First Resorts Jon Sterngass, 2021-04-27 A scrupulously researched and beautifully crafted account of how nineteenth century Americans went in search of health rest and diversion Lena Lencek and Gideon Bosker coauthors of *The Beach The History of Paradise on Earth In First Resorts Pursuing Pleasure at Saratoga Springs Newport and Coney Island* Jon Sterngass follows three of the best known northeastern American resorts across a century of change Saratoga Springs Newport and Coney Island began he finds as similar pleasure destinations each of them featuring grand hotels where visitors swarmed public spaces such as verandas dining rooms and parlors As the century progressed however Saratoga remained much the

same while Newport turned to private and lavish cottages and Coney Island shifted its focus to amusements for the masses. Fifty-nine illustrations enliven Stern's unique study of the commodification of pleasure that occurred as capitalist values flourished, travel grew more accessible, and leisure time became democratized. These three resorts, he argues, served as forerunners of twentieth-century pleasure cities such as Aspen, Las Vegas, and Orlando. An engaging, creative book replete with evocative illustrations and witty quotes, a pleasant read. Thomas A. Chambers, New York Academy of History.

Stern's discussions about privacy, community, commercialization, consumption, leisure, and the desire to be conspicuous are important and new. With its well-chosen illustrations, this is a handsome book as well as an important one. Kathryn Allamong Jacob, Radcliffe Institute for Advanced Study, Harvard University.

Having mined every conceivable source about his three sites, Stern has presented a wealth of interesting material, not only about the resort experience but also about the residents, politicians, and entrepreneurs who built them. *Journal of American History*.

The Military History of Remote Antiquity: Period and The Three Dynasties (Xia, Shang and Zhou Dynasty) Li Shi. The book is the volume of *The Military History of Remote Antiquity: Period and The Three Dynasties* (Xia, Shang and Zhou Dynasty) among a series of books of *Deep into China Histories*. The earliest known written records of the history of China date from as early as 1250 BC from the Shang dynasty c. 1600–1046 BC, and the *Bamboo Annals* 296 BC describe a Xia dynasty c. 2070–1600 BC before the Shang, but no writing is known from the period. The Shang ruled in the Yellow River valley, which is commonly held to be the cradle of Chinese civilization. However, Neolithic civilizations originated at various cultural centers along both the Yellow River and Yangtze River. These Yellow River and Yangtze civilizations arose millennia before the Shang. With thousands of years of continuous history, China is one of the world's oldest civilizations and is regarded as one of the cradles of civilization. The Zhou dynasty 1046–256 BC supplanted the Shang and introduced the concept of the Mandate of Heaven to justify their rule. The central Zhou government began to weaken due to external and internal pressures in the 8th century BC, and the country eventually splintered into smaller states during the Spring and Autumn period. These states became independent and warred with one another in the following Warring States period. Much of traditional Chinese culture, literature, and philosophy first developed during those troubled times. In 221 BC, Qin Shi Huang conquered the various warring states and created for himself the title of Huangdi, or emperor of the Qin, marking the beginning of imperial China. However, the oppressive government fell soon after his death and was supplanted by the longer-lived Han dynasty 206 BC–220 AD. Successive dynasties developed bureaucratic systems that enabled the emperor to control vast territories directly. In the 21 centuries from 206 BC until AD 1912, routine administrative tasks were handled by a special elite of scholar-officials. Young men well-versed in calligraphy, history, literature, and philosophy were carefully selected through difficult government examinations. China's last dynasty was the Qing 1644–1912, which was replaced by the Republic of China in 1912 and in the mainland by the People's Republic of China in 1949. Chinese history has alternated between periods of political unity and peace and periods of war and failed

statehood the most recent being the Chinese Civil War 1927 1949 China was occasionally dominated by steppe peoples most of whom were eventually assimilated into the Han Chinese culture and population Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China **British Bee Journal & Bee-keepers Adviser** ,1923 **Citoyenne Jacqueline** Sarah Tytler,1865
