## **Talents And Technicians:**

Talents and Technicians John W. Aldridge, 1992 In *Talents and Technicians* Literary Chic and the New Assembly Line Fiction John Aldridge offers an irreverent antidote to the pieties of the tastemakers an incisive provocative and always compelling study of American writing in our time Focusing on the current crop of young writers many of whose reputations were made in a whirl of 1980s media hype he determines who will likely survive the test of future critical scrutiny and what they have to say about our world The expansion of graduate writing programs and their impact on the style and sensibilities of those they train are grist for Aldridge s mill nor does he hide his feelings about the practices of reviewers and the critical establishment in general Taking a hard look at the art of writing he wonders at careers made and missed through adherence to fashion However fashion and hype are not all In an assessment of the literary scene of the past thirty years Aldridge takes heart in the contributions of such masters as Thomas Pynchon Don DeLillo William Gaddis and Norman Mailer whose distinctive voices continue to challenge and reinvent the culture It is within this context that Aldridge evaluates the new generation of writers while examining the legacy of Raymond Carver and the influence of Ann Beattie Never afraid to diverge from popular opinion he guides us through works of Frederick and Donald Barthelme Amy Hempel Bobbie Ann Mason Mary Robison Louise Erdrich Lorrie Moore David Leavitt and T Coraghessan Boyle and takes an unsparing look at the novels of Jay McInerney and Bret Easton Ellis Witty and refreshingly frank Aldridge entertains as he reveals the talents who will be the bright lights of thenineties
