Destiny's Journey Alfred Döblin,2019-08-16 *Destiny s Journey* is a memoir reconstructed partly from notebooks that Döblin kept from the time he worked in the French Ministry of Information in the spring of 1940 and partly written without notes in Los Angeles where he took refuge during the Second World War It tells the personal and generational story of the flight of Jewish and anti Nazi intellectuals from Europe to America their fear and frustration isolation and inability to work Döblin s story differs from that of other Jewish intellectuals and artists in that his family converts to Catholicism in Los Angeles Unlike most of them he returns to Europe as an officer with the French forces and works on denazifying German literature The conversion narrative bridges the departure from and return to Europe To critic John Simon the latter part of the book often reads like a shrill piece of Christian homiletics But even this is not without interest as it traces the transformation of an anarchic outsider into a dogmatic insider The first part of *Destiny s Journey* about Döblin s departure from Paris in 1940 is magisterial acidly observed saturated in telling detail grimly comic and harrowing with an exemplary introduction by Peter Demetz an important nourishing book John Simon *The New York Times* *Destiny's Voyage* Bob Love,2006-06 They say fact is stranger than fiction This is a book of just such an event History chronicles only one RMS Titanic but in reality there were two The one we all know that struck the iceberg on her maiden voyage on April 14 1912 A mighty luxurious steamship intended to be the White Star Line s new Queen of the Atlantic Ocean trade between England and America The other was actually the first of the White Star Line s evolution into the luxury liners with the SS *Atlantic* Almost to the day 29 years earlier on April Fools Day 1873 she ran hard aground on the Nova Scotia coast causing the loss of a higher percentage of her souls than her descendent The unique factor being only the fittest survived leaving the souls of all the women and but one child buried with her at the bottom of the sea The book will take you on a voyage that will cause you to reflect upon your own mortality and how the events in your life play a roll in your own destiny Events that can be playing out by persons you do not even know work their way along a path until circumstances throw you together at a common place and time as though preordained culminating in a tragedy such as the two sister ships of the White Star Line Like father like son both made decisions based on mirrored motivations both with tragic results You will witness the actual words of the cast including their

testimony at the Inquiries at Halifax and Liverpool You will be the jury in forming your own opinions as to the real cause and who carries the primary guilt of responsibility It s a voyage you should book passage on for enhancing your sensitivity to predestination The Message of Humanity Ian W. Payne,2025-02-20 Who do humans think they are A cacophony of answers in the face of global challenges like climate change artificial intelligence racism nationalism terrorism feminism abortion gene therapy gender constructivism shows we do not agree To a deeply divided despondent world the Bible speaks today about the human condition and destiny by pointing us to Jesus Christ the true human the image of God Ian Payne s conviction is that the most important answer to the question of humanity is God He expounds a comprehensive selection of Old and New Testament passages and examines a range of issues in being human today The book is structured in three parts following the biblical narrative Part 1 Created in the image of God Part 2 Image of God renewed in Christ Part 3 Issues in being human This biblical theology shows that hope and meaning for humans are found in remembering and trusting God s gift of life and goal of redemption and restoration With an integrated study guide this book is perfect for personal and group study and preachers application of the passages covered A Grammar of Christian Faith Joe R. Jones,2002 Volume II of A Grammar of Christian Faith aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope The Split Time Nimi Wariboko,2022-08-01 The quest for economic development is arguably the most frustrating and tragic dimension of human existence in Africa As its primary task The Split Time constructs an economic philosophy from a tradition of thought that is indigenous to Africa arguing that there are long neglected resources within African philosophy to guide economic policymakers toward creating an African economy that can sustain human flourishing Exploring notions of destiny temporality and desire Nimi Wariboko constructs an economic philosophical framework to rethink solutions to the vexing problem of economic development in Africa He also provides a robust social ethical perspective in which the basic aspects of economic life the agential accounts of human agency telos the circumstantial material social context and the affective to feel appropriately what matters to a people in an economy or their desire for human flourishing come together to fire social imagination about development policies for the common good

Heidegger's Phenomenology of Perception David Kleinberg-Levin, 2021-01-06 In volume I Kleinberg Levin interprets five key words in Heidegger's project In this second volume he illuminates their significance for Heidegger's phenomenology of perception and his philosophy of history At stake is the possibility of a new experience and understanding of being Taking us beyond the metaphysical understanding of being Heidegger proposes to introduce a new key word Seyn beyng Beyng is the Da sein appropriating event in which a clearing occurs as an open dimension for the time space interplay of concealment and unconcealment an interplay within which beings are experienced in regard to the various modes and inflections of presence and absence that the grammar of temporalities articulates Concentrating on the appropriation of seeing and hearing as capacities and capabilities bearing promising potentialities that could be developed Kleinberg Levin examines seeing and hearing in the context of Heidegger's critique of the history of metaphysics wherein vision has served as paradigm for knowledge truth and reality He shows that in Heidegger's philosophy of history seeing and hearing are given a role in the transformation of the character of humanity redeeming their own inherent potential Perceptual experience has undergone accelerating processes of deformation and reification encouraging a disposition that makes it serve technological and technocratic imperatives but we might begin to redeem the promising potential in seeing and hearing turning their damaged and dehumanized character and their violence towards the creation of a new planetary existence what Heidegger imagines through the topology of the fourfold earth and sky mortals and the gods who embody our ideals In this project we are put in question by a responsibility that summons us in our seeing and hearing to the response abilities most befitting our historically shared sense of an achieved humanity
