Sino-Vatican Relations Beatrice Leung, 1992-03-26 How can the contemporary claims of communism and national culture be reconciled with a universal religion How can the government of the People's Republic of China with its claim to absolute sovereignty exist alongside the spiritual authority of the Roman Catholic church This conflict between two centres of authority has been at the core of recent relations between the Catholic church and China In this first book length study of the subject Dr Beatrice Leung analyses the interactions between China and the Holy See from 1976 to 1986 Dr Leung examines the historic relationship between the Catholic church and China both prior to 1949 and from 1949 to 1976 She then analyses the major problems between these two institutions as they tried to establish a dialogue for future reconciliation These include the need for the Vatican to transfer its recognition of China from Taipei to Beijing the role of the Pope with his spiritual leadership of Chinese Catholics and the handling of the Chinese

Catholic Patriotic Association The book concludes with suggestions for a basis for church state rapprochement Throughout her work Dr Leung uses Chinese language sources both on the Catholic and Communist sides These are supplemented by a wide range of interviews which the author has conducted in the Vatican in Hong Kong and with members of the official and unofficial Catholic churches inside China itself *Catholicism in China, 1900-Present* C. Chu, 2014-11-18 This volume is the product of scholars of various backgrounds specialties and agendas bringing forth their most treasured findings regarding the Chinese Catholic Church The chapters in this book covering the church from 1900 to the present trace the development of the Church in China from many historical and disciplinary vantage points *Challenges and Policy Programmes of China's New Leadership* Joseph Y. Clark, 2020-07-13 This book features a collection of essays on China's modern Catholic Church by a scholar of China West intellectual and religious exchange The essays and reflections were mostly written in China while the author was traveling by train or staying in villages or large cities near to Roman Catholic cathedrals or other important historical sites during research trips to the country It is clear that Clark's understanding of Catholicism in China evolved from the first entry to the final ones in 2019 The essays included in this compendium were written in disparate contexts and in response to different events As such there is no obvious theme or order to the content However despite this the book

provides valuable insights for readers wishing to gain a better understanding of the complex topography of Catholic history in China the contours of which have undergone stark transformations with each dynastic political and ecclesial transition The information presented serves to highlight and explain the lives of Catholic people and the events that have punctuated one of the most significant dimensions of China's long history of friendship conflict and exchange with the West

Chinese Catholic Church in Conflict Beatrice Leung, William Thomas Liu, 2004 This is

a sociological and historical analysis of the conflict between the state and the Catholic Church in China between 1949 and 2001 during half of a century of the socialist regime The relationship began with conflict followed by accomodation and finally a cooperative spirit had developed for a complex web of political and diplomatic reasons Never in the past the Catholic Church has shown a rigorous growth under the encouragement of the Communist Party to shape the Church in the image of a indigenous and local church and to minimize the influence of the Vatican There remains a persistent struggle between the underground church those who remain loyal to early missionaries and to the Holy See and the official national church controlled by the Party State The authors argue that there is hope that the conflict will eventually disappear as the new leadership in Beijing may one day restore a diplomatic relationship with the Vatican China Joseph Y.S.

