Symbols And Sentiments Cross Cultural Studies In Symbolism:

Symbols and Sentiments I. M. Lewis, 1977 **SYMBOLS AND SENTIMENTS: CROSS-CULTURAL STUDIES IN SYMBOLISM- BASED ON PAPERS PRESENTED AT AN INTER-COLLEGIATE SEMINAR.** , **Symbolic Action Theory and Cultural Psychology** Ernest E. Boesch, 2012-12-06 Gustav Jahoda University of Strathclyde Ever since psychology emerged as a separate discipline about a century ago there have been differing views as to what it is or ought to be Some like Ebbinghaus saw it as a budding natural science experimental and quantitative Others like Dilthey regarded psychology in the main as a humane field of study historical and interpretative in character The dichotomy of explaining versus understanding has been a subject of debate ever since Regrettably most of the protagonists of these respective positions tend to view them as mutually exclusive in spite of the fact that already Wundt had stressed that hard experimental and soft Volkpsychologie are both equally important For the major part of the present century the field has been largely dominated by advocates of hard nosed scientific approaches typified first by Behaviorism and latterly cognitive psychology which concentrates on central processes involved in cognition Without in any way wishing to denigrate the undoubted achievements of cognitive psychology it has its limitations that are epitomized by T H Huxley's dictum The great end of life is not knowledge but action This might well serve as the motto for the action theory of Ernest Boesch who is one of several prominent psychologists out of harmony with the prevailing ethos They travel under different banners such as social constructivism ethogenics or hermeneutics but all share reservations about what many feel is the arid scientism of the mainstream Sensual Relations David Howes, 2010-02-22 Offers a full bodied approach to the study of culture in which each sense serves as a potent register of meaning **The Royal Image** Thomas N. Corns, 1999-06-28 This volume deals with the crisis in the representation of the monarchy that was provoked by the execution of Charles I **Ritual Poetry and the Politics of Death in Early Japan** Gary L. Ebersole, 1992-08-17 This examination of death rituals in early Japan finds in the practice of double burial a key to understanding the Taika Era 645-710 A D Drawing on narratives and poems from the earliest Japanese texts the Kojiki the Nihonshoki and the Man'yōshū an anthology of poetry it argues that double burial was the center of a manipulation of myth and ritual for specific ideological and factional purposes This volume has significantly raised the standard of scholarship on early Japanese and Man'yōshū studies Joseph Kitagawa So convincing is the historical and religious thought displayed here it is impossible to imagine how anyone can ever again read these documents in the old way Alan L Miller The Journal of Religion A central resource for historians of early Japan David L Barnhill History of Religions Mary I S. Duncan, 2012-06-04 This book explores the gender politics of the reign of Mary I of England from her coronation to her funeral and examines the ways in which the queen and her supporters used language royal ceremonies and images to bolster her right to rule and define her image as queen On Kings Marshall Sahlins, David Graeber, 2017-12-15 In anthropology as much as in popular imagination kings are figures of fascination and intrigue heroes or tyrants in ways

presidents and prime ministers can never be This collection of essays by two of the world's most distinguished anthropologists David Graeber and Marshall Sahlins explores what kingship actually is historically and anthropologically As they show kings are symbols for more than just sovereignty indeed the study of kingship offers a unique window into fundamental dilemmas concerning the very nature of power meaning and the human condition Reflecting on issues such as temporality alterity and utopia not to mention the divine the strange the numinous and the bestial Graeber and Sahlins explore the role of kings as they have existed around the world from the BaKongo to the Aztec to the Shilluk and beyond Richly delivered with the wit and sharp analysis characteristic of Graeber and Sahlins this book opens up new avenues for the anthropological study of this fascinating and ubiquitous political figure Purity and Auspiciousness in Indian Society John Braisted Carman,Frédérique Apffel Marglin,1985 **Rara!** Elizabeth McAlister,2002-05-01 Rara is a vibrant annual street festival in Haiti when followers of the Afro Creole religion called Vodou march loudly into public space to take an active role in politics Working deftly with highly original ethnographic material Elizabeth McAlister shows how Rara bands harness the power of Vodou spirits and the recently dead to broadcast coded points of view with historical gendered and transnational dimensions
