M. de Waal, 2009-06-30 To observe a dog s guilty look to witness a gorilla s self sacrifice for a wounded mate to watch an elephant herd s communal effort on behalf of a stranded calf to catch animals in certain acts is to wonder what moves them Might there be a code of ethics in the animal kingdom Must an animal be human to be humane In this provocative book a renowned scientist takes on those who have declared ethics uniquely human Making a compelling case for a morality grounded in biology he shows how ethical behavior is as much a matter of evolution as any other trait in humans and animals alike World famous for his brilliant descriptions of Machiavellian power plays among chimpanzees the nastier side of animal life Frans de Waal here contends that animals have a nice side as well Making his case through vivid anecdotes drawn from his work with apes and monkeys and bolstered by the intriguing voluminous data from his and others ongoing research de Waal shows us that many of the building blocks of morality are natural they can be observed in other animals Through his eyes we see how not just primates but all kinds of animals from marine mammals to dogs respond to social rules help each other share food resolve conflict to mutual satisfaction even develop a crude sense of justice and fairness Natural selection may be harsh but it has produced highly successful species that survive through cooperation and mutual assistance De Waal identifies this paradox as the key to an evolutionary account of morality and demonstrates that human morality could never have developed without the foundation of fellow feeling our species shares with other animals As his work makes clear a morality grounded in biology leads to an entirely different conception of what it means to be human and humane *Cognitive Behavioral Therapy in Schools* Linda Raffaele Mendez, 2016-11-10 In recent years many U S schools have implemented tiered models of support to address a range of student needs both academic and behavioral while cognitive behavioral therapy CBT has simultaneously gained popularity as an effective means of supporting the mental health needs of students Cognitive Behavioral Therapy in Schools provides school based practitioners with the necessary skills to determine students mental health needs establish a tiered CBT based system of supports select appropriate programs at Tiers 1 2 and 3 deliver CBT using various formats to students who are at risk or demonstrating problems progress monitor multiple tiers of service and work collaboratively with teachers administrators and families *Mastering the Ultimate Man-Trap* Connie Riker, Are you tired of being undervalued and overlooked by men Do you dream of a life where you wield the ultimate control over the opposite sex If so Mastering the Ultimate Man Trap is the ultimate guide to manipulating financially dominating and discarding men without a hint of remorse Starting with the sagacious understanding of your pain and struggle this book will take you through the step by step process of becoming a true Bitch the kind who inspires fear in the hearts of men You ll
