The Making of the Abrahamic Religions in Late Antiquity Guy G. Stroumsa, 2015 This book presents how ancient Christianity must be understood from the viewpoint of the history of religions in late antiquity The continuation of biblical prophecy runs like a thread from Jesus through Mani to Muhammad And yet this thread arguably the single most important characteristic of the Abrahamic movement often remains outside the mainstream hidden as it were since it generates heresy The figures of the Gnostic the holy man and the mystic are all sequels of the Israelite prophet They reflect a mode of religiosity that is characterized by high intensity It is centripetal and activist by nature and emphasizes sectarianism and polemics esoteric knowledge or gnosis and charisma The other mode of religiosity obviously much more common than the first one is centrifugal and irenic It favors an ecumenical attitude contents itself with a widely shared faith or pistis and reflects in Weberian parlance the routinization of the new religious movement This is the mode of priests and bishops rather than that of martyrs and holy men These two main modes of religion high versus low intensity exist simultaneously and cross the boundaries of religious communities They offer a tool permitting us to follow the transformations of religion in late antiquity in general and in ancient Christianity in particular without becoming prisoners of the traditional categories of patristic literature Through the dialectical relationship between these two modes of religiosity one can follow the complex transformations of ancient Christianity in its broad religious context

Late Antique Jewish and Christian Travelogues Reuven Kiperwasser, Aryeh Kofsky, Serge Ruzer, 2024-12-16 Focusing on travel narratives as a setting for spelling out both cultural exchanges and identity building the present volume maps a variety of strategies employed in travelogues by Christians and Jews in the late antique Roman East The first part sheds light on the shared cultural background folkloric or mythic reflected in late antique Jewish and Christian sea travel stories and the various attempts to adapt it to a specific religious agenda While the comparative analysis of the sources from two textual communities emphasizes their different religious agendas it also allows for restoring patterns of the broader background with which they converse The second part highlights Christian perceptions of the Land of Israel in missionary enterprises and in the eschatological visions The travelogues offer a window on the interplay between shared inheritance and new agendas within the dialectical development of religious traditions in Late Antiquity

Rabbinic Texts and the History of Late-Roman Palestine Martin Goodman, Philip Alexander, 2011-01-13 This volume explains to ancient historians the value of the surviving rabbinic material from late antiquity as evidence for the history of late Roman Palestine the nature of that material and the problems inherent in its use for historical purposes The book will be invaluable for all scholars concerned with the history of the later Roman Empire

The Sense of Sight in Rabbinic Culture Rachel Neis, 2013-08-29 This book explores the power of sight for ancient rabbis across the realms of divinity sexuality idolatry and rabbinic subjectivity

Jewish War under Trajan and Hadrian , Jewish War under Trajan and Hadrian William

Horbury,2014-09-18 Two major Jewish risings against Rome took place in the years following the destruction of Jerusalem the first during Trajan s Parthian war and the second led by Bar Kokhba under Hadrian s principate The impact of these risings not only on Judaea but also on Cyrene Egypt Cyprus and Mesopotamia is shown by accounts in both ancient Jewish and non Jewish literature More recently discovered sources include letters and documents from fighters and refugees and inscriptions attesting war and restoration Historical evaluation has veered between regret for a pointless bloodbath and admiration for sustained resistance William Horbury offers a new history of these risings presenting a fresh review of sources and interpretations He explores the period of Jewish war under Trajan and Hadrian not just as the end of an era but also as a time of continuity in Jewish life and development in Jewish and Christian origins **The Talmud's Red Fence** Shai Secunda,2020 The Talmud s Red Fence explores how rituals and beliefs concerning menstruation in the Babylonian Talmud and neighboring Sasanian religious texts were animated by difference and differentiation It argues that the practice and development of menstrual rituals in Babylonian Judaism was a product of the religious terrain of the Sasanian Empire where groups like Syriac Christians Mandaeans Zoroastrians and Jews defined themselves in part based on how they approached menstrual impurity It demonstrates that menstruation was highly charged in Babylonian Judaism and Sasanian Zoroastrian where menstrual discharge was conceived of as highly productive female seed yet at the same time as stemming from either primordial sin Eve eating from the tree or evil Ahrimen s kiss It argues that competition between rabbis and Zoroastrians concerning menstrual purity put pressure on the Talmudic system for instance in the unusual development of an expert diagnostic system of discharges It shows how Babylonian rabbis seriously considered removing women from the home during the menstrual period as Mandaeans and Zoroastrians did yet in the end deemed this possibility too heretical Finally it examines three cases of Babylonian Jewish women initiating menstrual practices that carved out autonomous female space One of these the extension of menstrual impurity beyond the biblically mandated seven days is paralleled in both Zoroastrian Middle Persian and Mandaic texts Ultimately Talmudic menstrual purity is shown to be driven by difference in its binary structure of pure and impure in gendered terms on a social axis between Jews and Sasanian non Jewish communities and textually in the way the Palestinian and Babylonian Talmuds took shape in late antiquity *A Companion to Folklore* Regina F. Bendix,Galit Hasan-Rokem,2014-08-25 A Companion to Folklore contains an original and comprehensive set of essays from international experts in the field of folklore studies This state of the art collection uniquely displays the vitality of folklore research across the globe The Companion covers four main areas the first section engages with the practices and theoretical approaches developed to understand the phenomena of folklore the second discusses the distinctive shapes that folklore studies have taken in different locations in time and space the third examines the interaction of folklore with various media as well as folklore s commoditization In the final section on practice essays offer insights into how folklorists work what they do and ways in which they have institutionalized their field Throughout contributors investigate the interplay of folklore and

folkloristics in both academic and political arenas they evaluate key issues in the folk life of communities from around the world including China post communist Russia post colonial India South America Israel and Japan The result is a unique reflection and understanding of the profoundly different research histories and current perspectives on international research in the field

Rumor Mills Veronique Campion-Vincent,2017-07-05 The goal of this volume is to explore the social and political dynamics of rumor and the related concept of urban or contemporary legend These forms of communication often appear in tandem with social problems including riots racial or political violence and social and economic upheavals The volume emphasizes the connection of rumor to a set of social concerns from government corruption and corporate scandal to racial religious and other prejudices Central to the dialogue are issues of truth belief history public policy and evidence Rumor has been recognized as one of the most important contributing factors to violence and discrimination Yet despite its significance in exacerbating social discord and mistrust little systematic scholarly attention has been paid to the political origins and consequences of rumor Rumor is defined as a proposition for belief that is not backed by secure standards of evidence Rumor can be traditional or not and can be expressed as a simple claim of fact In both instances groups of claim makers operating out of their own interests and with a set of resources attempt to depict reality and if possible impact the future The need for this book is underscored by changing patterns of technology What in the past was grounded in face to face interaction is now often found on the Internet which is a major source of rumor An appreciation of how new electronic forms of communication affect communal belief is essential for explicating rumor dynamics The volume is comprehensive Essays cover race and ethnicity migration and globalization corporate malfeasance and state and government corruption While editors and contributors well appreciate the dynamic nature of rumors and legends the high quality of the effort make it evident that the issues that are raised and reoccur will serve to channel and inspire research in this major field of communications research for years to come
