Mani, 1964 *Global Plantations in the Modern World* Colette Le Petitcorps, Marta Macedo, Irene Peano, 2023-02-02 Taking a multidisciplinary and global approach this edited book examines the dynamic role of plantations as productive socio-political and ecological forms throughout imperial and post-colonial worlds spanning multiple and broad temporalities Showcasing an expansive range of case studies across different geographies the collection sheds light on the heterogeneity of plantations and offers insights into the afterlives, spectres and remnants of systems that have been analysed as schemes of production, extraction and authority Focusing on the expansion of plantation systems throughout various political, economic and ecological projects and across the modern and post-modern period allows the authors to move beyond analyses that often deal with individual empires through human-centered lenses The contributors explore resistance to the mechanisms of extraction and control that plantations and their afterlives demanded shedding light on their excesses, contradictions, failures and deviations Offering a
