Reconstructions Thomas J. Brown,2008-09-23 The pivotal era of Reconstruction has inspired an outstanding historical literature In the half century after W E B DuBois published Black Reconstruction in America 1935 a host of thoughtful and energetic authors helped to dismantle racist stereotypes about the aftermath of emancipation and Union victory in the Civil War The resolution of long running interpretive debates shifted the issues at stake in Reconstruction scholarship but the topic has remained a vital venue for original exploration of the American past In Reconstructions New Perspectives on the Postbellum United States eight rising historians survey the latest generation of work and point to promising directions for future research They show that the field is opening out to address a wider range of adjustments to the experiences and effects of Civil War Increased interest in cultural history now enriches understandings traditionally centered on social and political history Attention to gender has joined a focus on labor as a powerful strategy for analyzing negotiations over private and public authority The contributors suggest that Reconstruction historiography might further thrive by strengthening

connections to such subjects as western history legal history and diplomatic history and by redefining the chronological boundaries of the postwar period The essays provide more than a variety of attractive vantage points for fresh examination of a major phase of American history By identifying the most exciting recent approaches to a theme previously studied so ably the collection illuminates the creative process in scholarly historical literature **Bulletin** North Dakota. State Laboratories Dept,1963 The World's Best Essays ,1908 Gardeners' Chronicle ,1884 **Good Faith in International Investment Arbitration** Emily Sipiorski,2019 Written by a leading legal researcher this book offers a comprehensive study of the principle a frequently invoked but rarely analysed aspect of investment arbitration It is a thorough and expansive study that considers the application of good faith by arbitral tribunals and parties in international investment disputes encompassing both procedural and substantive aspects of good faith Expertly negotiating a complex principle this book diligently follows the arbitral process from jurisdiction through merits and to cost decisions identifying the various applications of good faith in investment disputes The author offers detailed analyses of the role of good faith in defining nationality and investor as well as in pre dispute admissibility requirements The study then delves into the ways the principle guides parties arguments and informs tribunals decisions regarding evidence substantive protections and costs It further addresses the role of good faith in the behaviour of arbitrators and other actors This is a guide for anyone wishing to understand this important principle that has accompanied the developing system of international investment law
