Transforming the Prairies Shannon Stunden Bower, 2024-11-01 Transforming the Prairies proposes a new understanding of Canada s Prairie Farm Rehabilitation Administration PFRA complicating common views of the agency as a model of effective government environmental management Between 1935 and 2009 the PFRA promoted agricultural rehabilitation in and beyond the Canadian Prairies with mixed and equivocal results The promotion of strip farming as a soil conservation technique for example left crops susceptible to sawfly infestations The PFRA s involvement in irrigation development in Ghana increased the local population s vulnerability to various illnesses And PFRA infrastructure construction intended to serve the public good failed to account for the interests of affected Indigenous peoples The PFRA is revealed as being a high modernist state agency that produced varied environmental outcomes and that contributed to consolidating colonialism and racism This investigation affirms the importance of engaging historical perspectives to help ensure that contemporary environmental management efforts support more just and sustainable futures

How Agriculture Made Canada Peter A. Russell, 2012-10-01 Nineteenth century farm families needed land for the next generation Their quest shaped agricultural settlement across Canada This overview of rural history in Quebec Ontario and the Prairies provides a new perspective on the ways in which agriculture and the family farm were central to the country s expansion and essential to understanding social political and economic changes How Agriculture Made Canada shows how differences between the agricultural development of Quebec and that of Ontario had a decisive influence on the settlement of the Prairies Peter Russell demonstrates that farming families eventually ran out of land against the edges of the St Lawrence lowlands While Quebec based Habitants reached their region s limits earlier Ontario encouraged people to migrate west Russell argues that the thousands of relocated Ontario farmers changed Manitoba s bilingual openness to an exclusively English speaking province that then assimilated East European arrivals Thus if not for the agricultural crises in the Canadas Manitoba might have been at least as francophone as anglophone The first comprehensive synthesis on the history of Canadian farming in decades How Agriculture Made Canada reveals the lasting impact that nineteenth century agricultural changes have had on the nation

The West and Beyond Sarah Carter, Alvin Finkel, Peter Fortna, 2010 The West and Beyond evaluates and appraises the state of Western Canadian history acknowledging and assessing the contributions of historians of the past and present while showcasing the research interests of a new generation of scholars It charts new directions for the future and stimulates further interrogations of our past This collection encourages dialogue among the generations of historians of the West and among practitioners of diverse approaches to the past It also reflects a broad range of disciplinary and professional boundaries suggesting a number of different ways to understand the west

Toward Defining the Prairies Robert

Wardhaugh,2001-04-30 New ways of thinking about literature and history have radically changed how we think about or even define a region like the Prairie West In fact the very concept of defining has come into question by new theoretical approaches and it may now seem a hopeless endeavour But the process of defining can be just as important as the actual production of a definition Toward Defining the Prairies highlights recent approaches to thinking about the Prairie West Bounded by pieces from well known historian Gerald Friesen and Governor General s Award winning writer Robert Kroetsch these 13 essays are as diverse as the region itself In their examination of different aspects of Prairie history literature climate society culture and identity they help to provide a new understanding of this place and of the complexities of its definition

Lorenzkowski, Kristine Alexander, Andrew Burtch, 2023-06-15 Many believed the twentieth century would be the century of the child an era in which modern societies would value and protect children sheltering them from violence and poverty Yet this hopeful vision was marred by the harsh realities of migration displacement and armed conflict *Small Stories of War* grapples with the meanings and memories of childhood and wartime by asking new questions about lived experience Spanning the First World War to the early twenty first century and featuring chapters about Canada Australia Germany the former Yugoslavia Rwanda and northern Uganda this volume asks how young people encountered and responded to armed conflict How did children youth and their families make sense of war in the violent twentieth century How have they shared their stories and experiences of violence and trauma Analyzing a broad range of sources including family letters oral history and children's artwork contributors offer important insights into the production of historical knowledge with and about young people Engaging with cutting edge debates about emotions temporality space and young people as political actors *Small Stories of War* offers compelling new research and an interpretive toolkit that will benefit scholars from across the social sciences and humanities

Thomas Scott's Body J.M. Bumsted, 2000-11-17 What did happen to the body of Thomas Scott The disposal of the body of Canadian history's most famous political victim is the starting point for historian J M Bumsted's new look at some of the most fascinating events and personalities of Manitoba's Red River Settlement To outsiders 19th century Red River seemed like a remote community precariously poised on the edge of the frontier Small and isolated though it may have been Red River society was also lively well educated multicultural and often contentious By looking at well known figures from a new perspective and by examining some of the more obscure corners of the settlement's history Bumsted challenges many of the widely held assumptions about Red River He looks for instance at the brief unhappy Swiss settlement at Red River examines the controversial reputation of politician John Christian Shultz and delves into the sensational scandal of a prominent clergyman's trial Vividly written *Thomas Scott's Body* pieces together a new and often surprising picture of early Manitoba and its people
