Swithburne Hardy Lawrence And The Burden Of Belief:

Hardy's Early Poetry James Persoon, 2000-01-01 Not many authors are allowed the privilege of being retrospectively considered both masterful novelists and poets Despite the fact that Thomas Hardy saw himself as a poet first only recently have his poems been accepted as equal to his celebrated novels Persoon explores how Hardy's poetic vision seemingly cemented in his twenties existed in constant tension between Darwin and Wordsworth between a scientific outlook and the poetic temperament Perceiving Hardy's metaphorical double vision physically represented by his own eyes one of which was smaller than the other we see how this bouncing between realism and romanticism informed not only Hardy's poems but also his view of language art architecture religion and even humor Hardy's Early Poetry deserves attention by anyone who is interested in understanding the full richness and complexity of Hardy's work *Swinburne, Hardy, Lawrence, and the Burden of Belief* Ross C. Murfin, 1978 **Swinburne and His Gods** Margot K. Louis, 1990-01-01 Swinburne and His Gods is the first serious critical analysis to examine the poet's background in the high church in the context of his work Louis clearly shows Swinburne's fierce and intimate hostility toward the church and reveals his particular irritation with the doctrines of Newman Keble and Trench In her explanation of his poetic use of sacramental imagery especially those images connected with the Last Supper Louis shows how Swinburne's eucharists can be murderous or erotic aesthetic or republican The demonic parody that characterizes Swinburne's work is shown to have developed through experimentation with neo romantic alternatives to Christianity first through the evocation of a quasi sadistic pessimism then in the embodiment of the sun god of Art and finally as a feeble gesture toward an unknowable deity which moves elusively both within and beyond the natural world Rather than imposing artificial unity on the poet's career Louis presents his work as an integrated series of serious and brilliant experiments in Romantic art *A.C. Swinburne and the Singing Word* Yisrael Levin, 2016-03-16 Focusing on Algernon Charles Swinburne's later writings this collection makes a case for the seriousness and significance of the writer's mature work While Swinburne's scandalous early poetry has received considerable critical attention the thoughtful rich spiritually and politically informed poetry that began to emerge in his thirties has been generally neglected This volume addresses the need for a fuller understanding of Swinburne's career that includes his fiction aesthetic ideology and analyses of Shakespeare and the great French writers Among the key features of the collection is the contextualizing of Swinburne's work in new contexts such as Victorian mythography continental aestheticism positivism and empiricism Individual essays examine among other topics the dialect poems and Swinburne's position as a regional poet Swinburne as a transition figure from nineteenth century aesthetic writing to the professionalized criticism that dominates the twentieth century Swinburne's participation in the French literary scene Swinburne's friendships with women writers and the selections made for anthologies from the nineteenth century to the present Taken together the essays offer scholars a richer portrait of Swinburne's importance as a poet critic and fiction writer Thomas Hardy and the Survivals of Time Andrew

Radford,2017-03-02 A systematic exploration of Thomas Hardy s imaginative assimilation of particular Victorian sciences this study draws on and swells the widening current of scholarly attention now being paid to the cultural meanings compacted and released by the nascent sciences of man in the nineteenth century Andrew Radford here situates Hardy s fiction and poetry in a context of the new sciences of humankind that evolved during the Victorian age to accommodate an immense range of literal and figurative excavations then taking place Combining literary close readings with broad historical analyses he explores Hardy s artistic response to geological archaeological and anthropological findings In particular he analyzes Hardy s lifelong fascination with the doctrine of survivals a term coined by E B Tylor in Primitive Culture 1871 to denote customs beliefs and practices persisting in isolation from their original cultural context Radford reveals how Hardy s subtle reworking of Tylor s doctrine offers a valuable insight into the inter penetration of science and literature during this period An important aspect of Radford s research focuses on lesser known periodical literature that grew out of a British amateur antiquarian tradition of the nineteenth century His readings of Hardy s literary notebooks disclose the degree to which Hardy s own considerable scientific knowledge was shaped by the middlebrow periodical press Thus Thomas Hardy and the Survivals of Time raises questions not only about the reception of scientific ideas but also the creation of nonspecialist forms of scientific discourse This book represents a genuinely new perspective for Hardy studies

