was that the implementation of the NEN decided upon in 1990 was halfway The second symposium in 2006 was about urban ecology and the third one to be held in 2007 will be about civil infrastructure This book does not cover the conferences completely and new contributions are added The three themes are important contexts in which landscape ecologists do their research and apply their knowledge and skills Of course there are many more subjects to hold conferences about for example climate change urbanisation agriculture landscape ecology itself etc The focus of the conferences is on the Netherlands with its urbanisation intensive land use and water management as characteristic features Although many WLO members do their work abroad or in an international context these conferences offer a window on what happens in the Dutch context The experiences may be of value for other contexts and that is why we present the results in English The selected themes and the focus on the Dutch context are serious demarcations of what landscape ecology in the Netherlands is all about The book does not represent all research and applications of landscape ecology

The Music of Frederick Delius Jeremy Dibble, 2021 This book examines Delius s individual approaches to genre form harmony orchestration and literary texts which gave the composer s musical style such a unique voice Frederick Delius 1862 1934 music has proved impervious to analytical definition Delius s approaches to genre form harmony orchestration and literary texts are all highly individual not to say eccentric in their deliberate aim to avoid conformity Rarely does Delius follow a conventional line and though one can readily point to important influences the larger Gestalt of each work has a syntax and coherence for which conventional analytical methods are mostly inadequate Delius s musical style has also defied one of the

most essential critical tools of his musical epoch that of national identity His style bears no relation either to the Victorian or Edwardian aesthetic of British music spearheaded by Parry Stanford and Elgar before the First World War nor to the more overtly nationalist folk song orientated pastoralism of post war Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors The book also explores the question of Delius and genre in which the investigation of form is central especially in opera the symphonic poem the choral work where words are seminal to the creation of structural design and the sonata and concerto to which Delius brought his own individual solution Other significant factors are Delius's cosmopolitan use of texts operatic plots and picturesque impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888 1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg Sinding Florent Schmitt Wagner Strauss and Debussy r Britain in such composers as Vaughan Williams and Holst In contrast Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement To test these claims the book explores a number of important factors Delius's musical education at the Leipzig Conservatorium and the works he produced there Delius's musical voice notably his harmonic and melodic style and the close structural relationship between these two factors The book also explores the question of Delius and genre in which the investigation of form is central especially in opera the symphonic poem the choral work where words are seminal to the creation of structural design and the sonata and concerto to which Delius brought his own individual solution Other significant factors are Delius's cosmopolitan use of texts operatic plots and picturesque

impressions his relationship to Nietzsche's writings and the genre of dance and the role of his earlier works 1888-1896 in which it is possible to plot a course of stylistic change with reference to the influences of Grieg, Sinding, Florent Schmitt, Wagner, Strauss and Debussy. In Britain, in such composers as Vaughan Williams and Holst. In contrast, Delius acknowledged himself a stateless individual and considered that his music refused to belong to any national school or movement. To test these claims, the book explores a number of important factors: Delius's musical education at the Leipzig Conservatorium and the works he produced there; Delius's musical voice, notably his harmonic and melodic style and the close structural relationship between these two factors.
