Suomen Museot:

Directory of Museums Kenneth Hudson, Ann Nicholls, 1975-06-18 **Locating the Global** Holger Weiss, 2020-08-10

This volume adds to the plurality of global histories by locating the global through its articulation and manifestation within particular localities. It accomplishes this by bringing together interlinked case studies that analyse various temporal and spatial dimensions of the global in the local and the interactions between the local and the global. The case studies apply a spatial approach to analyse how global questions of space, movement, networks, borders and territory are worked out at a local level. The material draws on the Nordic countries, Europe, the Atlantic world, Africa and Australia and ranges from the seventeenth to the twentieth century. It is further divided into sections that address topics such as the translocality of humans and goods, local articulations of identities and globalities, parliamentarism and anti colonialism, the organization of knowledge and the construction of spaces of representation and memory.

Finland John Ernest Oliver Screen, 1997. Updated from the 1981 edition to include works from after Finland joined the European Union in 1995. Also cites children's books, encyclopedias and other bibliographies. Annotation copyrighted by Book News Inc, Portland, OR.

Keyguide to Information Sources in Museum Studies Peter Woodhead, Geoffrey Stansfield, 1994. This revised and updated edition provides an integrated guide to the documentation, reference aids and key organizational sources of information about museums and museum studies worldwide. Part One provides an overview of museums and the literature about them. Part Two is an annotated bibliography and Part Three is an international directory of organizations. A detailed index completes the work.

Performance Costume Sofia Pantouvaki, Peter McNeil, 2020-12-10. Costume is an active agent for performance making; it is a material object that embodies ideas shaped through collaborative creative work. A new focus in recent years on research in the area of costume has connected this practice in vital and new ways with theories of the body and embodiment, design practices, artistic and other forms of collaboration. Costume like fashion and dress is now viewed as an area of dynamic social significance and not simply as a passive reflector of a pre-conceived social state or practice. This book offers new approaches to the study of costume as well as fresh insights into the better understood frames of historical, theoretical practice based and archival research into costume for performance. This anthology draws on the experience of a global group of established researchers as well as emerging voices. Below is a list of just some of the things it achieves:

1. Introduces diverse perspectives, innovative new research methods and approaches for researching design and the costumed body in performance.
2. Contributes towards a new understanding of how costume actually performs in time and space.
3. Offers new insights into existing practices as well as creating a space of connection between practitioners and researchers from design, the humanities and social sciences.
