The Art of Freedom Havin Guneser, 2021-07-13 The Revolution in Rojava captured the imagination of the Left sparking a worldwide interest in the Kurdish Freedom Movement The Art of Freedom demonstrates that this explosive movement is firmly rooted in several decades of organized struggle In 2018 one of the most important spokespersons for the struggle of Kurdish Freedom Havin Guneser held three groundbreaking seminars on the historical background and guiding ideology of the movement Much to the chagrin of career academics the theoretical foundation of the Kurdish Freedom Movement is far too fluid and dynamic to be neatly stuffed into an ivory tower filing cabinet A vital introduction to the Kurdish struggle The Art of Freedom is the first English language book to deliver a distillation of the ideas and sensibilities that gave rise to the

most important political event of the twenty first century The book is broken into three sections Critique and Self Critique The rise of the Kurdish freedom movement from the rubbles of two world wars provides an accessible explanation of the origins and theoretical foundation of the movement The Rebellion of the Oldest Colony Jineology the Science of Women describes the undercurrents and nuance of the Kurdish women s movement and how they have managed to create the most vibrant and successful feminist movement in the Middle East Democratic Confederalism and Democratic Nation Defense of Society Against Societycide deals with the attacks on the fabric of society and new concepts beyond national liberation to counter it Centering on notions of a shared homeland and a nation made up of nations these rousing ideas find deep international resonance Havin Guneser has provided an expansive definition of freedom and democracy and a road map to help usher in a new era of struggle against capitalism imperialism and the State

[Learn French News Vol.5](#) Nik Marcel, 2014-08-18

LEARN FRENCH NEWS Vol 5 English French THIS EDITION

The dual language text has been arranged into sentences and shorter paragraphs for quick and easy cross referencing. The source text is the French language edition of Voice of America (VOA). The French text has been translated into English for this dual language project. The reader can choose between four formats: Section 1 English to French, Section 2 French to English, Section 3 English, and Section 4 French. A methodology for getting the most out of this bilingual format is explained in the book's Foreword. The primary purpose of this text is to equip a foreign language learner with the ability to start reading news in the particular foreign language, to be able to read only in the foreign language and extract enough understanding to continue the language learning process fruitfully this way. A reader might like to go back to reading dual language news for reinforcement and further development, returning to foreign language only news with a deeper understanding. By going back to the same old news, you are going over words, word patterns and passages with which you already have a certain familiarity. The process of reinforcement learning or retaining of what is new and exposure to what is unfamiliar is much easier this way, even though the news may seem a little dated. The aim of informing the reader about actual news is secondary, especially given that the content will become less current and less relevant over time. If you are having trouble with the level of difficulty in the text, a suggested path for learning languages is as follows: Familiarise yourself with a basic language instruction book or re-read the one you have. Once a student has studied the basics, a suitable book about basic grammar can be helpful. The suggestion is that any grammar book be studied more with the intent of recognition and understanding rather than memorising and obsessive rote learning. Go through as much of the grammar book you feel

you can digest maybe even the whole book skipping over what is not easily understood After this read through a portion of text in a book called French Sentences by 2LanguageBooks looking for examples of what you have picked up or gleaned in your hopefully not so arduous study of grammar Even repeatedly seeing a word that you remember seeing listed as a subject pronoun or a third person plural verb of some sort is a great help Then depending on your inclination return to the grammar book or your basic French book or move on to lengthier bilingual text like in 2Language Books texts containing news or stories for example or find some suitable French text a simple novel a French news website etc Grammar books will likely have some verb charts However there are currently good on line resources that go further dictionaries with a verb conjugation search option Many basic language books offer some form of audio support Internet services primarily news based radio stations offer podcasts Audio from television is an additional resource and can be formatted for use on various digital platforms However if audio is an important component of your interest in languages electronic devices that support quality text to speech TTS will likely be appealing With a library card TTS technology in a device that supports the relevant content and the above mentioned resources an entire language learning system is available for not much more than a cup of coffee There is no substantial financial outlay to get you started Furthermore there are no additional ongoing fees and updates and there are no expiry dates on premium content and resources A Dual Language Book Project 2Language Books
