government has created new race problems in our schools and universities We don't want Biden's sweeping Title IX proposal that would bring in gender identity and sexual orientation in schools just as financier George Soros aimed for biological males to compete in girls sports and use bathrooms and locker rooms that correspond with their gender identity We need to reorganize the departments involved in educating our children and the educational foundations in schools and colleges at all levels President Biden's open border policy brought in several million strangers of unknown value and utility for us taxpayers to support Family structure the country was proud of since inception was destroyed Starting new proxy wars with weak woke military and financing them on taxpayer dime at the same time not caring for citizen safety from crime and drug proliferation became undesirable to many citizens Worst of all these playing Mother Nature on climate and proxy wars with huge amounts of our money has not been rewarding Certainly we don't want four more years of Biden's taxing and spending that would increase the federal debt for our children immensely Having lost people support Biden withdrew his nomination and Harris was chosen to oppose former president Trump We prayed that America become safe soon after the 2024 election with a Trump victory People want to be prideful in this country again People want a cheerleader for this nation not the one without redeeming value we now have sleeping most of the time on the beach And we don't have much hope if flip flop giggling Vice president Harris with no change in value gets elected with Joy To our surprise former President Trump painted USA Republican red defeating Harris badly by midnight on election night

Main,2010-06 Eminent domain entered the awareness of many Americans with the recent U S Supreme Court case Kelo v New London Across the political spectrum people were outraged when the Court majority said that a local government may transfer property from one private party to another under the public use clause of the Constitution for the sake of economic development Carla T Main who in the past as a lawyer has represented the condemning authorities in eminent domain cases examines how property rights in America have come to be so weak tracing the history of eminent domain from the Revolutionary War to the Kelo case But the heart of *Bulldozed* is a story of how eminent domain has affected an American family and the small town community where they have lived and worked for decades In the 1940s Pappy and Isabel Gore established a shrimp processing plant in Freeport Texas Three generations of Gores built Western Seafood into a thriving business that stood up to fierce competition and market flux But Freeport was struggling and city officials decided that a private yacht marina on the Old Brazos River might save it They would use eminent domain to take the Gores waterfront property and hand it over to the developer an heir of a legendary Texas oil family in a risky sweetheart deal For three years the Gores resisted the taking with every ounce of strength they had Around them the fabric of the community unraveled as friends and neighbors took sides *Bulldozed* vividly recounts the Gores fight with city hall and at the same time ponders larger questions of what property rights mean today and who among us is entitled to hold on to the American Dream
