The Sinking of the Bismarck William L. Shirer, 2014-10-22 The famous war correspondent delivers an edge of your seat account of the naval chase and battle to take out one of Hitler's most powerful warships The Bismarck wasn't just any warship Its guns were much stronger and more accurate than any others in its day meaning it could easily sink enemy ships without getting in range of their fire It was one of Hitler's most powerful weapons and the Allied forces had to put it out of commission before they lost the war With the fate of the world in the balance Allied forces chased the Bismarck across the stormy North Atlantic culminating in a thrilling sea battle that changed the course of World War II Unfolding with the taut suspense of a blockbuster movie this book brings the excitement and danger of World War II to younger audiences and demonstrates William L Shirer's mastery as a writer of history and a spinner of tales A book one reads with sustained excitement Kirkus Reviews

Bismarck Michael Tamelander,Niklas Zetterling,2020-01-10 The author of Blitzkrieg covers one of the most dramatic events of the Second World War in an outstanding book about naval warfare World War II History When the German battleship Bismarck a masterpiece of engineering well armored with a main artillery of eight 15 inch guns left the port of Gotenhafen for her first operation on the night of May 18 1941 the British battlecruiser Hood and the new battleship Prince of Wales were ordered to find her quickly as several large convoys were heading for Britain On May 24 Bismarck was found off the coast of Greenland but the ensuing battle was disastrous for the British The Hood was totally destroyed within minutes with only three crewmen surviving and Prince of Wales was badly damaged The chase resumed until the German behemoth was finally caught this time by four

British capital ships supported by torpedo bombers from the carrier Ark Royal The icy North Atlantic roiled from the crash of shellfire and bursting explosions until finally the Bismarck collapsed sending nearly two thousand German sailors to a watery grave Tanelander and Zetterling's work rests on stories from survivors and the latest historical discoveries The book starts with a thorough account of maritime developments from 1871 up to the era of the giant battleship and ends with a vivid account hour by hour of the dramatic and fateful hunt for the mighty Bismarck Nazi Germany's last hope to pose a powerful surface threat to Allied convoys Exciting story telling recreates the thrill of the hunt International Journal of Maritime History An epic sea chase and its vivid human details World War II **The Essential Davidson** Donald

Davidson,2006-01-12 The Essential Davidson compiles the most celebrated papers of one of the twentieth century's greatest philosophers It distills Donald Davidson's seminal contributions to our understanding of ourselves from three decades of essays into one thematically organized collection A new specially written introduction by Ernie Lepore and Kirk Ludwig two of the world's leading authorities on his work offers a guide through the ideas and arguments shows how they interconnect and reveals the systematic coherence of Davidson's worldview Davidson's philosophical program is organized around two connected projects The first is that of understanding the nature of human agency The second is that of understanding the nature and function of language and its relation to the world Accordingly the first part of the book presents Davidson's investigation of reasons causes and intentions which revolutionized the philosophy of action This leads to his notable doctrine of anomalous monism the view that all mental events are physical events but that the mental cannot be reduced to the physical The second part of the book presents the famous essays in which Davidson set out his highly original and influential philosophy of language which founds the theory of meaning on the theory of truth These fifteen classic essays will be invaluable for anyone interested in the study of mind and language Fascinating though they are individually it is only when drawn together that there emerges a compelling picture of man as a rational linguistic animal whose thoughts though not reducible to the material are part of the fabric of the world and whose knowledge of his own mind the minds of others and the world around him is as fundamental to his nature as the power of thought and speech itself 'Gentlemen, the Bismarck

Lock,Craig G. Lock,2015-07-31 I was an eye witness to the sinking of the Bismarck FOR many of us World War II occupies a distant place in history far removed from our every day lives yet immortalised for a generation who paid heavily for the price of freedom For Durban North's Ray Lock the recent publication of his book Bismarck Dorsetshire and Memories is a recollection of events documenting his eyewitness account to one of the major historical events in WW II that has rightly found a place in historical archives In 1939 at the tender age of 16 Ray eager not to miss the action of WW II falsified his age by two years and managed to enlist as a seaman for the Royal Navy After spending a couple of months undergoing military training at the Natal Command in Durban Ray was assigned as a crewmember aboard the battleship the Dorsetshire His book

The Last Torpedo Flyers Arthur Aldridge, 2013-05-23 Imagine you are an RAF torpedo pilot in World War Two sent on missions so dangerous that you re later likened to the Kamikaze Suicide wasn t a recognised part of the objective for British airmen yet some pilots felt they had accepted certain death just by climbing into their cockpits There were times in 1942 when Arthur Aldridge felt like this At the age of 19 this courageous young man had quit his studies at Oxford to volunteer for the RAF He flew his Bristol Beaufort like there was no tomorrow a realistic assumption after seeing his best friend die in flames at the end of 1941 Aldridge was awarded a DFC Distinguished Flying Cross for his bravery on the same strike on a German cargo ship during which he lost a wing tip by flying too close to the deck He was equally lucky to survive his squadron s chaotic torpedo attack on the giants of Hitler s maritime fleet during the notorious Channel Dash which saw 40 RAF planes shot down As 1942 wore on and the stress became intolerable Aldridge and his Cockney gunner Bill Carroll held their nerve and Arty was awarded a Bar to his DFC for sinking two enemy ships off

Malta and rescuing a fellow pilot while wounded as his own Beaufort took four shells Malta was saved by the skin of its teeth
Rommel denied vital supplies in North Africa and the course of the war was turned Aldridge was still only 21 years old Now
both 91 but firm friends as ever Aldridge and Carroll are two of the last torpedo airmen who deserve their place in history
alongside our heroic Spitfire pilots Their story vividly captures the comradeship that existed between men pushed by war to
their very limit
