Dobbs, 1990 After studying dolphins for many years Dr Horace

Dobbs came to the conclusion that these highly intelligent mammals were using their brains in a way that could benefit human beings To test his theory he decided to step outside the confines of his scientific training and film an experiment for television That film *The Dolphin's Touch* records how he invited three people suffering from different forms of stress and depression to swim with a wild dolphin off the Irish coast In the case of the middle aged man the encounter had a dramatic effect while the outlook of two younger participants improved significantly For Dr Dobbs they served to confirm other similar transformations and persuaded him that it might be possible through video film and audio tapes of dolphin song to bring the healing power of dolphins to anyone unable to experience it at first hand The result leaves he argues little room for doubt that dolphins can generate a sense of well being in people In this book the author conveys not only the joy to be experienced when cavorting in the sea with a wild dolphin he also provides clues to the mental dexterity and perception of one of the smallest of the whale family *Books Out Loud* ,2004 Official Gazette of the United States Patent and Trademark Office ,2005 Capturing the Aura 'Integrating Science, Technology, and Metaphysics C.
