## **Taliban War Religion And The New Order In Afghanistan:**

The Taliban Peter Marsden, 1998-09-15 An account of the modern history of Afghanistan and the complex mosaic of mujahidin movements and factions which opposed the Soviet military intervention This book presents the unique and complicated character of an Islamic revivalist movement like the Taliban asking how the international community can and should deal with the conflict between Western thinking and the Taliban's interpretation of Islamic values Copyright Libri GmbH All rights reserved The Taliban Peter Marsden, 1999 *The Taliban* Peter Marsden, 2002 In the wake of the September 11 terrorist attacks on the World Trade Center in 2001 US allegations that Osama bin Laden's network was responsible and the subsequent military attacks on Afghanistan the Taliban have become the focal point of the West's difficult relations with the Islamic world This work aims to provide an understanding of what has been happening inside the country the nature of radical Islamic movements and the very difficult questions which war cannot answer The book has been fully revised in the aftermath of the September 11th attacks including a new chapter on Osama Bin Laden **The A to Z of Afghan Wars, Revolutions and Insurgencies** Ludwig W. Adamec, 2010-04-07 Since its foundation in 1747 Afghanistan has seen seemingly limitless wars waged by the central government to consolidate its control over the country as well as rampant tribal warfare There have been three Anglo Afghan Wars 1839-42 1878-79 and 1919 a Russian backed Marxist government in Kabul battled a coalition of tribal armies which was soon followed by the Taliban takeover Now in the midst of a war against terrorism the United States is backing another central government in yet another sporadic struggle All the information currently available on the endless chain of wars stretching over two and a half centuries is traced in The A to Z of Afghan Wars Revolutions and Insurgencies It consists of the American involvement in Afghanistan since October 2001 as well as individual campaigns including tactics and logistics of skirmishes the weapons used and biographical entries on the significant leaders involved in the battles Extensive analysis of regional and ideological divisions within the country and the external forces that have brought around conflict in this remote mountainous region in addition to a chronology of the encounters an extensive bibliography and numerous maps and illustrations make this crucial volume indispensable

*Organizations at War in Afghanistan and Beyond* Abdulkader H. Sinno, 2011-03-15 After we had exchanged the requisite formalities over tea in his camp on the southern edge of Kabul's outer defense perimeter the Afghan field commander told me that two of his bravest mujahideen were martyred because he did not have a pickup truck to take them to a Peshawar hospital They had succumbed to their battle wounds He asked me to tell his party's bureaucrats across the border that he needed such a vehicle desperately I double checked with my interpreter that he was indeed making this request I wasn't puzzled because the request appeared unreasonable but because he was asking me a twenty year old employee of a humanitarian organization to intercede on his behalf with his own organization's bureaucracy I understood on this dry summer day in Khurd Kabul that not all militant and political organizations are alike from Organizations at War in

Afghanistan and Beyond While popular accounts of warfare particularly of nontraditional conflicts such as guerrilla wars and insurgencies favor the roles of leaders or ideology social scientific analyses of these wars focus on aggregate categories such as ethnic groups religious affiliations socioeconomic classes or civilizations Challenging these constructions Abdulkader H Sinno closely examines the fortunes of the various factions in Afghanistan including the mujahideen and the Taliban that have been fighting each other and foreign armies since the 1979 Soviet invasion Focusing on the organization of the combatants Sinno offers a new understanding of the course and outcome of such conflicts Employing a wide range of sources including his own fieldwork in Afghanistan and statistical data on conflicts across the region Sinno contends that in Afghanistan the groups that have outperformed and outlasted their opponents have done so because of their successful organization Each organization's ability to mobilize effectively execute strategy coordinate efforts manage disunity and process information depends on how well its structure matches its ability to keep its rivals at bay Centralized organizations Sinno finds are generally more effective than noncentralized ones but noncentralized ones are more resilient absent a safe haven Sinno's organizational theory explains otherwise puzzling behavior found in group conflicts the longevity of unpopular regimes the demise of popular movements and efforts of those who share a common cause to undermine their ideological or ethnic kin The author argues that the organizational theory applies not only to Afghanistan where he doubts the effectiveness of American state building efforts but also to other ethnic revolutionary independence and secessionist conflicts in North Africa the Middle East and beyond

