#### **Summary Justice:**

Criminal Justice Peter Joyce, 2013 This book assesses the main theories concerned with the causes of crime and provides an account and analysis of the response of the state to crime in England and Wales It is a useful text for students taking Military Justice White, Nigel D., 2022-03-10 While military law is often narrowly understood courses in criminal justice and studied as the specific and specialist laws processes and institutions governing service personnel this accessible book takes a broader approach examining military justice from a wider consideration of the rights and duties of government and soldiers engaged in military operations Supreme Justice Thurgood Marshall, 2003 Supreme Justice assembles the public presentations occasional writings speeches and interviews of the late Supreme Court Justice Thurgood Marshall over a period of seven decades from the 1930s to the 1990s With its deft selections drawn from throughout Marshall s storied career this volume will appeal to students of legal history and the civil rights movement Harvard Law Review and Criminal Justice Pamela Cox, Robert Shoemaker, Robert Brink Shoemaker, Heather Shore, 2023 Victims and Criminal Justice examines both the origins and impacts of key legal procedural and institutional changes introduced in England and Wales to encourage and govern prosecution The book explores the ways in which victims experiences of the process of criminal justice changed dramatically between the late 17th and late 20th centuries The Politics of Informal Justice Richard L. Abel, 2014-06-28 The Politics of Informal Justice Politics and Justice in Late Medieval Bologna Sarah Rubin Blanshei, 2010 Utilizing a uniquely rich collection of trial records and council meeting minutes from late medieval Bologna this book offers the first study of summary justice and oligarchy in an Italian commune demonstrating how new legal institutions arose in response to the increasingly exclusionary policies of the popolo government **Architecture and Justice** Jonathan Simon, 2016-04-15 Bringing together leading scholars in the fields of criminology international law philosophy and architectural history and theory this book examines the interrelationships between architecture and justice highlighting the provocative and curiously ambiguous juncture between the two Illustrated by a range of disparate and diverse case studies it draws out the formal language of justice and extends the effects that architecture has on both the place of and the individuals subject to justice With its multi disciplinary perspective the study serves as a platform on which to debate the relationships between the ceremonial legalistic administrative and penal aspects of justice and the spaces that constitute their settings The structure of the book develops from the particular to the universal from local situations to the larger city and thereby examines the role that architecture and urban space play in the deliberations of justice At the same time contributors to the volume remind us of the potential impact the built environment can have in undermining the proper juridical processes of a socio political system Hence the book provides both wise counsel and warnings of the role of public civic space in affirming our sense of a just or unjust society Access to Justice in Magistrates' Courts Lucy Welsh, 2022-01-27 This book examines access to justice in summary criminal proceedings by considering the ability of

defendants to play an active and effective role in the process Access to justice refers not just to the availability of legally aided representation but also to the ability of defendants to understand and effectively participate in summary criminal proceedings more generally It remains a vital principle of justice that justice should not only be done but should also be seen to be done by all participants in the process The book is based on socio legal research The study is ethnographic based on observation conducted in four magistrates courts in South East England and interviews with both defence lawyers and Crown prosecutors Setting out an argument that defendants have always been marginalised through particular features of magistrates court proceedings such as courtroom layout and patterns of behaviour among the professional workgroups in court the political climate in relation to defendants and access to justice that has persisted since 2010 has further undermined the ability of defendants to play an active role in the process Ultimately this book argues that recent governments have demanded ever more efficiency and cost saving in criminal justice In that context principles that contribute to access to justice for defendants have been seriously undermined Introduction to the Criminal Justice Process Bryan Gibson, Paul Cavadino, 2002 A complete overview and introduction to all aspects of the UK criminal justice system written by two leading experts and as used across the UK an ideal accessible and readable account and a longstanding flagship work for the Waterside Press introductory series of books on criminal justice and penal affairs
