

Death of a Sun-Like Star

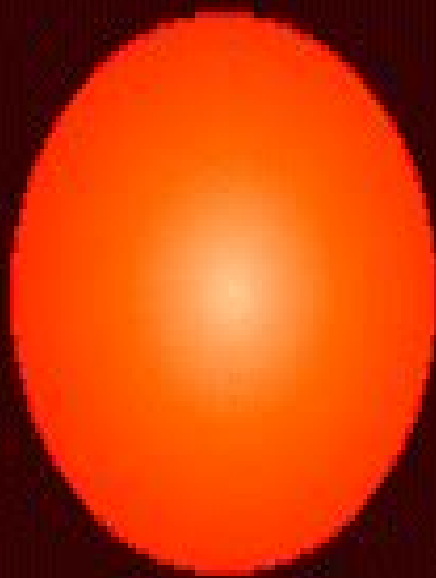

**Sun-Like
Star**

This is the longest, most stable period of a star's life. It converts hydrogen to helium in its core, generating heat and light.

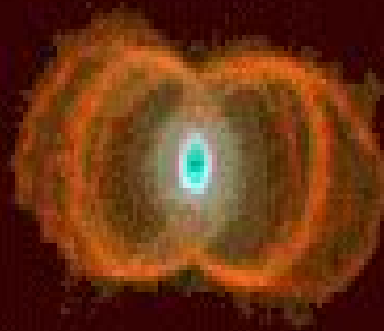

**Red
Giant**

As the nuclear fuel becomes depleted, the core contracts and the outer layers expand.

**Planetary
Nebula**

Now the outer layers of the star start to drift off into space. The star loses most of its mass to the nebula.

**White
Dwarf**

The star cools and shrinks; it will eventually be only a few thousand miles in diameter! No nuclear reactions take place and the faint star radiates its heat into space.

**Black
Dwarf**

Eventually the star has lost all its heat to space and is now cold and dark.

The Citizen and the Chinese State Perry Keller, 2017-03-02 This volume addresses several core questions regarding the nature of law in China and its future development In particular these articles shed light on whether the rule of law ideal is commensurable with government based on the Chinese Communist Party Beginning virtually from scratch China has established a comprehensive legal system that boasts a constitution primary and secondary legislation and plentiful regulations covering most areas of public and private life Yet as these articles discuss its courts are enmeshed in Party and state hierarchies and are not empowered to directly apply constitutional principles or rights ensuring that the law is subordinate to national public policy goals Legal and extra legal methods for punishing wrongdoing and resolving disputes also raise questions of due process of law Ultimately the question is therefore whether China's legal system if eschewing formalised human rights is developing a capacity to protect fundamental human dignity

Communication in China Yuezhi Zhao, 2008-03-20 The stakes for control over the means of communication in China have never been so high as the country struggles with breathtaking social change This authoritative book analyzes the key dimensions of the transformation

in China's communication system since the early 1990s and examines the highly fluid and potentially explosive dynamics of communication power and social contestation during China's rapid rise as a global power Yuezhi Zhao begins with an analysis of the party state's reconfiguration of political economic and ideological power in the Chinese communication system. She then explores the processes and social implications of domestic and foreign capital formation in the communication industry. Drawing on media and Internet debates on fundamental political economic and social issues in contemporary China, the book concludes with a nuanced depiction of the pitched and uneven battles for access and control among different social forces. Locating developments in Chinese communication within the nexus of state, market, and society, the author analyzes how the legacies of socialism continue to cast a long shadow. The book not only provides a multifaceted and interdisciplinary portrait of contemporary Chinese communication but also explores profound questions regarding the nature of the state, the dynamics of class formation, and the trajectory of China's epochal social transformation. **Exile's Return** Malcolm

The Aztec Book of Destiny Rick Holmer,2005-09 The Aztec Book of Destiny summarizes traditional Mesoamerican beliefs about the spiritual nature of time and its influence on one s personality and fate The ancient Aztec Toltec and Maya believed that the day of birth as defined in their sacred calendar affects destiny and this philosophy has guided their daily lives for more than 3000 years This book condenses the scattered and disparate literature about these beliefs into a fun and informative narrative but it goes far beyond what academics and popular authors have published to date The author presents a unique perspective shaped by the wisdom of a traditional calendar keeper he met in Mexico in 1973 The book s message is that the calendar is not simply an ancient and forgotten curiosity it is as relevant today as in ancient times The majority of the book projects the timeless Mesoamerican philosophy into contemporary Western society encouraging introspection and self awareness

Elleman, 2021-05-09 This book provides a comprehensive history of the modern Chinese navy from 1840 to the present Beginning with a survey of naval developments in earlier imperial times the book goes on to show how China has since the mid 19th century four times built or rebuilt its navy after the Opium Wars a navy which was sunk or captured by the Japanese in the war of 1894 1895 during the 1920s and 1930s a navy again sunk or lost to Japan in the war of 1937 1945 in the 1950s a navy built with Soviet help which stagnated following the Sino Soviet split in the early 1960s and finally the present navy which absorbed its predecessor but with the most modern sections dating from the 1990s a navy which continues to grow and prosper The book also shows how the underlying strategic imperative for the Chinese navy has been the defense of China's coasts and major rivers how naval mutiny was a key factor in the overthrow of the Qing and the Nationalist regimes and how successive Chinese governments aware of the potent threat of naval mutiny have restricted the growth independence and capabilities of the navy Overall the book provides at a time when many people in the West view China and its navy as a threat a rich detailed and realistic assessment of the true nature of the Chinese navy and the contemporary factors that affect its development The Earthen Vessel and Christian Record & Review, 1846
