusing without proof Black welfare mothers of cheating the system or introducing harsh drug laws that disproportionately incarcerated people of color These betrayals of his own ideals did little to win him the support of the party faithful and his vice presidency ended in humiliation rather than the validation of moderate ideals An in depth insightful and timely political history Nelson Rockefeller s Dilemma details how the standard bearer of moderate Republicanism lost the battle for the soul of the Party of Lincoln leading to mainlining of white grievance populism for the post civil rights era *The New York Times Book Review* ,1967-04 *Nixon in New York* Victor Li,2018-04-02 Richard Nixon s loss in the 1962 gubernatorial election in California was more than just a simple electoral defeat His once promising political career was in ruins as he dropped his second high profile race in as many years Nixon himself rubbed salt in his own self inflicted wounds by delivering a growling bitter concession speech that made him seem like a sore loser In the months following his defeat and self immolation he left California to move to New York so that he could work for a prestigious Wall Street law firm His new career only seemed to confirm what everyone already knew Richard Nixon was finished as a politician Except he wasn t Nixon s political resurrection was virtually unprecedented in American history role and he had his law firm to thank for paving his way to the White House His role as public partner at Nixon Mudge Rose Guthrie Alexander was the ideal platform for him as he looked to reinvent himself after his back to back losses in 1960 and 1962 Nixon s firm gave him access to deep pocketed clients many of whom became donors when he decided to take the plunge in 1968 Furthermore working for so many international clients allowed him to travel the world and burnish his foreign policy credentials a vital quality that voters were looking for as the Cold War raged on and the Vietnam War showed no signs of slowing down Nixon s time at the firm also allowed him to build a formidable campaign staff consisting of top notch lawyers researchers and writers a staff that did just about everything for him when it came time to ramp up for the 1968 campaign Harold E. Stassen Alec Kirby,John F. Rothmann,2013-01-01 In 1938 Harold E Stassen was elected governor of Minnesota at age 31 an office he resigned in 1943 to enter the United States Navy at the height of World War II In the postwar years he helped write the charter of the United Nations and serving in the Eisenhower administration very nearly achieved a nuclear test ban treaty with the Soviet Union He is famously known as a perennial

candidate for the Republican Party nomination for president seeking it 10 times between 1944 and 1992