*Freedom on the Frontlines* Lina AbiRafeh, 2022-02-21 Afghan women were at the forefront of global agendas in late 2001 fueled by a mix of media coverage humanitarian intervention and military operations Calls for liberating Afghan women were widespread Women's roles in Afghanistan have long been politically divisive marked by struggles between modernization and tradition Women politics and the state have always been intertwined in Afghanistan and conflicts have been fueled by attempts to challenge or change women's status It may appear that we have come full

circle twenty years later in late 2021 when Afghanistan fell to the Taliban once more Women's rights in Afghanistan have been stripped away and any gains however tenuous now appear lost Today the country navigates both a humanitarian and a human rights crisis This book measures the rhetoric of liberation and the physical and ideological occupations of Afghanistan over the twenty year period from 2001 through 2021 through the voices perspectives and experiences of those who are implicated in this reality Afghan women      **Repression, Resistance, and Women in Afghanistan** Hafizullah

Emadi,2002-08-30 Afghan women have faced an exhaustive struggle in the battle to change their status and improve their situation Emadi takes a long look at the role of development and modernization policies implemented by the state in the pre and post Soviet eras under the Taliban and beyond He finds that such policies have failed to bring about much needed change and improvement for women Modernization strategies benefited only a small segment of urban women and left the plight of rural women unchanged Although a small segment of middle and upper class women organized themselves and fought to bring about changes in their status and to end gender inequality their efforts alone did not meet with much success Islamic orthodoxy and orthopraxy in the Taliban era restricted women's freedom of movement access to education and medical care Using personal accounts not readily available to researchers or scholars Emadi explores the diverse factors that contributed to women's oppression both at home and in society This study provides a detailed analysis of state policies toward women's emancipation within the context of a traditional Islamic society It chronicles the course of the women's movement and women's organizations still active in the political arena and puts forth an alternative plan to involve women in the reconstruction process in both urban and rural areas      *Routledge Companion to Military Conflict since 1945* John

*Burning Books and Leveling Libraries* Rebecca Knuth, 2006-05-30 Whether the product of passion or of a cool headed decision to use ideas to rationalize excess the decimation of the world's libraries occurred throughout the 20th century and there is no end in sight Cultural destruction is therefore of increasing concern In her previous book *Libricide* Rebecca Knuth focused on book destruction by authoritarian regimes Nazis Serbs in Bosnia Iraqis in Kuwait Maoists during the Cultural Revolution in China and the Chinese Communists in Tibet But authoritarian governments are not the only perpetrators Extremists of all stripes through terrorism war ethnic cleansing genocide and other forms of mass violence are also responsible for widespread cultural destruction as she demonstrates in this new book *Burning Books and Leveling Libraries* is structured in three parts Part I is devoted to struggles by extremists over voice and power at the local level where destruction of books and libraries is employed as a tactic of political or ethnic protest Part II discusses the aftermath of power struggles in Germany Afghanistan and Cambodia where the winners were utopians who purged libraries in efforts to purify their societies and maintain power Part III examines the fate of libraries when there is war and a resulting power vacuum The book concludes with a discussion of the events in Iraq in 2003 and the responsibility of American war strategists for the widespread pillaging that ensued after the toppling of Saddam Hussein This case poignantly demonstrates the ease with which an oppressed people given the collapse of civil restraints may claim freedom as license for anarchy construing it as the right to prevail while ignoring its implicit mandate of social responsibility Using military might to enforce ideals in this case democracy and freedom is futile Knuth argues if insufficient consideration is given to humanitarian security and cultural concerns

divisions render the global jihadi movement simultaneously vulnerable and more resilient This book will be of much interest to students of jihadism terrorism and political violence Islamism security studies and IR in general
