Symbols Of The Kabbalah Philosophical And Psychological Perspectives:

Symbols of the Kabbalah Sanford L. Drob, 1999-11-01 Symbols of the Kabbalah Philosophical and Psychological Perspectives provides a philosophical and psychological interpretation of the major symbols of the theosophical Kabbalah. It shows that the Kabbalah, particularly as it is expressed in the school of Isaac Luria, provides a coherent and comprehensive account of the cosmos and humanity's role within it that is intellectually, morally, and spiritually significant for contemporary life.

Kabbalah and Postmodernism Sanford L. Drob, 2009 Kabbalah and Postmodernism: A Dialogue challenges certain long-held philosophical and theological beliefs, including the assumptions that the insights of mystical experience are unavailable to human reason and inexpressible in linguistic terms; that the God of traditional theology either does or does not exist; that systematic theology must provide a univocal account of God, man, and the world; that truth is absolute and not continually subject to radical revision; and that the truth of propositions in philosophy and theology excludes the truth of their opposites and contradictions. Readers of Kabbalah and Postmodernism will be exposed to a comprehensive mode of theological thought that incorporates the very doubts that would otherwise lead one to challenge the possibility of theology and religion, and which both preserves the riches of the Jewish tradition and extends beyond Judaism to a non-dogmatic universal philosophy and ethic.

Interreligious Philosophical Dialogues Graham Oppy, N.N. Trakakis, 2017-09-22 Interreligious Philosophical Dialogues, volume 2, provides a unique approach to the philosophy of religion, embracing a range of religious faiths and spiritualities. This volume brings together four leading scholars and philosophers of religion who engage in friendly but rigorous cross-cultural philosophical dialogue. Each participant in the dialogue, as a member of a particular faith tradition, is invited to explore and explain their core religious commitments and how these commitments figure in their lived experience and in their relations to other religions and communities. The religious traditions represented in this volume are Sunni Islam, Mystical Kabbalistic Judaism, Radical incarnational Christianity, and Shinto. This set of volumes uncovers the rich and diverse cognitive and experiential dimensions of religious belief and practice, pushing the field of philosophy of religion in bold new directions.

Jewish Radicalisms Frank Jacob, Sebastian Kunze, 2019-12-16 Jewish radical thoughts and actions can be described in a variety of terms and dimensions. This volume wants to survey Jewish radicalism and present different approaches on this global historical phenomenon. It is focused on the 19th and 20th century and tries to grasp the manifold ideas of Jewish radicalism, and thereby it approaches the term Jewish radicalism from different perspectives and wants to extend the understanding of this phenomenon.

Subjectivity and the Political Gavin Rae, Emma Ingala, 2017-10-12 Despite or quite possibly because of the structuralist, post-structuralist, and deconstructionist critiques of subjectivity, master signifiers, and political foundations, contemporary philosophy has been marked by a resurgence in interest in questions of subjectivity and the political. Guided by the contention that different conceptions of the political are at least implicitly committed to specific conceptions of subjectivity, while different conceptions of subjectivity

have different political implications this collection brings together an international selection of scholars to explore these notions and their connection Rather than privilege one approach or conception of the subjectivity political relationship this volume emphasizes the nature and status of the and in the subjectivity and the political schema By thinking from the place between subjectivity and the political it is able to explore this relationship from a multitude of perspectives directions and thinkers to show the heterogeneity openness and contested nature of it While the contributions deal with different themes or thinkers the themes thinkers are linked historically and or conceptually thereby providing coherence to the volume Thinkers addressed include Arendt Butler Levinas Agamben Derrida Kristeva Adorno Gramsci Mill Hegel and Heidegger while the subjectivity political relation is engaged with through the mediation of the law political ethics politics theological political inside outside subject person and individual institution relationships as well as through concepts such as genius happiness abjection and ugliness The original essays in this volume will be of interest to researchers in philosophy politics political theory critical theory cultural studies history of ideas psychology and sociology

The Influence of Abraham Cohen de Herrera's Kabbalah on Spinoza's Metaphysics Miquel Beltran, 2016-06-21 In this book the author seeks to find historiographical and textual evidence that Abraham Cohen de Herrera's main kabbalistic work *Puerta del Cielo* influenced Spinoza's metaphysics as it is expounded in his later work the *Ethica* Many of the most important ontological topics maintained by the philosopher like the concept of the first cause as substance the procession of the infinite modes the subjective or metaphorical reality of the attributes and the two different understandings of God were anticipated in Herrera's mystical treatise Both shared a particular consideration of panentheism that entails acosmism This influence is proven through a comparative examination of the writings of both authors as well as a detailed research on previous Jewish philosophical thought

Kabbalistic Visions Sanford L. Drob, 2023-04-06 In 1944 C G Jung experienced a series of visions which he later described as the most tremendous things I have ever experienced Central to these visions was the mystic marriage as it appears in the Kabbalistic tradition and Jung's experience of himself as Rabbi Simon ben Jochai the presumed author of the sacred Kabbalistic text the *Zohar* Kabbalistic Visions explores Jung's 1944 Kabbalistic visions the impact of Jewish mysticism on Jungian psychology Jung's archetypal interpretation of Kabbalistic symbolism and his claim late in life that a Hasidic rabbi the Maggid of Mezhibezh anticipated his entire psychology This book places Jung's encounter with the Kabbalah in the context of the earlier visions and meditations of his *Red Book* his abiding interests in Gnosticism and alchemy and what many regard to be his Anti-Semitism and flirtation with National Socialism Kabbalistic Visions is the first full length study of Jung and Jewish mysticism in any language and the first book to present a comprehensive Jungian archetypal interpretation of Kabbalistic symbolism

Centers of Power Joseph H. Berke, Stanley R. Schneider, 2008-01-22 Kabbalah and psychoanalysis are conceptions about the nature of reality The former is over two thousand years old The latter has been formalized less than a hundred years ago Nonetheless they are parallel journeys of discovery that have forever

altered not only what we see but the very nature of seeing itself The domain of Kabbalah is the spiritual and material macrocosm In contrast the concern of psychoanalysis is the microcosm the innermost recesses of the human mind However both are convergent and complementary theories Kabbalah asserts as above so below meaning the Godhead the source of everything is reflected in the smallest details of existence Similarly psychoanalysis traces the evolution from inner objects to family feuds and social fields More than theories however Kabbalah and psychoanalysis test the limits of direct experience They are contemplative meditative and introspective methods for restoring shattered worlds and fragmented lives These are material as well as spiritual entities which have been separated from their source on one hand the Godhead and on the other personal praxis The purpose of this study is to explore how Kabbalah and psychoanalysis converge and diverge complement and conflict with each other in order to amplify their impact and enable mankind to gain a greater understanding of reality
