habitat Journey to the Louisiana wetlands and watch as all the animals of the bayou experience one of nature s most dramatic and awe inspiring events a hurricane The animals prepare swimming for safer seas finding cover in dens and nestling their young close to protect them During the height of the storm even the trees react cracking and moaning in the wind At last the The Storm Ivor van Heerden, Mike hurricane yawns and rests and animals come out to explore their world anew Bryan, 2006-05-18 The ultimate inside story of the Katrina tragedy from the cofounder of the LSU Hurricane Center After warning for years about the looming threat of catastrophic flooding in New Orleans Ivor van Heerden was one of the highest profile media experts during the Katrina disaster Over the following eighteen months he was even more prominent as he challenged the official version of those events and campaigned for an engineering plan that would protect all of southeastern Louisiana once and for all In The Storm van Heerden lays out in full detail the stunning incompetence among the bureaucrats the politicians and the Army Corps of Engineers that culminated in the catastrophe that crippled perhaps forever a great American city Hurricane Story Jennifer Shaw, 2007 The Hurricane Charles Bernard Nordhoff, 2022-08-10 In The Hurricane Charles Bernard Nordhoff transports readers to a tiny South Pacific atoll in the waning years of the 19th century Fusing rich historical detail with a narrative of dramatic intensity Nordhoff crafts a tale that is as much a vivid tapestry of colonial and native life as it is a riveting account of environmental catastrophe His prose is meticulously detailed capturing the cultural and physical landscapes with an evocative power that immerses the reader into the world before the disaster Amidst the broader literary context of adventure and colonial literature Nordhoff's novel stands out for its fine balance of character development and fast paced storytelling imbued with thematic explorations of man's vulnerability to nature s indomitable forces Charles Bernard Nordhoff perhaps drawing from his own maritime experiences and deep seated sense of adventure delves into the fraught relationship between humanity and the natural world The Hurricane epitomizes his literary craft showcasing his ability to depict human resilience in the face of overwhelming odds. The themes and setting may well be informed by his background in the Navy and his deep familiarity with the Pacific regions acting as an authentic canvas for his narrative The Hurricane by Charles Bernard Nordhoff is highly recommended to those who appreciate historical fiction with an edge of suspense and naturalism The novel s exquisite detail combined with the relentless unfolding of the hurricane s might makes for an enthralling read that not only captures the imagination but also ignites a contemplative examination of the human spirit Perfect for readers who seek a meticulous yet intensely gripping encounter with past worlds colliding with untameable natural forces
