Globally Speaking Judith Rosenhouse,Rotem Kowner,2008-05-22 This volume accounts for the motives for contemporary lexical borrowing from English using a comparative approach and a broad cross cultural perspective It investigates the processes involved in the penetration of English vocabulary into new environments and the extent of their integration into twelve languages representing several language families including Icelandic Dutch French Russian Hungarian Hebrew Arabic Amharic Persian Japanese Taiwan Chinese and several languages spoken in southern India Some of these languages are studied here in the context of borrowing for the first time ever All in all this volume suggests that the English lexical invasion as it is often referred to is a natural and inevitable process It is driven by psycholinguistic sociolinguistic and socio historical factors of which the primary determinants of variability are associated with ethnic and linguistic diversity

Four Words for Friend Marek Kohn, 2019-04-09 A compelling argument about the importance of using more than one language in today's world In a world that has English as its global language and rapidly advancing translation technology it's easy to assume that the need to use more than one language will diminish but Marek Kohn argues that plural language use is more important than ever In a divided world it helps us to understand ourselves and others better to live together better and to make the most of our various cultures Kohn whom the Guardian has called one of the best science writers we have brings together perspectives from psychology evolutionary thought politics literature and everyday experience He explores how people acquire languages how they lose them how they can regain them how different languages may affect people's perceptions their senses of self and their relationships with each other and how to resolve the fundamental contradiction of languages that they exist as much to prevent communication as to make it happen

Cantonese as Written Language Don Snow, 2004-10-01 Cantonese is the only dialect of Chinese which has developed a widely known and used written form It has played a role in publishing in the Guangdong region since the late Ming dynasty when various types of verses using Cantonese were published as mu yu shu wooden fish books In the early twentieth century these dialect texts were joined by Cantonese opera scripts published as popular reading material However it was only after the end of the Second World War that written Cantonese came to be widely used in popular newspapers and magazines advertising and in the private communications Cantonese as Written Language examines this development in the broader context of diglossia and also of the patterns by which spoken vernaculars have developed written forms in other societies Based on primary source research including interviews with publishers and writers who played an important role in the growth of written Cantonese the author argues that this move of Cantonese into the realm of written language is closely associated with Hong Kong's distinct local culture and identity The growth of the written vernacular also reflects the territory's evolving cultural distinctiveness from mainland China first as a British colony and now as a Special Administrative Region of China

George Yeo On Bonsai, Banyan And The Tao Asad-ul Iqbal Latif, Huay Leng Lee, 2015-05-18 Since his undergraduate days in Cambridge George Yeo has spoken and written much in and out of government Many remember the things which he said or wrote years ago This book is a compilation of some of his best speeches and writings which were

selected by Asad Latif and Lee Huay Leng in consultation with him The book has a rather unusual title because there are many aspects to George Yeo which makes him difficult to classify As a student leader he was radical but conciliatory In the Singapore Armed Forces he was atypical moving from the Army to the Air Force before becoming Director of Joint Operations and Planning In politics he is fondly remembered by artists journalists doctors businessmen and foreign diplomats and by his colleagues and constituents His own staff said he had a curious mind They complained that he rarely used the drafts which they had prepared for him George Yeo describes himself as a Taoist even though he is a Roman Catholic and is now on the Papal staff Buddhists are surprised he championed the revival of Nalanda University as an international project He remains close to Singaporeans of different races and religions even though he has a deep sense of his own ancestral roots and religion In politics he has been described both as a liberal and a conservative In his Parliamentary maiden speech he spoke of the importance of democracy but has repeated many times that democracy is only a means and not an end in itself He has a deep interest in history which partly explains his seeing the re emergence of China and India earlier than most others The bonsai and the banyan are metaphors he uses for Singapore Singapore is a city state and must never have an inflated view of itself The bonsai describes Singapore modestly but he adds that the bonsai can be intensely interesting and valuable The banyan provides shade and we are grateful for it but too much makes us weak As for the Tao that perhaps is what gives unity to his many interests

Western counterparts *Rogue Flows* is unique in its investigation of how Asianness is being exploited by Asian transnational cultural industries and how it is involved in the new power relations of the region. It is an important contribution to the literature of Asian cultural studies.

Reading the Malay World Rick Hosking, 2010 This collection of essays is the culmination of a symposium on the representation of Malays and Malay culture in Singaporean and Malaysian literature in English held in Universiti Putra Malaysia UPM. The symposium with the theme *Reading the Malay World through Singaporean and Malaysian Texts in English* brought together experts from the fields of literature, language and linguistics to spotlight the ways in which Malays and Malay culture are captured in the literary imagination of Singaporean and Malaysian writers writing in English. The symposium highlighted how Malays and Malay culture are imagined and promoted through literature and also explored Malayness from linguistic and cultural perspectives. Issues of concern addressed here include the construction of the Malays in Singaporean and Malaysian literature in English within orientalist or colonialist discourses of the East, the influence of English on the ways that Malays and Malay culture are represented, how Malay identity is defined and the positioning of the Malays in literary imaginations and social realities.

Chinese Entertainment Kwok-Bun Chan, 2014-06-11 Scholarly studies of Chinese culture, history and society both within and outside of China generally pay little attention to leisure, entertainment and amusement, though it has long been known that this aspect of life gives a deep understanding of the psyche and soul and the hopes and fears of a person. Leisure is a less coerced-upon mandatory human conduct than work; certainly, leisurely conduct is more voluntary, expressive and creative. But when seen as human behaviour, leisure and entertainment cannot be separated from history, heritage, ethnicity, the community, family and kin, rituals and customs, thus a collective activity and its constraints on the person. This book examines a variety of genres of Chinese entertainment, from singing clubs, Cantonese opera and film to Chinese rock and tourism. Though formally voluntary, Chinese entertainment when entangled with ethnicity, heritage and history is ironically a site of both enjoyment and struggle, both pleasure and suffering. This book was originally published as a special issue of *Visual Anthropology*.
