Symbolic Economies Jean-Joseph Goux, 1990 A major participant in the influential Tel Quel group in France Jean Joseph Goux here offers a bold reevaluation of both the Marxist economic model and the Freudian concept of the unconscious Symbolic Economies makes available for the first time in English generous selections from Goux's Freud Marx Economie et symbolique 1973 and Les iconoclastes 1978 Goux brings the theories of historical materialism and of psychoanalysis into play to illuminate and enrich each other and undertakes a compelling integration of the contributions of structuralism and post structuralism Looking closely at the work of such major figures as Lacan Derrida and Nietzsche Goux extends the implications of Marxism and Freudianism to an interdisciplinary semiotics of value and proposes a radical concept of exchange Literary theorists philosophers social scientists cultural historians and feminist critics alike will welcome this important and provocative work

Bernard Shaw's Fiction, Material Psychology, and Affect Stephen Watt, 2018-03-05 This book traces the effects of materiality including money and its opposite poverty on the psychical lives of George Bernard Shaw and his characters While this study focuses on the protagonists of the five novels Shaw wrote in the late 1870s and early 1880s it also explores how materialism feeling and emotion are linked throughout his entire canon At the same time it demonstrates how Shaw's conceptions of human subjectivity parallel those of two of his contemporaries Sigmund Freud and Georg Simmel In particular this book explores how theories of so called marginal economics influence fin de siècle thought about human psychology and the sociology of the modern metropolis particularly London

Speculations After Freud Michael Munchow, Sonu Shamdasani, 2002-01-31 Psychoanalysis has transformed our culture We constantly use and refer to ideas from psychoanalysis often unconsciously Psychology philosophy politics sociology women's studies anthropology literary studies cultural studies and other disciplines have been permeated by the competing schools of psychoanalysis But what of psychoanalysis itself Where is it going one hundred years after Freud's own speculations took shape Does it still have a role to play in cultural debate or should it perhaps be abandoned Speculations After Freud confronts the dilemmas of contemporary psychoanalysis by bringing together some of the most influential and best known

writers on psychoanalysis philosophy and culture The advocates and critics of psychoanalysis both institutional and theoretical critically appraise the powerful role psychoanalytic speculation plays in all areas of culture

On Not Defending Poetry Catherine Bates, 2017 Sidney's Defence of Poesy the foundational text of English poetics is generally taken to present a model of poetry as ideal the poet depicts ideals of human conduct and readers are inspired to imitate them Catherine Bates sets out to challenge this received view Attending very closely to Sidney's text she identifies within it a model of poetry that is markedly at variance from the one presumed and shows Sidney's text to be feeling its way toward a quite different indeed a de idealist poetics Following key theorists of the new economic criticism On Not Defending Poetry shows how idealist poetics like the idealist philosophy on which it draws is complicit with the money form and with the specific ills that attend upon it among them commodification fetishism and the abuse of power Against culturally approved models of poetry as profitable as benefiting the individual and the state as providing in the form of intellectual moral and social capital a quantifiable yield the Defence reveals an unexpected counter argument one in which poetry is modelled rather as pure expenditure a free gift a net loss Where a supposedly idealist Defence sits oddly with Sidney's literary writings which depict human behaviour that is very far from ideal a de idealist Defence does not In its radical reading of the Defence this book thus makes a decisive intervention in the field of early modern studies while raising larger questions about a culture determined to quantify the value of the humanities and to defend the arts on those grounds alone

Death and Mastery Benjamin Y. Fong, 2016-11-08 The first philosophers of the Frankfurt School famously turned to the psychoanalytic theories of Sigmund Freud to supplement their Marxist analyses of ideological subjectification Since the collapse of their proposed marriage of Marx and Freud psychology and social theory have grown apart to the impoverishment of both Returning to this union Benjamin Y Fong reconstructs the psychoanalytic foundation stone of critical theory in an effort to once again think together the possibility of psychic and social transformation Drawing on the work of Hans Loewald and Jacques Lacan Fong complicates the famous antagonism between Eros and the death drive in reference to a third term the woefully undertheorized drive to mastery Rejuvenating Freudian metapsychology through the lens of this pivotal concept he then provides fresh perspective on Theodor Adorno Max Horkheimer and Herbert Marcuse's critiques of psychic life under the influence of modern cultural and technological change The result is a novel vision of critical theory that rearticulates the nature of subjection in late capitalism and renews an old project of resistance

Cosmopolitanism in the Americas Camilla Fojas, 2005 In an analysis based in a sophisticated use of critical theory Fojas Latin American and Latino studies DePaul U Chicago engages a selection of modernist Latin American writers of the early 20th century as examples of cosmopolitanism a notion here interpreted as a worldly modernity The writings of Enrique Gomez Carrillo Aurelia Castillo de Gonzalez who wrote about the Chicago World's Fair Jose Enrique Rodo and the Venezuelan journal Cosmopolis are discussed in the context of other writers in Latin America Europe and the United States and in terms of their expression of

Nancy J. Hirschmann, Kirstie M. McClure, 2010-11-01 This collection considers one of the most important figures of the modern canon of political philosophy John Locke A physician by training and profession Locke not only wrote one of the most important and well known treatises of the modern canon but also made important contributions in the areas of seventeenth century law and public policy epistemology philosophy of language religion and economics There has been a long standing debate in feminist scholarship on Locke as to whether this early founder of modern liberal thought was a strong feminist or whether he ushered in a new and uniquely modern form of sexism The essays grapple with this controversy but also move beyond it to the meaning of gender the status of femininity and masculinity and how these affect Locke s construction of the state and law The volume opens with three of the early classic feminist essays on Locke and follows them with reflective essays by their original authors that engage Locke with issues of globalization and international justice Other essays examine Locke s midwifery notes his treatise on education his writings on Christianity his contributions to poor law policy his economic writings and his Essay Concerning Human Understanding In addition to essays by leading feminist theorists the volume also includes essays by some leading Locke scholars for whom gender is not normally a primary focus so that the volume should speak to a wide range of scholarly interests and concerns Besides the editors the contributors are Teresa Brennan Melissa Butler Terrell Carver Carole Pateman Carol Pech Gordon Schochet Mary Lyndon Shanley Jeremy Waldron Joanne Wright and Linda Zerilli
