## Summer Camp:

*Summer Camps around Asheville and Hendersonville* Melanie English, 2016-05-30 Historically western North Carolina has been a haven for summer camps sustaining one of the highest concentrations of summer camps in America For generations the natural beauty rustic terrain and cool climates of the southern Appalachian Mountains have attracted campers from around the world In the last decades of the 19th century the summer camp movement arose in the Northeast in response to industrial era concerns about the waning of traditional values and new child development theories By the turn of the 20th century the first residential summer camps had emerged around the popular resort towns of Asheville Hendersonville Brevard Black Mountain and Lake Lure North Carolina Founded on lakeshores surrounded by woodlands these camps offered an array of activities such as archery canoeing horseback riding swimming and woodcraft that instilled lifelong lessons in youth and forged lasting friendships Today many of the same camp traditions like council rings and campfire stories are still passed along each summer Readers will recognize familiar cabins and lakefronts with nostalgia in this collection of vintage photographs [Summer Camp](#) University of Wyoming. Levine, 2001 This book documents a little known aspect of the Jewish experience in America It is a fascinating account of how a group of Jewish refugees from Nazi Germany came to dominate cattle dealing in south central

New York and maintain a Jewish identity even while residing in small towns and villages that are overwhelmingly Christian. The book pays particular attention to the unique role played by women in managing the transition to the United States in helping their husbands accumulate capital and in recreating a German Jewish community. Yet Levine goes further than her analysis of German Jewish refugees. She also argues that it is possible to explain the situations of other immigrant and ethnic groups using the structure network identity framework that arises from this research. According to Levine, situating the lives of immigrants and refugees within the larger context of economic and social change but without losing sight of the significance of social networks and everyday life shows how social structure, class, ethnicity, and gender interact to account for immigrant adaptation and mobility.

**Children's and Families' Holiday Experience** Neil Carr, 2011-04-06. *Children's and Families' Holiday Experiences* is based on the recognition of the active social role of children in shaping the nature of their holiday experiences and those of their parents and other adults. The volume provides significant insights into the holiday desires, expectations, and experiences of children and their families that offer the potential for the tourism industry to plan, develop, and market products that provide a higher quality of service to these populations. This book traces the modern history of the demand for and provision of holidays for children and families. As part of this, it examines the nature of the holiday desires of parents and children and the roles society and the tourism industry play in influencing these. It provides an analysis of the changing nature of the holiday desires and experiences of children as they evolve through different life stages and the influence this has on the shape of family holidays. Given increasing concerns about child safety and education, this book examines both issues within the tourism experience. Finally, the book analyzes how the tourism industry caters to the needs of children and families and offers insights into how this could be improved in the future. This thorough investigation will be of interest to
