Sundial In Our Garden:

The Garden Magazine ,1916 *The Sun Dial* Amelia Khatri,AI,2025-02-12 The Sun Dial explores the history and science of sundials revealing their crucial role in ancient timekeeping and their influence on modern time measurement For millennia sundials dictated daily life reflecting humanity s ingenuity in harnessing the sun s power These devices weren t just tools they were integral to social religious and economic practices across cultures influencing everything from agricultural schedules to architectural designs The book journeys from the earliest sundial iterations in ancient civilizations to the sophisticated designs of the Renaissance highlighting regional variations and technological advancements It examines the scientific principles underpinning their operation such as the Earth s rotation and the sun s position and explores how these principles allowed for surprisingly accurate time measurement One intriguing fact is how sundials despite their simplicity required a practical understanding of astronomy and mathematics for accurate construction Structured chronologically and thematically The Sun Dial begins with basic concepts of solar time and progresses through historical development in various cultures Major sections focus on sundials in ancient Egypt Greece and Rome their evolution during the medieval period and the Renaissance It culminates by discussing their decline with mechanical clocks while emphasizing their continuing role as decorative and educational objects offering a comprehensive yet accessible account bridging scientific analysis and historical narrative

Andrew Marvell s Liminal Lyrics The Space Between is an interdisciplinary study of the major lyric poems of seventeenth

century British metaphysical poet Andrew Marvell The poet and his work have generally proven enigmatic to scholars because both refuse to fit into normal categories and expectations This study invites Marvell readers to view the poet and some of his representative lyrics in the context of the anthropological concept of liminality as developed by Victor Turner and enriched by Arnold Van Gennep Jacques Lacan and other observers of the in between aspects of experience The approach differs from previous attempts to explain Marvell in that it allows multidisciplinary and multi media contexts in a broad matrix of the areas of experience and representation that defy boundaries that blur the line at which entrance becomes exit This study acknowledges that the poems discussed and by implication the entire corpus of Marvell s work and the life that produced it derive from a refusal to draw a definite divide In analyzing a small selection of Marvell s life and lyrics as explorations of various realms of liminality in word and image readers can see a passageway to the poet s works that never really reaches a destination instead the unlimited possibilities of the journey remain Thus the in between aspects of the poet and his poetry actually define his technique as well as his brilliance

The Prosciutto Sundial Christopher Charles Parslow, Robert Rich Professor of Latin Christopher Parslow, 2024 The Prosciutto Sundial is the first comprehensive study of the sundial in the shape of a miniature prosciutto from the Villa dei Papiri in Herculaneum from its rediscovery in 1755 to modern times Drawing on contemporary correspondence and manuscripts early philological and scientific assessments and later published accounts it catalogs the many attempts by scholars and lay people alike to understand how it functioned It explains the significance of its context in the Villa and through the results of empirical analysis using a 3D model highlights the remarkable accuracy of this unique ancient timepiece
