Taking Religious Pluralism Seriously:

Taking Religious Pluralism Seriously Barbara A. McGraw, Jo Renee Formicola, 2005 The clash between the religious right and the secular left undermines any serious debate about the role of religion in American public life Such strident cultural rhetoric often ignores the positive contributions of America's many religions By contrast this volume celebrates America's religious diversity demonstrating that religious pluralism is actually one of democracy's basic building blocks Taking Religious Pluralism Seriously expands on Barbara A McGraw's framework for understanding religious participation in public life a two tiered public forum consisting of the civic public forum and the conscientious public forum The chapters explore how diverse religious communities and traditions including newer and marginalized religions can make a meaningful contribution to American society and politics

Rediscovering America's Sacred Ground Barbara A. McGraw, 2012-02-01 Returning to the ideas of John Locke and the Founders themselves Barbara A McGraw examines the debate about the role of religion in American public life and unravels the confounded rhetoric on all sides She reveals that no group has been standing on proper ground and that all sides have misused terminology religion secular dichotomies public private and concepts separation of church and state in ways that have little relevance to the original intentions of the Founders She rediscovers a theology underlying the founding documents of the nation that is neither anyone's particular religion nor one requiring religion Instead it justifies freedom of conscience for all and provides a two tiered public forum a civic public forum and a conscientious public forum for the debate itself and the actions that debate inspires America's Sacred Ground this theology and its public forum determines the meaning of freedom and the ways in which Americans can pursue the good good government good communities good families good relations between individuals and good individuals from a plurality of perspectives By exploring our past McGraw answers the critical question Who are we as a people and what do we stand for

including knowing God through religious pluralism An exploration of God and church including racial stigma and the southern Baptist public discourse in the twentieth century and the appropriateness of baptizing artificial intelligence A discussion of God and the world including where humanity has come from and where we re going and the challenges posed by biological evolution to Christian theology A treatment of God and ethics including sin and the faces of responsibility Perfect for students of postgraduate theology and research methods courses The Craft of Innovative Theology Argument and Process will also earn a place in the libraries of students in courses that prepare them to write a Masters thesis in theology or to begin shaping their PhD dissertation topic **Beyond Religious Right and Secular Left Rhetoric** K. Seamon,2012-11-09 Seamon explores the historical theological and societal dynamics of religious intermarriage as a way to introduce scholars to the myriad of factors that have contributed and will continue to contribute to the complete transformation of religion and Christianity in the twenty first century *Hospitality and the Other* Author, Amos Yong,2015-03-04 **Interreligious Studies** Rachel Mikva,2023-06-15 The emergence of the field of interreligious studies is emerging as a response to critical issues within our religiously plural world Religious conflicts large and small continue to plague our society as the challenges of navigating religious difference emerge in daily encounters among people who would like to get along in the public square that they fashion together These challenges unfold within families congregations college campuses workplaces communities media and cyberspace This volume offers a comprehensive introduction to interreligious studies Providing an overview of the history terms and characteristics of the field Rachel Mikva explores the ethical philosophical and theological foundations for pluralism She also presents guidelines and case studies that demonstrate how interreligious understanding and solidarity can be achieved Designed for use in undergraduate and graduate courses the volume also will be useful to medical doctors social workers police officers corporate managers and others whose work requires multi cultural competence **The Cambridge Companion to American Islam** Juliane Hammer,Omid Safi,2013-08-12 The Cambridge Companion to American Islam offers a scholarly overview of the state of research on American Muslims and American Islam The book presents the reader with a comprehensive discussion of the debates challenges and opportunities that American Muslims have faced through centuries of American history This volume also covers the creative ways in which American Muslims have responded to the myriad serious challenges that they have faced and continue to face in constructing a religious praxis and complex identities that are grounded in both a universal tradition and the particularities of their local contexts The book introduces the reader to some of the many facets of the lives of American Muslims that can only be understood in their interactions with Islam s entanglement in the American experiment **Landscapes of the Secular** Nicolas Howe,2016-09-05 What does it mean to

see the American landscape in a secular way asks Nicolas Howe at the outset of this innovative ambitious and wide ranging book It s a surprising question because of what it implies we usually aren t seeing American landscapes through a non religious lens but rather as inflected by complicated little examined concepts of the sacred Fusing geography legal scholarship and religion in a potent analysis Howe shows how seemingly routine questions about how to look at a sunrise or a plateau or how to assess what a mountain is both physically and ideologically lead to complex arguments about the nature of religious experience and its implications for our lives as citizens In American society nominally secular but committed to permitting a diversity of religious beliefs and expressions such questions become all the more fraught and can lead to difficult often unsatisfying compromises regarding how to interpret and inhabit our public lands and spaces A serious commitment to secularism Howe shows forces us to confront the profound challenges of true religious diversity in ways that often will have their ultimate expression in our built environment This provocative exploration of some of the fundamental aspects of American life will help us see the land law and society anew

and the United States David Rayside, 2011-04-01 For decades agitation by lesbians gays and other sexual minorities for political recognition has provoked a heated response among religious activists in both Canada and the United States In this remarkable comparative study expert authors explore the tenacity of anti gay sentiment as well as the dramatic shifts in public attitudes towards queer groups across all faith communities in both the United States and Canada They conclude that despite the ongoing conflict religious adherence does not invariably entail opposition to the political acknowledgment of queer rights **Religion in International Relations** F. Petito, P. Hatzopoulos, 2003-06-13

Are the secular foundations of international relations sustainable at present This comprehensive study shows how the global resurgence of religion confronts international relations theory with a theoretical challenge comparable to that raised by the end of the Cold War or the emergence of globalization The volume tries to shake the secular foundational myths of the discipline and outline the need for an expansion into religiously inspired spheres of thought It also challenges the most condemning accusation against religion the view that the politicization of religion is always a threat to security and inimical to the resolution of conflict Finally the task of demystifying religion is taken further with an argument for a stronger and progressive political engagement of the worldwide religious traditions in the contemporary globalized era
