Taken Inside The Alienhuman Abduction Agenda:

Taken: Inside the Alien-Human Abduction Agenda Dr. Karla Turner, 2013-09-14 After several years of being out of print and becoming a bit of a collectors item TAKEN the startling accounts of alien abduction as documented by the late Karla Turner has been refreshed and reissued faithfully with the sole input and authorization from husband Elton Turner With a new foreword written by the legendary Nick Pope who with 21 years of experience at the British Government s Ministry of Defence and an incredible history of research and broadcasting puts it best that Taken is a real researcher s book This is the ultimate investigation of the paranormal links between humans and other worldly beings **Extraordinary Encounters**

Jerome Clark, 2000-12-15 Here is the first A Z encyclopedia to explore the convictions held by many in the modern day world that extraterrestrials angels fairy folk and other dimensional intelligences regularly interact with human beings

Extraordinary Encounters An Encyclopedia of Extraterrestrials and Otherworldly Beings is the first ever illustrated A Z encyclopedia to explore these fascinating modern day beliefs personalities beings and events Among the beings you ll meet in its pages are Abraham a collection of highly evolved entities that speak in one voice Metranon the divine interface between God and the Outer Worlds and sometime Old Testament angel and The Planetary Council whose members include Jove Merlin Quetzalcoatl and Lao Tzu *The Allies of Humanity Book One* Marshall Vian Summers, 2013-09-28

The Allies of Humanity is being presented to prepare people for a whole new reality that is largely hidden and unrecognized in the world today It provides a new perspective that empowers people to face the greatest challenge and opportunity that we as a race have ever encountered The Allies Briefings contain a number of critical if not alarming statements about the growing extraterrestrial intervention and integration into the human race and about the extraterrestrial activities and hidden agenda The purpose of the Allies Briefings is not to provide hard evidence about the reality of the ET visitation to our world which is already well documented in many other fine books and research journals on the subject The purpose of the Allies Briefings is to address the dramatic and far reaching implications of this phenomenon to challenge our human tendencies and

assumptions regarding it and to alert the human family to the great threshold we now face The Briefings provide a glimpse into the reality of intelligent life in the universe and what Contact will really mean For many readers what is revealed in *The Allies of Humanity* will be entirely new For others it will be a confirmation of things they have long felt and known *UFOs and Popular Culture* James R. Lewis, 2000-12-01

From religious beliefs and legends to movies and TV shows from advertising and celebrities to Internet sites and photo ops this illustrated A Z encyclopedia makes it easy to locate each topic and the opportunities for further research assure its timeliness Is the human race the result of a breeding experiment carried out by ancient astronauts Are satanists extraterrestrials or both mutilating cattle Whimsical and fascinating UFOs and Popular Culture explores a rich facet of Americana and its impact on contemporary society The UFO phenomenon is put into folkloric and psychological perspective revealing much about our collective psyche From religious beliefs and legends to movies and

TV shows from advertising and celebrities to Internet sites and photo ops this illustrated A Z encyclopedia is your first stop resource for understanding UFO beliefs and their impact on contemporary America Topics explored include Music and UFOs Naked Aliens Reincarnation Roswell Brad Steiger Heaven s Gate War of the Worlds and UFO Conventions **Out of Time** Steve Aspin,2023-08-24 In Out of Time The Intergenerational Abduction Program Explored author Steve Aspin has written a crossover work about the enduring worldwide reports of alien abduction The book is intended for both those familiar with the historic published case material and the curious reader unfamiliar with the decades of serious academic research on this superficially improbable phenomenon The author details his lifelong personal experience and the relationships he built with leading researchers during 15 years of investigating this phenomenon He has at all times attempted to approach the subject with critical thoroughness and intellectual rigour From stumbling on a cattle mutilation in Ireland in 1970 to witnessing a UFO after a period of missing time at age 16 in 1972 to a confrontational experience in a Sardinia hotel in 2006 the author relates a lifetime of anomalous experiences But this is only the starting point of the journey the reader of Out of Time will make Steve then details several years of investigation into the subject and how what he has learned has shaped his thoughts on what is happening to perhaps millions of people worldwide He had the good fortune to meet with several leading researchers in the field including Budd Hopkins and Dr David Jacobs and read hundreds of published works on the subject of UFOs and abductions He has attempted to bring hard forensic evidence to the discussion and to follow that evidence where it may lead paying particular attention to the clearly intergenerational aspect of the global abduction program which he demonstrates with corroborating evidence almost certainly dates from the 1890s His conclusions will be of interest to anyone attentive to this field of study Whether inevitably proved right or wrong they stem from a conscious effort to bring objectivity and honesty to the analysis of this widely reported phenomenon Although successfully normalised in popular culture to become background noise or a minor comic footnote in otherwise busy lives this subject has real and serious implications for both the individual experiencer and human society collectively **The Concept of the Foreign** Rebecca

Saunders,2003-01-01 The Concept of the Foreign investigates the diverse and consequential uses of the concept of the foreign a formidable and hitherto untheorized force in everyday discourse and practice This highly original work whose experimental nature moves beyond traditional academic bounds undertakes to theorize the meanings deployments and consequences of foreignness a term largely overlooked by academic debates Innovative in format the book comprises an introductory theoretical dialogue and seven essays each authored by a scholar from a different discipline anthropology literary theory psychology philosophy social work history and women s studies who investigate how his her disciplines engage and define the concept of the foreign Drawing out literal and metaphorical meanings of foreignness this wide ranging volume offers much to scholars of postcolonial gender and cultural studies seeking new approaches to the study of alterity

Bloodline of the Gods Nick Redfern,2025-09-12 Are significant numbers of humanity the product of an ancient and

advanced alien civilization Have we across the millennia been periodically modified and refined as a species In short has our genetic make up been manipulated by otherworldly beings that view human civilization as one big lab experiment These are controversial and thought provoking questions They are also questions that demand answers answers that may very well be found by examining those people whose blood type is Rh negative The vast majority of humankind 85 to 90 percent is Rh positive which means a person s red blood cells contain an antigen directly connected to the Rhesus monkey This antigen is known as the Rh factor Each and every primate on the planet has this antigen except for one the remaining 10 to 15 percent of humans If the theory of evolution is valid that each and every one of us is descended from ancient primates shouldn t we all be Rh positive Yes we should But we re not The Negatives are unlike the rest of us They are different They are the unique individuals whose bloodline may have nothing less than extraterrestrial origins **ET-Human Link** Dana

Redfield,2001-06-01 In her relentless quest for the truth alien abductee Dana Redfield breaks new ground in The ET Human Link a book that probes new depths of personal experience as well as forbidden knowledge and history From Atlantis to biblical and American Native legends to other world memories Redfield shows a picture of alien abduction like no other She explores the formidable terrain of human origins DNA consciousness reincarnation and theories about evolution of the soul daring to propose a profound purpose behind the UFO presence Presenting her theories with the verve wit and often lyrical tone of her writing Redfield draws us into the metaphorical channel between life and right hemispheres between mind links and metafractals connections between metaphors events and experiences to share her vision of the golden children we are becoming From the author of Summoned Encounters with Alien Intelligence Redfield s in depth knowledge of the alien abduction phenomenon blended with personal experience startling insight and characteristic humor Opens the door to new theories about the purpose and duration of extraterrestrial intervention A compelling work on a topic that may redefine humankind s perception of ourselves our history and the universe we live in [A UFO Hunter's Guide](#) Bret
