Making Time for the Past Katherine Clarke,2008-03-20 This book has two main and connected themes the conception and articulation of time in the Greek world and the creation of history especially in the context of the Greek city Both how time is expressed and how the past is presented have often been seen as reflections of society By looking at the construction of the past through the medium of local historiography where we can view these issues in the relatively restricted world of individual city states we can gain a clearer insight into how different versions of the past and different constructions of time were offered to the community for approval In this way the citizens were able to negotiate time past and indeed their own history and thereby to express their values and aspirations

Anthony Spalinger,2018-12-31 Standing as a summary of Spalinger s ideas at the time of the Yale lectures in 2012 this study covers two research sides of modern Egyptological research by a life long student of ancient Egyptian calendrics and the Egyptian military The first three chapters cover the development of Richard Parker s seminal study from 1950 and move into the present stage of scholarship Very important is the author s clarification of what Parker wrote in his paradigmatic work a slim volume often misunderstood Hence the thrust of argument concentrates upon the dating of feasts the names of the Egyptian months and their metamorphoses in addition to the retention of lunar based phenomena Two final chapters turn to the military aspects of New Kingdom warfare with emphasis placed upon Seti I and logistical arrangements La

Elenchus of Biblica Maria J. Schoenmaeckers, Robert Althann, 2004-12-20 Le 23 novembre 1964 jour de la promulgation de Lumen Gentium la constitution dogmatique sur l'Eglise marque un événement c'est la première fois dans l'histoire de l'Eglise qu'une assemblée de la Sainte Eglise s'exprime solennellement sur la vie consacrée Le sixième chapitre de la constitution traite de la signification et de l'essence de la vie religieuse la reliant au mystère de l'Eglise peuple de Dieu Ce texte conciliaire présente la vie religieuse comme un état canonique celui du chrétien qui tend dans un institut de perfection à la charité parfaite et consacre sa vie à Dieu et aux hommes par la profession des conseils évangéliques de chasteté pauvreté et obéissance De toute évidence cette déclaration doctrinale est importante pour l'Eglise et pour le développement de la vie consacrée dans l'Eglise En lisant Lumen Gentium on est assez vite frappé par le début abrupt du sixième chapitre sur les religieux car tous les autres chapitres s'ouvrent par une brève introduction Cependant on ne peut détacher ce chapitre de ce qui a été dit précédemment sur la vocation universelle à la sainteté En fait l'histoire du texte fait clairement ressortir le lien qui unit ces chapitres

The Classical Review, 2000

Vom Paläolithikum zur Postmoderne - Die Genese unseres Epochen-Systems Andreas Kamp, 2011-02-03 Dies ist der erste Teil einer zweibändigen Studie zur Genese unseres heutigen vom Anspruch her den chronologischen Verlauf der gesamten Menschheitsgeschichte strukturierenden Epochen Systems Der Band skizziert zunächst die geistesgeschichtlichen Prämissen Von der rudimentären paläolithischen Zeiteinteilung führt er über die ältesten schriftlich dokumentierten Ordnungsversuche in den sumerischen bzw. ägyptischen Königslisten griechische und römische Autoren Petrarca Bruni und Vasari bis zu Cellarius der am Ende des 17. Jahrhunderts die drei Zeitalter Distinktion Antike Mittelalter Neuzeit zum zentralen chronologischen Gliederungsprinzip der Weltgeschichte erhob Anschließend stehen die drei klassischen von Pyrrhon Polybios bzw. Ptolemaios entwickelten Epoch Konzepte sowie deren Auftauchen und Rezeption im lateinischen Europa im Fokus Sodann wird die erstaunlich spät nämlich erst nach Mitte des 16. Jahrhunderts einsetzende Transformation der Epoch zur fundamentalen

historiographischen Ordnungskategorie thematisiert Schließlich verfolgen wir anhand zahlreicher Autoren sowie der kontemporären Lexikographie ihren auf Latein wie in den relevanten europäischen Volkssprachen Englisch Französisch Deutsch Spanisch Portugiesisch Italienisch stattfindenden Divulgationsprozess Dabei erweist sich der Ausgang des 17. Jahrhunderts erneut als Wasserscheide Der erste Band endet deshalb an dieser Stelle der zweite wird dann die weitere Entwicklung von 1700 bis zur Gegenwart analysieren This is the first part of a two volume study of the genesis of our modern day system of epochs which claims to structure the chronology of the entire history of mankind The volume sets out by sketching the intellectual premises It leads from the rudimentary Palaeolithic division of time via the oldest attempts at structuring to have been documented in written form through to the Sumerian and Egyptian King Lists to Greek and Roman authors to Petrarch Bruni and Vasari and finally to Cellarius who in the late 17th century introduced the distinction between the three epochs of Antiquity the Middle Ages and the Modern Era as the basic chronological principle of organising the history of the world This is followed by a closer look at the three classical concepts of Epoch as defined by Pyrrhon Polybios and Ptolemaios respectively as well as their surfacing and reception in Latin Europe Not until the second half of the 16th century which is an astonishingly late point in time can the transformation of Epoch into a fundamental category of historiographic structuring be detected Finally by studying numerous writers as well as the contemporary lexicography we will outline the process of divulgation that took place both in Latin as well as in the relevant European vernaculars English French German Spanish Portuguese Italian In the process the late 17th century again proves to be a kind of divide As a consequence volume one ends here a second volume forthcoming will analyse the further development to the present day
