Chinatown Unbound , Kay Anderson,Ien Ang,Andrea Del Bono,Donald McNeill,, Alexandra Wong,2019-01-25 Chinatowns are familiar places in almost all major cities in the world In popular Western wisdom the restaurants pagodas and red lanterns are intrinsically equated with a self contained immigrant Chinese district an alien enclave of the East in the West By the 1980s when these Western societies had largely given up their racially discriminatory immigration policies and opened up to Asian immigration the dominant conception of Chinatown was no longer that of an abject ethnic ghetto rather Chinatown was now seen as a positive

expression of multicultural heritage and difference By the early 21st century however these spatial and cultural constructions of Chinatown as an other space whether negative or positive have been thoroughly destabilised by the impacts of accelerating globalisation and transnational migration This book provides a timely and much needed paradigm shift in this regard through an in depth case study of Sydney s Chinatown It speaks to the growing multilateral connections that link Australia and Asia and especially China together not just economically but also socially and culturally as a consequence of increasing transnational flows of people money ideas and things Further the book elicits a particular sense of a place in Sydney s Chinatown that of an interconnected world in which Western and Asian realms inhabit each other and in which the orientalist legacy is being reconfigured in new deployments and more complex delimitations As such Chinatown Unbound engages with and contributes to making sense of the epochal shift in the global balance of power towards Asia especially China Annual Report of the Various City Officers ... Minneapolis (Minn.). City Officers,1903 **How to Build a Global**

City Michele Acuto,2022-01-15 In How to Build a Global City Michele Acuto considers the rise of a new generation of so called global cities Singapore Sydney and Dubai and the power that this concept had in their ascent in order to analyze the general relationship between global city theory and its urban public policy practice The global city is often invoked in theory and practice as an ideal model of development and a logic of internationalization for cities the world over But the global city also creates deep social polarization and challenges how much local planning can achieve in a world economy Presenting a unique elite ethnography in Singapore Sydney and Dubai Acuto discusses the global urban discourses aspirations and strategies vital to the planning and management of such metropolitan growth The global city he shows is not one single idea but a complex of ways to imagine a place to be global and aspirations to make it so often deeply steeped in politics His resulting book is a call to reconcile proponents and critics of the global city toward a more explicit engagement with the politics of this global urban imagination **City Lights** Charles J. Maland,2019-07-25 In 1967 Charlie Chaplin told I think I like City Lights the best of all my films Based on archival research of Chaplin s production records this work offers a history of the film s production and reception as well as an examination of the film itself with special attention to the sources of the final scene s emotional power **Exploring the Archaeology of the Modern City in Nineteenth-century Australia** Tim Murray,Penny Crook,2019-11-05 This book presents research into the urban archaeology of 19th century Australia It focuses on the detailed archaeology of 20 cesspits in The Rocks area of Sydney and the Commonwealth Block site in Melbourne It also includes discussions of a significant site in Sydney First Government House The book is anchored around a detailed comparison of contents of 20 cesspits created during the 19th century and examines patterns of similarity and dissimilarity presenting analyses that work towards an integration of historical and archaeological data and perspectives The book also outlines a transnational framework of comparison that assists in the larger context related to building a truly global archaeology of the modern city This framework is directly related a multi scalar approach to urban archaeology Historical

archaeologists have been advocating the need to explore the archaeology of the modern city using several different scales or frames of reference The most popular and most basic of these has been the household However it has also been acknowledged that interpreting the archaeology of households beyond the notion that every household and associated archaeological assemblage is unique requires archaeologists and historians to compare and contrast and to establish patterns These comparisons frequently occur at the level of the area or district in the same city where archaeologists seek to derive patterns that might be explained as being the result of status class ethnicity or ideology Other less frequent comparisons occur at larger scales for example between cities or countries acknowledging that the archaeology of the modern western city is also the archaeology of modern global forces of production consumption trade immigration and ideology formation This book makes a contribution to that general literature *Interrogating Popular Music and the City* Shane Homan,Catherine Strong,Seamus O'Hanlon,John Tebbutt,2024-06-03 How does popular music influence the culture and reputation of a city and what does a city do to popular music Interrogating Popular Music and the City examines the ways in which urban environments and music cultures intersect in various locales around the globe Music and cities have been partners in an often clumsy sometimes accidental but always exciting dance Heritage and immigration noise and art policy and politics are some of the topics that are addressed in this critical examination of relationships between cities and music The book draws upon an international array of researchers encompassing hip hop in Beijing the city favelas of Brazil from Melbourne bars to European parliaments to heritage and tourism debates in Salzburg and Manchester In doing so it interrogates the different agendas of audiences musicians and policy makers in distinct urban settings **Annual Reports of the Various City Officers of the City of Minneapolis, Minnesota** Minneapolis (Minn.),1899
