**Summer Key to Trees of Tennessee and the Great Smokies** Royal E. Shanks, 1980      Summer Key to Trees of Tennessee and the Great Smokies Royal E. Shanks, Aaron J. Sharp, 1963 The key and accompanying list include the trees known to be native or naturalized in Tennessee Species known to occur in the Great Smoky Mountains National Park are indicated by an asterisk before the name Certain species not native to the region some of which escape from cultivation are included but are so designated by CAPITALS The present key is an expansion of the Summer Key to the Trees of Eastern Tennessee by the same authors Jour Tenn Acad Sci 22 114 133 1947 which was based on ten years of experience with the key prepared by Stanley A Cain in 1937 for use in introductory botany classes at the University of Tennessee It is in many places a recognizable descendant of Cain's key and the obligation is acknowledged with sincere appreciation The key is based on summer characters primarily those of leaves the most important of which are defined on pages 22 24 and illustrated on the inside covers The illustrations were prepared by Jane W Roller At times the identification of a species is facilitated by the use of flower fruit bud leafscar habit and habitat characters but also they are usually not required The key is artificial no attempt having been made to reveal phylogenetic relationships      **Trees, Shrubs, and Woody Vines of Great Smoky Mountains National Park** Arthur Stupka, 1964 With Trees Shrubs and Woody Vines in hand visitors to the Great Smoky Mountains National park are able to see the trees instead of just the forest The location of various stands of virgin forest the elevations at which certain trees and shrubs are found and other pertinent floral data are contained in this handy guide by Arthur Stupka Published with the cooperation of the Great Smoky Mountains Association the book includes sixteen pages of pictures showing rare or exceptional specimens and forest vistas A special feature of the volume is a twenty four page section of identifications to keys to each group of plants prepared by Dr A J Sharp 1904 1997 former University of Tennessee professor of botany and former president of the Botanical Society of America      Taxonomy and Ecology of Woody Plants in North American Forests James S.