CHENG,2012-05-01 This volume presents a timely assessment of the Hu Wen Administration at the juncture of preparing a change of China s leadership in 2012 13 The assessment is important because the administration s apparent success tends to create a path dependent orientation on the part of its successor Bringing together a collection of nineteen major essays this book offers a fresh perspective of evaluating the performance and achievements of China in the Hu Wen era in terms of economic development the establishment of a rudimentary social security system and her rising international status The new opportunities and challenges facing China and how will the likely successors Xi Jinping and Li Keqiang handle those opportunities and challenges as well as new policy programmes will also be discussed in greater detail Each essay is written by experts and scholars from different academic disciplines and backgrounds to provide readers with a unique overview of their respective areas of expertise *Annual Report* United States. The Religious Question in Modern China Vincent Goossaert,David A. Palmer,2011-03-15 Recent events from strife in Tibet and the rapid growth of Christianity in China to the spectacular expansion of Chinese Buddhist organizations around the globe vividly demonstrate that one cannot understand the modern Chinese world without attending closely to the question of religion The Religious Question in Modern China highlights parallels and contrasts between historical events political regimes and cultural movements to explore how religion has challenged and responded to secular Chinese modernity from 1898 to the present Vincent Goossaert and David A Palmer piece together the puzzle of religion in China not by looking separately at different religions in different contexts but by writing a unified story of how religion has shaped and in turn been shaped by modern Chinese society From Chinese medicine and the martial arts to communal temple cults and revivalist redemptive societies the authors demonstrate that from the nineteenth century onward as the Chinese state shifted the religious landscape consistently resurfaced in a bewildering variety of old and new forms The Religious Question in Modern China integrates historical anthropological and sociological perspectives in a comprehensive overview of China s religious history that is certain to become an indispensable reference for specialists and students alike **China** Human Rights Watch/Asia,Mickey Spiegel,1997 Suppression of cults **People, Communities, and the Catholic Church in**

Mariani, 2020-01-02 This book explores the Chinese Catholic Church as a whole as well as focusing on particular aspects of its activities including diplomacy politics leadership pilgrimage youths and non Chinese Catholics in China It discusses Sino Vatican relations and the rationale behind the decisions taken by Pope Francis with regard to the appointment of bishops in China The book also examines important changes and personalities in the Chinese Church the Catholic organizations and the Catholic communities in the Church offering a key read for researchers and graduate students studying the Chinese Catholic Church the Church in Asia and religion in contemporary China

The Catholic Church and the Nation-State Paul Christopher Manuel, Lawrence C. Reardon, Clyde Wilcox, 2006-08-16 Presenting case studies from sixteen countries on five continents The Catholic Church and the Nation State paints a rich portrait of a complex and paradoxical institution whose political role has varied historically and geographically In this integrated and synthetic collection of essays outstanding scholars from the United States and abroad examine religious diplomatic and political actions both admirable and regrettable that shape our world Kenneth R Himes sets the context of the book by brilliantly describing the political influence of the church in the post Vatican II era There are many recent instances the contributors assert where the Church has acted as both a moral authority and a self interested institution in the United States it maintained unpopular moral positions on issues such as contraception and sexuality yet at the same time it sought to cover up its own abuses it was complicit in genocide in Rwanda but played an important role in ending the horrific civil war in Angola and it has alternately embraced and suppressed nationalism by acting as the voice of resistance against communism in Poland whereas in Chile it once supported opposition to Pinochet but now aligns with rightist parties With an in depth exploration of the five primary challenges facing the Church theology and politics secularization the transition from serving as a nationalist voice of opposition questions of justice and accommodation to sometimes hostile civil authorities this book will be of interest to scholars and students in religion and politics as well as Catholic Church clergy and laity By demonstrating how national churches vary considerably in the emphasis of their teachings and in the scope and nature of their political involvement the analyses presented in this volume engender a deeper understanding of the role of the Roman Catholic Church in the world

Europe and China Roland Vogt, 2012-03-01 This edited volume analyzes the changing nature of the relationship between China and Europe This relationship has been subject to significant shifts and transformations not least because of the enormity of China's social and economic development since 1978 and the political consequences this has brought about in international politics The global financial crisis of 2008-09 and the subsequent sovereign debt emergency in Europe have also altered the nature of the interactions between the two regions China has become a more assertive confident and active player on the global stage Its economic development is now a major pillar of the global economy and its growth has been conducive for a fragile economic recovery to take place in Europe and beyond

Hong Kong SAR Beatrice Leung, 1997 There are already many books on the challenges facing the Hong Kong Special

Administrative Region SAR but this volume has a distinct contribution to make by offering an analysis of the evolving political order in Hong Kong and its international role The team of authors comes from tertiary institutions within and outside Hong Kong and they all have been studying the territory for many years The authors focus on the plans of the Chinese authorities and the expectations of Hong Kong people The gap between the two and the associated difficulties are then analysed The authors also examine the possibilities of crises emerging as well as the contingency plans formulated to deal with them
