Mysteries of the Sea Marianne Morrison,2006 Gives a brief history of how divers have gone beneath the sea and explored what lies there *Scientific*

Women Jill S Tietjen, 2020-07-30 The book highlights women's contributions to science which have often been marginalized and overlooked throughout history. The book first provides an overview of the development of the various science professions over time placed in socioeconomic and cultural contexts and women's role in the sciences throughout history. The author then exemplifies through history example and case studies that although women were denied a scientific education until fairly recently in our history they have nevertheless demonstrated intellect and capability in mathematics physical sciences life sciences social sciences and computer sciences throughout time. Biographies of women who contributed to these fields since before the Common Era are interwoven into a discussion of the development of the scientific profession the advancement of education the professionalization of the various scientific occupations and the advancement of women in society. This book is a follow up to the author's book *Engineering Women: Re-visioning Women's Scientific Achievements and Impacts* Springer 2017. The author Jill Tietjen is the series editor for Springer's *Women in Engineering and Science* book series. Illuminates the many significant contributions of women in the sciences. Educates readers about the evolution of women's participation in the scientific fields over the last century. Demonstrates how key scientific advances are driven by socio-economic and cultural contexts.

Life Lessons from Explorers Felicity Aston, 2021-08-03 Great explorers are known for their hard-earned skills and meticulously honed character traits which have made their astonishing endeavours possible. Valuable lessons are waiting to be learned from the feats attained by the most revered names in exploration from legendary adventurers such as Christopher Columbus to contemporary figures such as Wasfia Nazreen. *Life Lessons from Explorers* collects 20 of the most highly prized traits shared by those who have scaled mountains and traversed tundras proposing how these could be applied to your own life whether you are crossing Antarctica or battling a mental obstacle. Compelling accounts of the life and times of celebrated explorers highlighting when they have displayed these traits are accompanied by remarkable images and documents from the Royal Geographical Society archives.

Wild Blue Media Melody Jue, 2020-02-28 In *Wild Blue Media* Melody Jue destabilizes terrestrial-based ways of knowing and reorients our perception of the world by considering the ocean itself as a media environment a place where the weight and opacity of seawater transforms how information is created stored transmitted and perceived. By recentring media theory on and under the sea Jue calls attention to the differences between perceptual environments and how we think within and through them as embodied observers. In doing so she provides media studies with alternatives to familiar theoretical frameworks thereby challenging scholars to navigate unfamiliar oceanic conditions of orientation materiality and saturation. Jue not only examines media about the ocean science fiction narratives documentary films ocean data visualizations animal communication methods and underwater art but reexamines media through the ocean submerging media theory underwater to estrange it from terrestrial habits of perception while reframing our understanding of mediation objectivity and metaphor.
