**The Making of Our Urban Landscape** Geoffrey Tyack, 2022-03-02 Britain was the first country in the world to become an essentially urban country And England is still one of the most urbanized countries in the world The town and the city is the world that most of us inhabit and know best But what do we actually know about our urban world and how it was created The Making of the English Urban Landscape tells the story of our towns and cities and how they came into being over the last two millennia from Roman and Anglo Saxon times through the Norman Conquest and the later Middle Ages to the great rebuilding in the sixteenth and seventeenth centuries the polite townscapes of the eighteenth and the commercial and industrial towns and cities of the nineteenth and early twentieth century The final chapter then takes the story from the end of the Second World War to the present from the New Towns of the immediate post war era to the trendy converted warehouses of Shoreditch This is a book that will make the world you live in come alive If you are a town or a city dweller you are unlikely ever to look at the everyday world around you in quite the same way again