Decadence in the Age of Modernism Kate Hext,Alex Murray,2019-07-16 The first holistic reappraisal of the significance of the decadent movement from the 1900s through the 1930s Decadence in the Age of Modernism begins where the history of the decadent movement all too often ends in 1895 It argues that the decadent principles and aesthetics of Oscar Wilde Walter Pater Algernon Swinburne and others continued to exert a compelling legacy on the next generation of writers from high modernists and late decadents to writers of the Harlem Renaissance Writers associated with this decadent counterculture were consciously celebrated but more often blushingly denied even as they exerted a compelling influence on the early twentieth century Offering a multifaceted critical revision of how modernism evolved out of and coexisted with the decadent movement the essays in this collection reveal how decadent principles infused twentieth century prose poetry drama and newspapers In particular this book demonstrates the potent impact of decadence on the evolution of queer identity and self fashioning in the early twentieth century In close readings of an eclectic range of works by Virginia Woolf James Joyce and D H Lawrence to Ronald Firbank Bruce Nugent and Carl Van Vechten these essays grapple with a range of related issues including individualism the end of Empire the politics of camp experimentalism and the critique of modernity Contributors Howard J Booth Joseph Bristow Ellen Crowell Nick Freeman Ellis Hanson Kate Hext Kirsten MacLeod Kristin Mahoney Douglas Mao Mich le Mendelssohn Alex Murray Sarah Parker Vincent Sherry

Selected Poems Algernon Charles Swinburne,2017-09-25 His roots are in the Elizabethans he loved Landor and Whitman Johnson and Blake Baudelaire and the Marquis de Sade His inclusiveness is tonic His poems are radical in many ways This selection draws on the full range of his poetry and includes an

introduction and notes **The Female Sublime from Milton to Swinburne** Catherine Maxwell, 2001 This innovative study of vision gender and poetry traces Milton's mark on Shelley Tennyson Browning and Swinburne to show how the lyric male poet achieves vision at the cost of symbolic blindness and feminisation Drawing together a wide range of concerns including the use of myth the gender of the sublime the lyric fragment and the relation of pain to creativity this book is a major re-evaluation of the male poet and the making of the English poetic tradition The female sublime from Milton to Swinburne examines the feminisation of the post-Miltonic male poet not through cultural history but through a series of mythic or classical figures which include Philomela Orpheus and Sappho It recovers a disfiguring sublime imagined as an aggressive female force which feminises the male poet in an act that simultaneously deprives and energises him This book will be required reading for anyone with a serious interest in the English poetic tradition and Victorian poetry

Swinburne's Apollo Yisrael Levin, 2016-04-01 Focusing on Algernon Charles Swinburne's poems on Apollo Yisrael Levin calls for a re-examination of the poet's place in Victorian studies in light of his contributions to nineteenth-century intellectual history Swinburne's Apollonian poetry Levin argues shows the poet's active participation in late Victorian debates about the nature and function of faith in an age of changing religious attitudes Levin traces the shifts that took place in Swinburne's conception of Apollo over a period of four decades from Swinburne's attempt to define Apollo as an alternative to the Judeo-Christian deity to Swinburne's formation of a theological system revolving around Apollo and finally to the ways in which Swinburne's view of Apollo led to his agnostic view of spirituality Even though Swinburne had lost his faith and rejected institutional religion by his early twenties he retained a distinct interest in spiritual issues and paid careful attention to developments in religious thought Levin persuasively shows that Swinburne was not simply a poet provocateur who enjoyed controversy but failed to provide valid cultural commentary but was rather a profound thinker whose insights into nineteenth-century spirituality are expressed throughout his Apollonian poetry **Algernon Swinburne and Walter Pater**

Sarah Glendon Lyons, 2017-07-05 How did literary aestheticism emerge in Victorian Britain with its competing models of religious doubt and visions of secularisation For Lyons the aestheticism developed and progressively revised by Algernon Charles Swinburne 1837-1909 and Walter Pater 1839-1894 illuminates the contradictory impulses of modern secularism on the one hand a desire to cast itself as a form of neutrality or disinterestedness on the other a desire to affirm this world as the place of human flourishing or even enchantment The standard narrative of a crisis of faith does not do justice to the fissured uncertain quality of Victorian visions of secularisation Precisely because it had the status of a confusing hypothesis rather than a self-evident reality it provoked not only dread and melancholia but also forms of fantasy Within this context Lyons gives a fundamentally new account of the aims and nature of Victorian aestheticism taking as a focus its deceptively simple claim that art is for art's sake first of all
