Call Me Boss Michael Weber,1988-02-15 The death of David Leo Lawrence in 1966 ended a fifty year career of major influence in American politics In a front page obituary the New York Times noted that Lawrence the longtime mayor of Pittsburgh governor of Pennsylvania and power in Democratic national politics disliked being called Boss But the Times noted he was one anyway Certainly Lawrence was a consummate politician Born in a poor working class neighborhood in the present day Golden Triangle of Pittsburgh he was from boyhood an astute student of politics and a devoted Democrat Paying minute attention to every detail at the ward and precinct level he revived the moribund Democratic party of Pittsburgh and fashioned a machine that upset the long entrenched Republican organization in 1932 When Davy Lawrence as he was affectionately known won the gubernatorial election in 1958 he became the first Roman Catholic governor of Pennsylvania and the oldest But he achieved his greatest public recognition as mayor of Pittsburgh Taking office in 1945 at the close of World War II this stalwart Democrat formed an alliance with the predominantly Republican business community to bring about the much acclaimed Pittsburgh Renaissance transforming the downtown business district and persuading many large corporations to retain their national headquarters in Pittsburgh In 1958 the editors of Fortune magazine name Pittsburgh as one of the eight best administered cities in America Don't Call Me Boss examines the lengthy career of this remarkable politician Using over one hundred interviews as well as extensive archival material Michael Weber demonstrates how Lawrence was able to balance his intense political drive and devotion to the Democratic party with the larger needs of his city and state Although his administration was not free of controversy as indicated by the city's police and free work scandals Lawrence showed that it was possible to make the transition from nineteenth century political boss to modern municipal manager He was one of the few politicians of the century to do so When the undisputed bosses of other American cities the Curleys Pendergasts and Hagues were out of power and disgraced Lawrence was elected governor of Pennsylvania More than twenty years after his death David L Lawrence and his success in rebuilding the city of Pittsburgh continue to serve as an example of effective urban leadership      American Iron, 1607-1900 Robert B. Gordon,2020-03-24 Winner of the Professional and Scholarly Publishing Award for General Engineering from the Association of American Publishers Originally published in 1996 By applying their abundant natural resources to ironmaking early in the eighteenth century Americans soon made themselves felt in world markets After the Revolution ironmakers supplied the materials necessary to the building of American industry pushing the fuel efficiency and productivity of their furnaces far ahead of their European rivals In American Iron 1607 1900 Robert B Gordon draws on recent archaeological findings as well as archival research to present an

ambitious comprehensive survey of iron technology in America from the colonial period to the industry's demise at about the turn of the twentieth century. Closely examining the techniques and the hows of ironmaking in its various forms, Gordon offers new interpretations of labor innovation and product quality in ironmaking along with references to the industry's environmental consequences. He establishes the high level of skills required to ensure efficient and safe operation of furnaces and to improve the quality of iron product. By mastering founding, fining, puddling, or bloom smelting, ironworkers gained a degree of control over their lives not easily attained by others. *Valley Forge*, Alden Walker Quimby, 1906. Learn the entire fascinating story of the American Hot Rod Association (AHRA) in this wonderfully illustrated color history. When the National Hot Rod Association (NHRA) was formed in 1951 by Wally Parks, the reasoning for the formation was to create order from chaos by instituting safety rules and performance standards that helped legitimize the sport of drag racing. Some organization was certainly necessary. A postwar boom in automotive enthusiasm was reaching new heights, and Hot Rod magazine and the NHRA were right in the thick of it. The NHRA hosted its first drag racing event in 1953, and in 1955 the organization staged its first national event which was simply called The Nationals. The AHRA formed in 1956 as an alternative to the NHRA where the drivers voted on the rules rather than sanctioning bodies and tracks, and their influence on the sport was felt almost immediately. When the NHRA denied the use of nitromethane in 1957, the AHRA approved it. When the NHRA banned aircraft-powered dragsters in 1961, the AHRA welcomed them. When the NHRA said no to the emerging Funny Car in 1965, the AHRA said yes. When fans and racers screamed for a heads-up Super Stock category in 1968, the AHRA delivered. The AHRA was called a rebel association. Some say that it was more of an association that got things done to the delight of fans and racers. The AHRA was on equal ground with the NHRA by the 1970s, drawing enormous crowds and racer entries. In this fascinating history, veteran author Doug Boyce tells the story of the AHRA: the rise, the competition, the events, and the eventual downfall of the organization. After AHRA President Jim Tice passed away in 1982, internal fighting for control of the association resulted in its doom. Get the whole story here and add this wonderful volume to your drag racing library.
