*Bodzia* ,2014-11-27 Bodzia is one of the most fascinating archaeological discoveries of the post war period in Poland It is one of the few cemeteries in Poland from the time of the origins of the Polish state The unique character of this discovery is mainly due to the fact that a small elite population was buried there The burials there included people whose origins were connected with the Slavic Nomadic Khazarian and Scandinavian milieus For the first time the evidence from this area is given prominence This book is designed mainly for readers outside Poland The reader is offered a collection of chapters combining analyses and syntheses of the source material and a discussion of its etno cultural and political significance The authors formulate new hypotheses and ideas which put the discoveries in a broader European context Contributors are Wiesław Bogdanowicz Mateusz Bogucki Andrzej Buko Magdalena M Bu Maria Dek wna Alicja Drozd Lipi ska W adysław Duczko Karin Margarita Frei Tomasz Goslar Tomasz Grzybowski Zdzisław Hensel Iwona Hildebrandt Radke Michał Kara Joanna Koszka Anna B Kowalska Tomasz Kozowski Marek Kr piec Roman Michałowski Michael M ller Wille T Douglas Price Tomasz Purowski Tomasz Sawicki Iwona Sobkowiak Tabaka Stanisław Suchodolski and Kinga Zamelska Monczak      Spink

AD 500-1250* Barrie Cook, Gareth Williams, 2006-01-01 This is a themed volume of 28 papers written in honour of Marion Archibald It considers the role of coinage in northern Europe from the fall of the Western Roman Empire to the early thirteenth century Although the focus of the volume is the coinage itself the majority of the papers consider coinage in its historical and or archaeological context A recurrent theme of the volume is the movement of coinage across the English Channel and the North Sea and beyond Particular areas of focus include the importation and use of money in early Anglo Saxon England movement hoarding and secondary treatment of coinage during the Viking Age and monetary contacts between England and her neighbours under the Normans and Angevins The papers in this book provide an important range of perspectives in current numismatic research and will provide a valuable resource for scholars in a variety of disciplines with interests in the economy and society in northern Europe c 500 1250      Coinage And History in the North Sea World, C. AD 500-1250 Barrie J. Cook, Gareth Williams, Marion Archibald, 2006 This themed volume contains 28

papers by leading authorities on numismatics and monetary history It covers a variety of topics concerning the design use and circulation of coinage in northern Europe in the late fifth to early thirteenth centuries **Debasement** Kevin Butcher, 2020-04-30 The debasement of coinage particularly of silver was a common feature of pre modern monetary systems Most coinages were issued by state authorities and the condition of a coinage is often seen rightly or wrongly as an indicator of the broader fiscal health of the state that produced it While in some cases the motives behind the debasements or reductions in standards are clear in many cases the intentions of the issuing authorities are uncertain Various explanations have been advanced fiscal motives such as a desire to profit or a to cover a deficit caused by the failure to balance expenditure and revenues monetary motives such as changing demand for coined money or a desire to maintain monetary stability in the face of changing values of raw materials or labour costs pressure from groups within society that would profit from debasement misconduct at the mint or the decline of existing monetary standards due to circulation and wear of the coinage in circulation Certain explanations have tended to gain favour with monetary historians of specific periods partly reflecting the compartmentalization of scholarship Thus the study of Roman debasements emphasizes fiscal deficits whereas medievalists are often more prepared to consider monetary factors as contributing to debasements To some extent these different approaches are a reflection of discrepancies in the amount of documentary evidence available for the respective periods but the divide also underlines fundamentally different approaches to the function of coinage Romanists have preferred to see coins as a medium for state payments whereas medievalists have often emphasized exchange as an important function of currency The volume is inter disciplinary in scope Apart from bringing together monetary historians of different periods it also contains contributions from archaeometallurgists who have experience with the chemical and physical composition of coins and technical aspects of production of base alloys **The Numismatist** ,1992 Vols 24 52 include the Proceedings of the American Numismatic Association Convention 1911 39 **The Kyrenia Ship Final Excavation Report, Volume I** Susan Womer Katzev, Helena Wylde Swiny, 2022-12-01 The Kyrenia Ship a Greek merchantman built around 315 BC which sank off the north coast of Cyprus was excavated between 1968 and 1972 under the direction of Michael L Katzev of the University of Pennsylvania and Oberlin College The importance of this ship lies in the exceptionally well preserved hull that provided new insights into ancient shipbuilding as well as the cargo it carried The hold was stacked with transport amphoras of various types made on Rhodes with a few examples from Samos Kos Knidos and Cyprus supplemented by a consignment of millstones iron billets and almonds The cabin pottery from Rhodes also suggests this was the vessel s home port a conclusion supported by most of the scientific ceramic analyses Its trade route included Rhodes Cyprus and the Levant with perhaps Egypt as a final destination This volume provides a detailed history of the excavation followed by definitive studies of the amphora cargo and the pottery associated with shipboard life Some of the amphora stamps suggest that the ship sank between 294 and 291 BC dates corroborated by the cabin wares The repetition of

four drinking cups kantharoi oil containers gutti wine measures olpai as well as bowls and saucers suggests that the ship was sailed by a crew of four Seven bronze coins were recovered five minted in the name of Alexander the Great and one well known type of Ptolemy I produced only on Cyprus      **British Archaeological Abstracts** ,1984      *Aethelbald and Offa*  
David Hill,Margaret Worthington,2005 In these sixteen papers from a conference held by the Manchester Centre for Anglo Saxon Studies in 2000 some well known names approach the reigns of Aethelbald and Offa from a range of perspectives
