Berkenkotter,2022-10-10 A look into communicating psychiatric patient histories from the asylum years to the clinics of today In this engrossing study of tales of mental illness Carol Berkenkotter examines the evolving role of case history narratives in the growth of psychiatry as a medical profession Patient Tales follows the development of psychiatric case histories from their origins at Edinburgh Medical School and the Royal Edinburgh Infirmary in the mid eighteenth century to the medical records of contemporary American mental health clinics Spanning two centuries and several disciplines Berkenkotter s investigation illustrates how discursive changes in this genre mirrored evolving assumptions and epistemological commitments among those who cared for the mentally ill During the asylum era case histories were a means by which practitioners organized and disseminated local knowledge through professional societies affiliations and journals The way in which these histories were recorded was subsequently codified giving rise to a genre In her thorough reading of Sigmund Freud s Fragment of an Analysis of a Case of Hysteria Berkenkotter shows how this account of Freud s famous patient Dora led to technical innovation in the genre through the incorporation of literary devices In the volume s final section Berkenkotter carries the discussion forward to the present in her examination of the turn from psychoanalysis to a research based and medically oriented classification system now utilized by the American Psychiatric Association Throughout her work Berkenkotter stresses the value of reading case histories as an interdisciplinary bridge between the humanities and sciences

[Lacan and the Limits of Language](#) Charles Shepherdson, 2009-08-25. Stages refreshing encounters between Lacanian psychoanalysis and its others: Kristeva, Heidegger, Derrida, or Foucault, to name just a few thinkers. Ewa Ziarek, author of *An Ethics of Dissensus*. This book weaves together three themes at the intersection of Jacques Lacan and the philosophical tradition. The first is the question of time and memory. How do these problems call for a

revision of Lacan's purported ahistoricism and how does the temporality of the subject in Lacan intersect with the questions of temporality initiated by Heidegger and then developed by contemporary French philosophy. The second question concerns the status of the body in Lacanian theory especially in connection with emotion and affect which Lacanian theory is commonly thought to ignore but which the concept of *jouissance* was developed to address. Finally it aims to explore beyond the strict limits of Lacanian theory possible points of intersection between psychoanalysis and other domains including questions of race biology and evolutionary theory. The book also engages literary texts. Antigone, Ovid's *Metamorphoses*, Hamlet and even Wordsworth become the muses who oblige psychoanalysis and philosophy to listen once again to the provocations of poetry which always disrupts our familiar notions of time and memory of history and bodily or affective experience and of subjectivity itself. Shepherdson shows with admirable clarity cogency and competence that psychoanalysis founds an anthropology of love hate desire beauty fantasy and memory while keeping its cutting edge in today's discussions of war race sexual difference and tragedy. Thanks to him thinking with Lacan becomes an act of enlightenment. Jean Michel Rabat, author of *Lacan in America*. *The Romantic Fairy Tale* Marianne Thalmann, 1964 **SCI-FI Boxed Set: 150+.** H. G. Wells, Jules Verne, Edgar Allan Poe, Edwin A. Abbott, Jack London, Mary Shelley, Jane Austen, Robert Louis Stevenson, George MacDonald, Mark Twain, 2024-02-24.
